Movin on Up Robert Gordon, Tom Burgoyne, 2005 *Movin On Up* takes a fun ride through the then and now of a great city and its ball club The city and its team have cooked up a partnership as strong and as strange as scrapple and toast over the past 121 years Since 1883 the Phillies have been on the move at times slowly many times glacially and sometimes quickly *Movin On Up* layers the present on the past by revisiting the places the Fightin' Phils once called their new home But *Movin On Up* is really about people past and present not only players but others who help and helped Philly move on up to the fabulous sports town we know today The journey rolls along humorous and poignant episodes old and new that have splashed Philly and its fan with the signature color that both fascinates and infuriates outsiders As this new millennium dashes toward the midpoint of its first decade Philly's Phillies have a new park a new team and a new attitude Well maybe the attitude isn't all that new as you'll read and see

We are still in the prototype stage Did humans want racism Did humans want religion Did humans want caste power and money Anyway Humans do have all this All these components make it easy to stay divided and detached People should realize what the backbone of society is Money racism caste power religion will these fulfil that place The current educational system is creating competition between people It rates people based on competition The educational system has evolved over the years It adapted to the political philosophies their country accommodated The educational authorities lost their purpose They started creating Unsatisfied workers Somebody unknown creates most war threats to make people hate their neighboring country Because of that most people always curse each other They feel good about being separated from them This somebody can't be identified and they are doing it They have benefits in it because people are separated Why is this monetary system a failure All developments will come after lots of testing and failures No new things are successful on the first attempt but a few things are there as exceptions So only some attempts will make a systemic return Failures are significant reasons for failed repayments So from here we can understand only one thing Failures are never accepted in the system
