Fragile Lives Arlette Farge,1993 The rich and complex texture of working class neighborhoods in eighteenth century Paris comes vibrantly alive in this collage of the experiences of ordinary people men and women rich and poor masters and servants neighbors and colleagues Exploring three arenas of conflict and

solidarity the home the workplace and the street Arlette Farge offers the reader an intimate social history bringing long dead citizens and vanished social groups back to life with sensitivity and perception Meeting of Minds Irene Bloom, Joshua A. Fogel, 1997 In Meeting of Minds eleven prominent scholars explore intellectual and religious interactions among diverse traditions of the East Asian world The authors consider central issues including concepts of religious authority perceptions of the relation between knowledge and action the sense of the sacred within the realm of ordinary human existence and the concern with historical experience and practicality as criteria for evaluating ideas and beliefs The Big Book of Paranormal Tim Rayborn, 2021-08-17 Prepare to be baffled with The Big Book of Paranormal Dive deep into urban legends creepy hauntings and tales of the unexplained with the Big Book of Paranormal Featuring over 300 hair raising spine chilling stories around Bigfoot the Loch Ness UFOs aliens curses ghosts and unsolved mysteries Otherworldly illustrations and images bring these mystical and frightening tales to life and make the stories creep off the page This is the perfect gift for the little ghost hunter or paranormal enthusiast in your life Neuromined Robert Edward Grant, Michael Ashley, 2023-07-25 Are advances in technology working for us or against us When our phones become our keys to access everything will our lives be more convenient or more at the mercy of whoever can hack into our devices Will self driving cars help us maximize our time and get to our destination safely or will they erode the autonomy and freedom we feel when we drive ourselves What happens if the government in the name of public health gains access to the data in our handy fitness trackers and uses it to reward or limit us In Neuromined data sovereignty advocate Robert Edward Grant and prolific technology author Michael Ashley team up to explore significant questions such as these Each chapter imagines a near future surveillance dystopia through a riveting fictional tale and provides a companion analysis connecting the story to our present reality Entertaining and provoking this book shows readers how the technology that has promised a lifetime of convenience has also constrained a public s individual options and agency But all hope is not lost Neuromined at its core demonstrates how technology when viewed through a different ethos and used by a conscientious public can instead provide greater autonomy and greater access to liberation The Evidence for Phantom Hitch-Hikers Michael Goss, 2015-04-01 All over the world motorists report giving lifts to hitch hikers who then vanish ghostlike into thin air Phantom Hitch Hikers as these insubstantial passengers are called have become classified as an urban legend and have been related to historical tales of supernatural traveling companions But is there more to such stories than picturesque folklore Are there genuine paranormal experiences behind the reports Goss explores the meaning and causes of this phenomenon In terms of purpose and behavior the Phantom Hitch Hiker of urban folklore is a thoroughly conventional ghost one who matches popular expectations of what a ghost is what it does and why He or she is the spirit of a deceased person the victim of a tragic accident which resulted in the premature termination of earthly existence It would appear that these ghosts are motivated by especially on the anniversaries of their unfortunate accidents a desire to complete their unfinished homeward journeys It would also appear

that they do not know that they are dead This is the most comprehensive study of a peculiar phenomenon that has mystified students of the paranormal for centuries Goss study will entertain and inform anyone who enjoys a good ghost story and anyone who is interested in understanding the mysterious and unexplained **For Better or Hearse** Ann Yost,2016-09-16 When Daisy Budd and her slightly dysfunctional sisters decide to turn a mortuary into a fashionable wedding boutique they expect some opposition After all towns like Mayville don t care much for change But when a body shows up in the mortuary s fountain Daisy knows it s time to leave the bridezillas behind and solve the mystery Nick Bowman disinherited son of the town s leading family is back after a seven year estrangement He s determined to protect his late grandfather s reputation by locating some loot supposedly hidden in the mortuary s cellar But Nick s quest is complicated by the new owner Daisy doesn t trust his motives and she s uncomfortable with the sparks the two of them generate especially since Nick used to date her sister When a second body shows up at the mortuary Nick and Daisy need to work together to find the truth but what happens when their inconvenient sparks become flames *Glory* Heather Graham,2013-01-08 In this Civil War romance by the New York Times and USA Today bestselling author a Florida woman suspected of witchcraft reawakens a Rebel doctor s heart Julian McKenzie a surgeon and makeshift colonel is at the end of his rope He s trapped deep in the South with his Rebel platoon and their supplies and morale are running low But while fleeing from an attack he finds salvation in a most unusual form a run down plantation Inside widow Rhiannon Tremaine a Union sympathizer practices what the locals describe as witchcraft In reality Rhiannon is a gifted healer and medic Still she does have a bit of magic in her In the fifth book of her Florida Civil War series bestselling author Heather Graham evokes a treacherous world of divided loyalties Rhiannon has the gift of second sight and while she used to welcome her visions now her dreams only give her pain In Julian though she may have found someone to change them if the war doesn t conspire to rip the two apart This ebook features an illustrated biography of Heather Graham including rare photos from the author s personal collection It's the Crude, Dude Linda McQuaig,2007-04-01 George W Bush says he invaded Iraq to bring democracy to the Middle East Some people believe that But if you have nagging doubts you ll be intrigued by the story unraveled in *It s the Crude Dude* With all the drama of a thriller Canadian bestselling author Linda McQuaig probes the mystery of what really lay behind the U S invasion of Iraq She points to Washington s desire to gain control of the most spectacular untapped oil bonanza on Earth even as rapidly dwindling worldwide oil reserves threaten to turn competition for crude into the major international battleground of the future That battle has actually been raging for decades Once tightly controlled by Big Oil most of the world s oil reserves have been taken over by nationalistic regimes in the Middle East Ever since those regimes imposed an oil embargo on the United States in the mid 1970s Washington has been determined to regain control over oil by force if necessary With China s recent emergence as a voracious oil consumer there soon won t be enough oil left to fuel two superpowers Against this backdrop and the equally urgent problem of global warming *It s the Crude Dude* reminds us of the enormous consequences
