Modern Art And Modernism A Critical Anthology:

Modern Art and Modernism Francis Francina, Charles Harrison, Deirdre Paul, 1982-12-28 *Modern Art and Modernism* offers first hand material for the study of issues central to the development of modern art its theory and criticism The history of modern art is not simply a history of works of art it is also a history of ideas and interpretations The works of critics and theorists have not merely been influential in deciding how modern art is to be seen and understood they have also influenced the course it has taken The nature of modern art cannot be understood without some analysis of the concept of Modernism itself *Modern Art and Modernism* presents a selection of texts by the major contributors to debate on this subject from Baudelaire to Zola in the 19th century to Greenburg and T J Clark on our own times It offers a balanced selection of essays by contributors to the mainstream of Modernist criticism representative examples of writing on the themes of abstraction and expressionism in modern art and a number of important contributions to the discussion of aesthetics and the social role of the artist *Modern Art and Modernism* FRANCIS. FRASCINA, Taylor & Francis Group, 2019-07-10 *Modern Art and Modernism* Francis Francina, 1982 *Modern Art and Modernism* Francis Francina, Charles Harrison, Deirdre Paul, 1982

Conversation Pieces Grant H. Kester, 2004-08-12 Grant Kester discusses the disparate network of artists collectives united by a desire to create new forms of understanding through creative dialogue that crosses boundaries of race religion culture **Critical Perspectives on Contemporary Painting** Jonathan P. Harris, 2003-01-01 Comprising examples of artwork and a series of essays this collection examines and assesses the current status of painting within global contemporary art It sheds light on fine art as it is understood as a facet of a global culture and society dominated by Northern European and US power and history *Writing Back to Modern Art* Jonathan Harris, 2005-10-09 Here for the first time is a full length study of the critical modernisms of the three leading art writers of the second half of the twentieth century which helps us build a better understanding of the development of modern art writing and its relation to the post modern in art and society since the 1970s Focusing on canonical modern artists such as Manet Cezanne Picasso and Pollock this book provides an important understanding of writing and criticism in modern art for all students and scholars of art theory and art history Mainstay issues discussed include aesthetic evaluation subjectivity and meaning in art and art writing Jonathan Harris examines key discourses and identifies points of significant overlap as well as sharp disjunction between the critics Developing the notions of good and bad complexity in modernist criticism *Writing Back to Modern Art* creates ways for us to think outside of these discourses of value and meaning and helps us to look at the place that art writing holds in the latter twentieth century and beyond **The Matter of High Words** Robert Chodat, 2017-08-18 In a world of matter how can we express what matters When the explanations of the natural sciences become powerfully precise and authoritative what is the status of our highest words the languages that articulate our norms and orient our lives *The Matter of High Words* examines a constellation of American writers who in the decades since World War II have posed these questions in

distinctive ways Walker Percy Marilynne Robinson Ralph Ellison Stanley Cavell and David Foster Wallace are all self consciously post WWII authors attuned to the fragmentation and skepticism that have defined so much of the literary and critical culture of the last century and more Yet they also attempt to reach back to older forms of thought and writing that are often thought to have dried up the traditions of prophecy of wisdom literature of the sage Working within this dual inheritance these authors are drawn equally to both art and argument showing and telling shifting continually between narrative and discursive genres In their essays they act as moralists promoting the broad abstract concepts that might inspire action in the face of naturalistic reduction community family courage fraternity marriage friendship temperance judgment In their narratives they offer particular lives in particular settings thick descriptions that give flesh to such high words Rarely do these movements between genres generate a tidy equilibrium where their essays speak of cooperation and redemption their narratives display alienation loss and failure But in pursuing such risky unorthodox strategies these postwar sages are not only able to challenge some of the dominant naturalistic theories of the last several decades cognitive science neo Darwinian theory social science the fact value divide in analytic philosophy Through five chapters of detailed analysis and close reading Chodat explores the question of whether vocabularies of ought and ought not can still emerge today and how these concepts might be embodied and whether such ideas might be found in things Modernism's Second Act: A Cultural Narrative I. Nadel, 2012-12-17 European modernism underwent a massive change from 1930 to 1960 as war altered the cultural landscape This account of artists and writers in France and England explores how modernism survived under authoritarianism whether Fascism National Socialism or Stalinism and how these artists endured by balancing complicity and resistance **Monochrome** Craig Staff, 2015-09-17 The monochrome a single colour of paint applied over the entirety of a canvas remains one of the more contentious modernist artistic inventions But whilst the manufacture of these pictures of nothing was ostensibly straightforward their subsequent theorisation has been anything but More than a history Monochrome Darkness and Light in Contemporary Art is the first account of the monochrome s lively role in contemporary art Liberated from the burden of representation the monochrome first stood for emancipation an ideological and artistic impulse that characterised the avant garde of the early twentieth century Historically the monochrome embodied the most extreme form of abstraction and pure materiality Yet more recently adaptations of the art form have focused on a broader range of cultural and interpretive contexts Provocative innovative and timely this book argues that the latest artistic strategies go beyond stylistic concerns and instead seek to re engage with ideas around authorship process and the conditions of the visible as they are given and understood through both light and darkness Discussing works by artists such as Katie Paterson Hiroshi Sugimoto Tom Friedman Bruno Jakob Sherrie Levine and Ceal Floyer the book shows that the debates around an artwork s form and its possibility for meaning that the monochrome first engendered remain very much alive in contemporary visual culture
