## **Moving The House:**

Moving a House with Preservation in Mind Peter Paravalos, 2006-06-02 House moving has recently been pushed to the forefront of preservation efforts as an alternative to demolition. When the choice becomes to either move a historically significant building away from its original physical and cultural landscape or see history torn down and buried away in our ever growing landfills relocation can be the preferred option. Aggressive residential and business developments have forced preservationists, historical commissions and concerned citizens to act by moving historic homes in an effort to save them from destruction. What is involved in moving a house? Where does one begin? Most importantly, what will it cost? Moving a House with Preservation in Mind can be used as a reference book by anyone contemplating a house move, whether historic or non-historic, as they decide whether to undertake such a complex project. The book examines the process of moving a house step by step, from the planning stage through cost analysis, funding availability, moving options and the physical move. A detailed case study illustrates the importance of house moving in preservation and the final chapter provides briefer examples of several house moves across the U.S. and the various obstacles each encountered. Written by a structural engineer specializing in building relocation projects with a background and active role in historic preservation, Moving a House with Preservation in Mind uses clear text and insightful photographs to make technical issues easily accessible. Peter Paravalos explores a variety of move types, underscoring the important dos and don'ts that will help to make your project a success. **Moving House** Mark Siegel, 2011-09-27 The fog in Foggytown was so thick that people bumped into parking meters and streetlamps and each other. So Joey and Chloe's parents decide it's time to move. But Joey and Chloe love their house. And as it turns out, their house loves them and has a very special and utterly fantastic way of taking matters into its own hands. Comic and picture book star Mark Siegel has spun a delightful and compelling fantasy for young picture book readers, illustrated in a unique style that combines elements of traditional picture book, comic and animation art. **Moving to a New House** Nicola Barber, 2008-12-15 Discusses how and why people move, how to say goodbye to friends in an old neighborhood, how it feels to move, loneliness and how to feel at home and make friends in a new place. **The House in Southeast Asia** Signe Howell, Stephen Sparkes, 2013-07-04 Explores the concept of house in the context of Levi Strauss' idea of the house as a link between kinship-based societies and class societies, developing this further into an examination of a conjuncture of architecture, people and symbolism. How to Move House Pamela Hatswell, 2012-04-18 without forgetting what matters most.
