Cross Examined John W. Campbell, 2021-09-15 Christianity is more than just a religion It is a social organism that affects the lives of every person on earth in significant ways even if they are not Christians themselves In the United States its influence is pervasive with often profound influence on public policies but it is largely unchallenged as a belief system relegated to that quarantined area outside the zone of polite conversation Despite much academic ink being allotted to the weaknesses of Christianity as a valid belief system the general public remains unaware of these flaws In Cross Examined John Campbell applies his almost thirty years of experience as a trial lawyer to dissecting Christianity and the case of apologists for the Christian God He addresses the best arguments for Christianity those against it and the reasons

people should care about these questions His purpose is to fill a void in books on atheism and Christianity by systematically taking Christian claims to task and making a full throated argument for atheism from the perspective of a trial lawyer making a case

Antibiotics David M. Shlaes, 2010-09-02 Antibiotics are truly miracle drugs As a class they are one of the only ones that actually cure disease as opposed to most drugs that only help relieve symptoms or control disease Since bacteria that cause serious disease in humans are becoming more and more resistant to the antibiotics we have today and because they will ultimately become resistant to any antibiotic that we use for treatment or for anything else we need a steady supply of new antibiotics active against any resistant bacteria that arise However the antibiotics marketplace is no longer attractive for large pharmaceutical companies the costs of development are skyrocketing because of ever more stringent requirements by the regulatory agencies and finding new antibiotics active against resistant strains is getting harder and harder These forces are all combining to deny us these miracle drugs when we need them the most I provide a number of possible paths to shelter from this perfect storm

Teacher Retention in an Age of Performative Accountability Jane Perryman, 2022-03-30 In this insightful and timely volume Jane Perryman provides a definitive analysis of the crisis in teacher recruitment and retention through a critique of the culture of performative accountability in education bringing together theory literature and empirical data Drawing on data across several long term research projects and through a Foucauldian theoretical framework Perryman argues that teachers' working lives both in the UK and internationally are being increasingly affected by the rise in the neoliberal performativity and accountability culture in schools Teachers' work is increasingly directed towards assessment exams progress measures and preparation for review and inspection and drawn away from the more individualistic and creative aspects of the job This culture of hyper accountability and super performativity Perryman argues has created a discourse of disappointment where the hopes and aspirations of teachers are crushed beneath the performative pressures under which they work *Teacher Retention in an Age of Performative Accountability* offers a convincing compellingly written critical analysis of how the values purposes and practices embedded in education affect the working experience of teachers over time Perryman makes a significant contribution to our understanding of the effects of accountability and performativity
