Wagon James Arthur Kjelgaard, 2021-04 Book Excerpt but Joe licked his lips in anticipation as he forced himself to plow one more furrow. It pleased him to work as hard as he could and sweat as much as he could before he indulged himself because then the indulgence was appreciated all the more. Swinging back on still another furrow he halted the mules in their tracks and walked to a leafy sycamore that spread its green branches where the plowed field ended. He pulled a handful of wilting grass aside and revealed a brown stone jug. For two seconds wanting to cheat himself of no part of this he looked at the jug. Its earthen sides were beaded with little globules of water and as it lay in the sycamore's shade it looked inviting. Joe knelt to pick it up and the jug was cool to his hand. He pulled the corn cob stopper and held the jug to his lips while he took great gulps of cold water. It was part of the ritual, a measure of things as they must be. A man who had never been sweat stained from hard labor could not know the true goodness of cold water. [Read More](#) *The Meek Cutoff* Brooks Geer

Ragan, 2016-06-01 In 1845 an estimated 2,500 emigrants left Independence and St. Joseph, Missouri for the Willamette Valley in what was soon to become the Oregon Territory. It was general knowledge that the route of the Oregon Trail through the Blue Mountains and down the Columbia River to The Dalles was grueling and dangerous. About 1,200 men, women and children in over two hundred wagons accepted fur trapper and guide Stephen Meek's offer to lead them on a shortcut across the trackless high desert of eastern Oregon. Those who followed Meek experienced a terrible ordeal when his memory of the terrain apparently failed. Lost for weeks with little or no water and a shortage of food, the Overlanders encountered deep dust, alkali lakes and steep rocky terrain. Many became ill and some died in the forty days it took to travel from the Snake River in present-day Idaho to the Deschutes River near Bend, Oregon. Stories persist that children in the group found gold nuggets in a small dry creek bed along the way. From 2006 to 2011 Brooks Ragan and a team of specialists in history, geology, global positioning, metal detecting and aerial photography spent weeks every spring and summer tracing the Meek Cutoff. They located wagon ruts, gravesites and other physical evidence from the most difficult part of the trail from Vale, Oregon to the upper reaches of the Crooked River and to a location near Redmond where a section of the trail reached the Deschutes. *The Meek Cutoff* moves readers back and forth in time using surviving journals from members of the 1845 party, detailed day-to-day maps, aerial photographs and descriptions of the modern-day exploration to document an extraordinary story of the Oregon Trail.
