Making Moving Toys and Automata Robert Race,2018-10-23 This beautiful book draws on Robert Race s extensive collection of traditional moving toys looking at the ways the makers have achieved remarkable and varied results often with very limited resources Each chapter begins by looking at the mechanisms and materials used in some of these traditional moving toys goes on to consider possible variations and describes how to make a related moving toy It continues from this basis to develop a design for an automaton The book shows that designing and making these simple but wonderfully satisfying mechanical devices is fun and that good results can be achieved in many different ways using a variety of materials tools and equipment such as wood and wire card and paper bamboo string tin plate and feathers It exploits in a simple way mechanisms such as levers linkages cranks and cams It explores different ways of moving those mechanisms directly by hand by springs or falling weights and by the wind Beautifully illustrated with 117 colour images **Mystery Fanfare** Michael L. Cook,1983 This work is a composite index of the complete runs of all mystery and detective fan magazines that have been published through 1981 Added to it are indexes of many magazines of related nature This includes magazines that are primarily oriented to boys book collecting the paperbacks and the pulp magazine hero characters since these all have a place in the mystery and detective genre *18 Bookshops* Anne Scott,2016-02-18 Anne Scott has never housed her books in order of theme or author yet she knows where each of them is and the kind of life it has led Some have been gifts but most have been chosen in bookshops unique in their style and possibilities They have been observers of discovery decisions and marvels with her following the line of her time and place Some are everyday shops with a shelf of books in a corner some are beginning again after long lives as churches printing presses medieval houses a petrol station There are a few the author is too late to see early print houses and booksellers here too in this book searched for and described side by side with all the bookshops open now and busy with readers Not one is like another In one way the book is a sequence about writing But first it is a map of books and a life **Moving Toyshop** Edmund Crispin,1988-09-01 Named by P D James as one of the best five

mysteries of all time Richard Cadogan is at loose ends in Oxford very late at night Charmed by the window display of an old fashioned toyshop he is worried to find the door unlocked surely the owner should be alerted And so Cadogan slips into the darkened store and up the narrow stairway to the apartment above But rather than a snoring toyman he finds a very dead old lady the marks of murder still livid on her neck But when Cadogan returns with the coppers the toyshop has disappeared This it seems is a matter for Gervase Fen

Bruce Montgomery/Edmund Crispin: A Life in Music and Books David Whittle,2017-07-05 Under his real name Bruce Montgomery 1921 1978 wrote concert music and the scores for almost 50 feature films including some of the most enduring British comedies of the twentieth century amongst them a number in the series started by Doctor in the House and the first six Carry On films Under the pseudonym of Edmund Crispin he enjoyed equal success as an author writing nine highly acclaimed detective novels and a number of short crime stories as well as compiling anthologies of science fiction which helped to increase the profile of the genre A close friend of both Philip Larkin and Kingsley Amis Montgomery did much to encourage their work In this first biography of Montgomery David Whittle draws on interviews with people who knew the writer and composer These interviews together with in depth research provide great insight into the development of Montgomery as a crime fiction writer and as a composer in the ever demanding world of films During the late 1950s and early 60s these demands were to prove too much for Montgomery Alcoholism combined with the onset of osteoporosis and a retreat into a semi reclusive lifestyle resulted in him writing and composing virtually nothing during the last 15 years of his life David Whittle examines the reasons for Montgomery s early and rapid decline in this thoroughly researched and engagingly written biography

Twelve Englishmen of Mystery Earl F. Bargainnier,1984 There are hundreds of satisfactory and satisfying British mystery writers whose works should be studied both for their own individual accomplishments and for their comments on the society in which they were published in the last 150 years but who have not received any critical comment lately This volume is designed to correct that fault in a dozen of those unjustifiably neglected British authors Wilkie Collins A E W Mason G K Chesterton H C Bailey Anthony Berkeley Cox Nicholas Blake Michael Gilbert Julian Symons Dick Francis Edmund Crispin H R F Keating and Simon Brett

Comic Crime Earl F. Bargainnier,1987 The actual world of crime is not a subject for laughter but rather for anger or

tears The world of fiction however is a different matter Most crime fiction is much nearer the comic than the tragic In the oldest sense of the term comedy that no matter the difficulties misunderstandings or even deaths the evil are thwarted and the good rewarded crime fiction is essentially comic The following eleven original essays cover a wide range in time authors forms of fiction and types of comedy I hope readers will be both informed and entertained by this excursion into British and American humor and homicide comedy and crime Encyclopaedia Perthensis; or, Universal dictionary of Knowledge.
[With] Supp Encyclopaedia Perthensis,1816 **Writing through Boyhood in the Long Eighteenth Century** Chantel Lavoie,2023-11-10 Writing through Boyhood in the Long Eighteenth Century explores how boyhood was constructed in different creative spaces that reflected the lived experience of young boys through the long eighteenth century not simply in children s literature but in novels poetry medical advice criminal broadsides and automaton exhibitions The chapters encompass such rituals as breeching learning to read and write and going to school They also consider the lives of boys such as chimney sweeps and convicted criminals whose bodily labor was considered their only value and who often did not live beyond boyhood Defined by a variety of tasks expectations and objectifications boys real imagined and sometimes both were subject to the control of their elders and were used as tools in the cause of civil society commerce and empire This book argues that boys in the long eighteenth century constituted a particular kind of currency both valuable and expendable valuable because of gender expendable because of youth **Sequels** Janet G.
