Mozart Julian Rushton, 2006-02-01 Wolfgang Amadeus Mozart is one of the great icons of Western music An amazing prodigy he toured the capitals of Europe while still a child astonishing royalty and professional musicians with his precocious skills he wrote as an adult some of the finest music in the entire European tradition Julian Rushton offers a concise and up to date biography of this musical genius combining a well researched life of the composer with an introduction to the works symphonic chamber sacred and theatrical of one of the few musicians in history to have written undisputed masterpieces across every genre of his time Rushton offers a vivid portrait of the composer ranging from Mozart the Wunderkind travelling with his family from Salzburg to Vienna Paris London Rome and Milan to the mature author of such classic works as The Marriage of Figaro Don Giovanni and The Magic Flute During the past half century scholars have thoroughly explored Mozart s life and music offering new interpretations of his compositions based on their historical context and providing a factual basis for confirming or more often debunking fanciful accounts of the man and his work Rushton takes full advantage of these biographical and musical studies as well as the definitive New Mozart Edition to provide an accurate account of Mozart s life and equally important an insightful look at the music itself complete with musical examples An engaging biography for general readers that will also be an informative resource for scholars this new addition to the prestigious Master Musicians series offers an authoritative portrait of one of the defining figures of European culture An Analysis of the Mozart Symphony No. 40 in G Minor Harley M. Busby, 1955 **The London Review of Politics, Society, Literature, Art, & Science**, 1863 The 17th and 18th Centuries Frank N. Magill, 2013-09-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history

This is not a who's who. Instead each entry provides an in depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

The Gramophone, 1923 "*Composition, Chromaticism and the Developmental Process*" Henry Burnett, 2017-07-05

Musicology having been transmitted as a compilation of disparate events and disciplines has long necessitated a magic bullet, a unified field theory so to speak that can interpret the steady metamorphosis of Western art music from late medieval modality to twentieth century atonality within a single theoretical construct. Without that magic bullet, discussions of this kind are increasingly complicated and to make matters worse the validity of any transformational models and ideas of the natural evolution of styles is questioned and even frowned upon today as epitomizing a grotesque teleological bigotry. Going against current thinking, Henry Burnett and Roy Nitzberg claim that the teleological approach to observing stylistic change is still valid when considered from the purely compositional perspective. The authors challenge the traditional understanding of development and advance a new theory of eleven pitch tonality as it relates to the corpus of Western composition. The book plots the evolution of tonality and its bearing on style and the compositional process itself. The theory is not based on the diatonic aspect of the various tonal systems exploited by composers; rather, the theory is chromatically based, the chromatically inflected octave being the source, not only of a highly ingenious developmental dialectic but also encompassing the moment-to-moment progression of the musical narrative itself. Even the most profound teachings of Schenker and the often startlingly original and worthwhile speculations of Riemann, Tovey, Dahlhaus and others still provide no theory of development and so are ultimately unable to unite the various tendrils of the compositional organism into a unified whole. Burnett and Nitzberg move beyond existing theory and analysis to base their theory from the standpoint of chromatic pitch fields. These fields are the specific chromatic pitch choices that a composer uses to inform and design a complete composition, utilizing *The Music of Wolfgang Amadeus Mozart, the Symphonies* Robert Dearling, 1982. Giving special attention to contemporary recordings and performances which show Mozart's symphonies in their best light, this study explains how his individual sound is achieved, considers problems of eighteenth century instrumentation and advances new theories on the composer's life. *Underground Music from the Former USSR* Valeria Tsenova, 2014-02-25. What happened to contemporary music in the Soviet Union after Stravinsky, Shostakovich and Prokofiev? This book is a valuable source of information on the composers of the generations following these three great innovators. It is a document of the hidden period of Russian music of what happened after the denunciation of Shostakovich and Prokofiev by the Composers Union. It contains profiles of the most interesting and innovative composers from Russia and the former Soviet republics, written by leading musicologists. Featured composers include Andrei Volkonsky, Philip Gershkovich, Sergei Slonimsky, Boris Tishchenko, Valentin Silvestrov.
