Moyra Davey The Problem Of Reading:

The Problem of Reading Moyra Davey, 2003-01-01 Lateness and Longing George Baker, 2023-05-23 How a generation of women artists is transforming photography with analogue techniques Beginning in the 1990s a series of major artists imagined the expansion of photography intensifying its ideas and effects while abandoning many of its former medium constraints Simultaneous with this development in contemporary art however photography was moving toward total digitalization Lateness and Longing presents the first account of a generation of artists focused on the work of Zoe Leonard Tacita Dean Sharon Lockhart and Moyra Davey who have collectively transformed the practice of photography using analogue technologies in a dissident way and radicalizing signifiers of older models of feminist art All these artists have resisted the transition to the digital in their work Instead in what amounts to a series of feminist polemics they return to earlier incomplete or unrealized moments in photography's history gravitating toward the analogue basis of photographic mediums Their work announces that photography has become not obsolete but late opened up by the potentially critical forces of anachronism Through a strategy of return of refusing to let go the work of these artists proposes an afterlife and survival of the photographic in contemporary art a formal lateness wherein photography finds its way forward through resistance to the contemporary itself Lifework Moran Sheleg, 2024-07-23 Following the critical scepticism surrounding the notion of the self as a singular entity during the 1960s many artists and writers sought to test the apparent problem posed by autobiography as both a traditional genre and as a way of working Considering the consequent emergence of autotheory Lifework traces this shift in artistic and literary production during the late twentieth century and beyond examining a set of diverse practices that mine the line between what it is to make art and what it is to live life The book's chapters connect a variety of artistic strategies that cut across medium geography and time uncovering how the historical marginalisation of first person experience has taken on larger social cultural and political implications in the contemporary moment and how the work of living might still relate to the work of art Anti-Portraiture Fiona Johnstone, Kirstie Imber, 2020-11-26 The portrait has historically been understood as an artistic representation of a human subject Its purpose was to provide a visual or psychological likenesses or an expression of personal familial or social identity it was typically associated with the privileged individual subject of Western modernity Recent scholarship in the humanities and social sciences however has responded to the complex nature of twenty first century subjectivity and proffered fresh conceptual models and theories to analyse it The contributors to Anti Portraiture examine subjectivity via a range of media including sculpture photography and installation and make a convincing case for an expanded definition of portraiture By offering a timely reappraisal of the terms through which this genre is approached the chapter authors volunteer new paradigms in which to consider selfhood embodiment and representation In doing so they further this exciting academic debate and challenge the curatorial practices and acquisition policies of museums and galleries *Role Models* John Waters, 2010-05-25

Mother Reader Moyra Davey, 2011-01-04 The intersection of motherhood and creative life is explored in these writings on mothering that turn the spotlight from the child to the mother herself Here in memoirs testimonials diaries essays and fiction mothers describe first hand the changes brought to their lives by pregnancy childbirth and mothering Many of the writers articulate difficult and socially unsanctioned maternal anger and ambivalence In *Mother Reader* motherhood is scrutinized for all its painful and illuminating subtleties and addressed with unconventional wisdom and candor What emerges is a sense of a community of writers speaking to and about each other out of a common experience and a compilation of extraordinary literature never before assembled in a single volume

[Searching for Feminist Superheroes](#) Sam Langsdale, 2024-09-17 How superhero narratives in the margins of the mainstream tell innovative feminist stories It's no secret that superhero comics and their related media perpetuate a model of a straight white male hero at the expense of representing women and other minorities but other narratives exist *Searching for Feminist Superheroes* recognizes that female led superhero comics with diverse casts of characters and inclusive storytelling exist on the margins of the mainstream superhero genre But rather than focusing on these stories as marginalized Sam Langsdale's work on heroes such as Spider Woman America Chavez and Ironheart locates the margins as a site of innovation and productivity

which have enabled the creation of feminist superhero texts Employing feminist and intersectional philosophies in an analysis of these comics Langsdale suggests that feminist superheroes have the potential to contribute to a social imagination that is crucial in working toward a more just world At a time when US popular culture continues to manifest as a battleground between oppressive and progressive social norms Searching for Feminist Superheroes demonstrates that a fight for a better world is worthwhile

Documents ,1993 **Present Tense** Susan Kismaric,JoAnn Verburg,2007 Through such formal devices as series and multipanel works JoAnn Verburg invigorates some of photography s common themes the portrait the landscape the domestic view Some of her work catches viewers off guard leaving them unsure where they stand in relationship to the scene being shown others play with the passage of time offering narratives that play out in either space or time or both or neither The intimate spaces of personal life are another of her ongoing themes as shown in a series featuring her husband the poet Jim Moore reading newspapers or books or sleeping The unguarded intimacy of the image strikes one note here the tension and reality of the current events featured on that day s newspaper strikes another reaching out of the work into the world expanding photography s space even further Whether taking pictures of artists swimmers trees or pyramids constructed from sand Verburg deftly pushes at the boundaries of the representation of time and space
