**Moving Upcountry** Don Mitchell,1984-01-01      *We Are As Gods* Kate Daloz,2016-04-26 Between 1970 and 1974 ten million Americans abandoned the city and the commercialism and all the inauthentic bourgeois comforts of the Eisenhower era America of their parents Instead they went back to the land It was the only time in modern history that urbanization has gone into reverse Kate Daloz follows the dreams and ideals of a small group of back to the landers to tell the story of a nationwide movement and moment And she shows how the faltering hopeful but impractical impulses of that first generation sowed the seeds for the organic farming movement and the transformation of American agriculture and food tastes In the Myrtle Hill commune and neighboring Entropy Acres high minded ideas of communal living and shared decision making crash headlong into the realities of brutal Northern weather and the colossal inconvenience of having no plumbing or electricity Nature it turns out is not always a generous or provident host frosts are hard snowfalls smother roads and small wood fires do not heat imperfectly insulated geodesic domes Group living turns out to be harder than expected too Being free to do what you want and set your own rules leads to some unexpected limitations once the group starts growing a little marijuana they can no longer call on the protection of the law especially against a rogue member of a nearby community For some of the group the lifestyle is truly a saving grace they credit it with their survival For others it is a prison sentence *We Are As Gods* the first line of the Whole Earth Catalog the movement's bible is a poignant rediscovery of a seminal moment in American culture whose influence far outlasted the communities that took to the hills and woods in the late 60s and 70s and remains present in every farmer's market every store selling Stonyfield products or Keen shoes or Patagonia sportswear

*Back to the Land* Dona Brown,2011-06-01 For many going back to the land brings to mind the 1960s and 1970s hippie communes and the Summer of Love The Whole Earth Catalog and Mother Earth News More recently the movement has reemerged in a new enthusiasm for locally produced food and more sustainable energy paths But these latest back to the landers are part of a much larger story Americans have been dreaming of returning to the land ever since they started to leave it In *Back to the Land* Dona Brown explores the history of this recurring impulse Back to the landers have often been viewed as nostalgic escapists or romantic nature lovers But their own words reveal a more complex story In such projects as Gustav Stickley's Craftsman Farms Frank Lloyd Wright's Broadacre City and Helen and Scott Nearing's quest for the good life Brown finds that the return to the farm has meant less a going backwards than a going forwards a way to meet the challenges of the modern era Progressive reformers pushed for homesteading to help impoverished workers get out of unhealthy urban slums Depression era back to the landers wary of the centralizing power of the New Deal embraced a new third way politics of decentralism and regionalism Later still the movement merged with environmentalism To understand Americans response to these back to the land ideas Brown turns to the fan letters of ordinary readers retired teachers and overworked clerks recent immigrants and single women In seeking their rural roots Brown argues Americans have striven
