The Choreography of Environments Janice Ross, 2025-01-28 *The Choreography of Environments* How the Anna and Lawrence Halprin Home Transformed Contemporary Dance and Urban Design explores how objects and the domestic spaces seep into the aesthetic consciousness of movement based artists like dancers and urban designers significantly shaping their approach to movement invention and choreography If these objects and spaces happen to have been designed by a leading modernist architect and landscape designer working with the dancer then the aesthetic imprint is amplified Dance innovation becomes pressed into dialogue with spatial environmental and urban agendas *The Choreography of Environments* builds on this premise to consider the use of ordinary objects from a private residence as lenses into viewing dance innovation Author Janice Ross posits the Halprins 1950s iconic mid century modern home and expansive outdoor dance deck as a hidden archive She explores four objects from their house and gardens staircase deck chair and window to trace how despite the conservative postwar climate this intimate domestic space became a radical template reshaping postmodern dance invention and its expansion into civic social and environmental engagement in the twentieth and twenty first centuries The work that happened in this white middle class Jewish American home in a San Francisco suburb paved the way for changes that continue to resonate today across contemporary dance performance and urban design These include defamiliarizing urban landscape and gardens as cloistered theaters where civic identities are rehearsed orchestrating collective problem solving and invention normalizing the nude body privileging a utilitarian and responsive rather than sentimental approach to dance in the environment and re positioning choreography as a vital medium for urban problem solving These four representative objects in the Halprin home are also used to trace the burgeoning of dance as a forceful medium for civic engagement and its valorization of the ordinary in movement As a whole this book shows how dance architecture and landscape design would have a profound confluence through these shared domestic spaces and objects of the Halprins lives *Anna Halprin* Ursula Schorn, Ronit Land, Gabriele Wittmann, 2014-09-21 This book considers the creative work and therapeutic and pedagogical approach of Anna Halprin a dancer choreographer and early pioneer in the expressive arts healing movement It looks at her Life Art Process and the wider impact of her work across the fields of art education therapy and politics **The Concrete Body** Elise Archias, 2016-11-29 Offering an incisive rejoinder to traditional histories of modernism and postmodernism this original book examines the 1960s performance work of three New York artists who adapted modernist approaches to form for the medium of the human body Finding parallels between the tactility of a drip of paint and a body s reflexive movements Elise Archias argues convincingly that Yvonne Rainer b 1934 Carolee Schneemann b 1939 and Vito Acconci b 1940 forged a dialogue between modernist aesthetics and their own artistic community s embrace of all things ordinary through work that explored the abstraction born of the body s materiality Rainer s task like dances Schneemann s sensuous appropriations of popular entertainment and Acconci s behaviorist inflected tests highlight the body s unintended movements as vital reminders of embodied struggle amid the constraining structures in contemporary culture Archias also draws compelling

comparisons between embodiment as performed in the work of these three artists and in the sit ins and other nonviolent protests of the era

**Anna Halprin** Libby Worth, Helen Poyner, 2018-06-13 Anna Halprin traces the life's work of this radical dance maker documenting her early career as a modern dancer in the 1940s through to the development of her groundbreaking approach to dance as an accessible and life enhancing art form Now revised and reissued this book sketches the evolution of the San Francisco Dancers Workshop exploring Halprin's connections with the avant garde theatre music visual art and architecture of the 1950s and 60s offers a detailed analysis of Halprin's work from this period provides an important historical guide to a time when dance was first explored beyond the confines of the theatre and considered as a healing art for individuals and communities As a first step towards critical understanding and an initial exploration before going on to further primary research Routledge Performance Practitioners offer unbeatable value for today's student

**The Expressive Body in Life, Art, and Therapy** Daria Halprin, 2003 Drawing on her extensive experience in expressive arts therapy Daria Halprin presents a unique approach to healing through movement and art She describes the body as the container of one's entire life experience and movement as a language that expresses and reveals our deepest struggles and creative potentials Interweaving artistic and psychological processes she offers a philosophy and methodology that invites the reader to consider the transformational capacity of the arts In this essential resource for anyone interested in the integration of psychotherapy and the arts Halprin also presents case studies and a selection of exercises that she has evolved over her career and practised at the Tamalpa Institute for over twenty five years

*The Oxford Handbook of Improvisation in Dance* Vida L. Midgelow, 2019-02-21 From the dance floor of a tango club to group therapy classes from ballet to community theatre improvised dance is everywhere For some dance artists improvisation is one of many approaches within the choreographic process For others it is a performance form in its own right And while it has long been practiced it is only within the last twenty years that dance improvisation has become a topic of critical inquiry With *The Oxford Handbook of Improvisation in Dance* dancer teacher and editor Vida L Midgelow provides a cutting edge volume on dance improvisation in all its facets Expanding beyond conventional dance frameworks this handbook looks at the ways that dance improvisation practices reflect our ability to adapt communicate and respond to our environment Throughout the handbook case studies from a variety of disciplines showcase the role of individual agency and collective relationships in improvisation not just to dancers but to people of all backgrounds and abilities In doing so chapters celebrate all forms of improvisation and unravel the ways that this kind of movement informs understandings of history socio cultural conditions lived experience cognition and technologies
