Mr. Butterfly, and Other Tales of New Japan Hal Porter,1971      The Routledge Companion to Australian Literature

Jessica Gildersleeve,2020-12-22 In recent years Australian literature has experienced a revival of interest both domestically and internationally The increasing prominence of work by writers like Christos Tsiolkas heightened through television and film adaptation as well as the award of major international prizes to writers like Richard Flanagan and the development of new high profile prizes like the Stella Prize have all reinvigorated interest in Australian literature both at home and abroad This Companion emerges as a part of that reinvigoration considering anew the history and development of Australian literature and its key themes as well as tracing the transition of the field through those critical debates It considers works of Australian literature on their own terms as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres With an emphasis on literature s responsibilities this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with produces and is produced by its context provoking a critical re evaluation of the concept of the relationship between national literatures cultures and histories and the social function of literary texts      田中道子,1986      *The Male Homosexual in*

are from their own and how similar      The Postwar Japanese System William K. Tabb,1995-04-20 While other industrialized and developing countries look towards Japan as an economic model the political cultural and social arrangements that have so far allowed Japan to succeed are eroding In particular Japan faces a system of industrial relations that places great strain on all of Japanese society In The Postwar Japanese System William Tabb distinguishes between those aspects of Japanese success that can and cannot be transferred successfully to help in the revitalization of the American economy The author discusses Japanese economic history from before the Meiji Restoration to the present and looks at Japanese politics state corporate relations the labor relations system in Japan and the nature of work as experienced by Japanese employees He examines the organization of the Japanese corporation versus the American corporation industrial policy education urban and regional reorganization and Japan s role in the world today and tomorrow And Tabb thoughtfully explores the fundamental social political and economic transitions the Japanese are currently experiencing The Postwar Japanese System succeeds in placing the economic miracle in its proper social and political framework A broad intelligent overview of the Japanese political economy the book suggests important implications for the United States in the story of Japan s prosperity and current distress It will be a key resource for all those interested in Japanese society      **The Woman Who Pretended to Be Who She Was** Wendy Doniger,2005 Many cultures have myths about self imitation stories about people who pretend to be someone else pretending to be them in effect masquerading as themselves This great theme in literature and in life tells us that people put on masks to discover who they really are under the masks they usually wear so that the mask reveals rather than conceals the self beneath the self In this book noted scholar of Hinduism and mythology Wendy Doniger offers a cross cultural exploration of the theme of self impersonation whose widespread occurrence argues for both its literary power and its human value The stories she considers range from ancient Indian literature through medieval European courtly literature and Shakespeare to Hollywood and Bollywood They illuminate a basic human way of negotiating reality illusion identity and authenticity not to mention memory amnesia and the process of aging Many of them involve marriage and adultery for tales of sexual betrayal cut to the heart of the crisis of identity These stories are extreme examples of what we common folk do unconsciously every day Few of us actually put on masks that replicate our faces but it is not uncommon for us to become travesties of ourselves particularly as we age and change We often slip carelessly across the permeable boundary between the un self conscious self indulgence of our most idiosyncratic mannerisms and the conscious attempt to give the people who know us personally or publicly the version of ourselves that they expect Myths of self imitation open up for us the possibility of multiple selves and the infinite regress of self discovery Drawing on a dizzying array of tales some fact some fiction The Woman Who Pretended to Be Who She Was is a fascinating and learned trip through centuries of culture guided by a scholar of incomparable wit and erudition      *Madame Butterfly* John Luther Long,2002 These novellas appeared at the height of fin de siecle American fascination with Japanese culture Usually dismissed by critics because of their stereotypical treatment of

Asian women they have been paired here to show how they defined and redefined contemporary misconceptions of the Orient

**Transcultural Japan** David Blake Willis, Stephen Murphy-Shigematsu, 2007-11-27 Transcultural Japan provides a critical examination of being Other in Japan Portraying the multiple intersections of race ethnicity class and gender the book suggests ways in which the transcultural borderlands of Japan reflect globalization in this island nation The authors show the diversity of Japan from the inside revealing an extraordinarily complex new society in sharp contrast to the persistent stereotypical images held of a regimented homogeneous Japan Unsettling as it may be there are powerful arguments here for looking at the meanings of globalization in Japan through these diverse communities and individuals These are not harmonious utopian communities by any means as they are formed in contexts both global and local of unequal power relations Yet it is also clear that the multiple processes associated with globalization lead to larger hybridizations a global m lange of socio cultural political and economic forces and the emergence of what could be called trans local Creolized cultures Transcultural Japan reports regional national and cosmopolitan movements Characterized by global flows hybridity and networks this book documents Japan s new lived experiences and rapid metamorphosis Accessible and engaging this broad based volume is an attractive and useful resource for students of Japanese culture and society as well as

A recent explosion of publishing activity by a wide range of talented writers has placed Asian American literature in the limelight As the field of Asian American literary studies gains increasing recognition however questions of misreading and appropriation inevitably arise How is the growing body of Asian American works to be read What holds them together to constitute a tradition What distinguishes this tradition from the mainstream canon and other minority literatures In the first comprehensive book on Asian American literature since Elaine Kim's ground breaking 1982 volume Sau ling Wong addresses these issues and explores their implications for the multiculturalist agenda Wong does so by establishing the intertextuality of Asian American literature through the study of four motifs food and eating the Doppelgänger figure mobility and play in their multiple sociohistorical contexts Occurring across ethnic subgroup gender class generational and historical boundaries these motifs resonate with each other in distinctly Asian American patterns that universalistic theories cannot uncover Two rhetorical figures from Maxine Hong Kingston's *The Woman Warrior* Necessity and Extravagance further unify this original wide ranging investigation Authors studied include Carlos Bulosan Frank Chin Ashley Sheun Dunn David Henry Hwang Lonny Kaneko Maxine Hong Kingston Joy Kogawa David Wong Louie Darrell Lum Wing Tek Lum Toshio Mori Bharati Mukherjee Fae Myenne Ng Bienvenido Santos Monica Sone Amy Tan Yoshiko Uchida Shawn Wong Hisaye Yamamoto and Wakako Yamauchi      **Romance and the Yellow Peril** Gina Marchetti, 1994-02-15 Hollywood films about Asians and interracial sexuality are the focus of Gina Marchetti's provocative new work While miscegenation might seem an unlikely theme for Hollywood Marchetti shows how fantasy dramas of interracial rape lynching tragic love and model marriage are powerfully evident in American cinema The author begins with a discussion of D W Griffith's *Broken Blossoms* then considers

later films such as Shanghai Express Madame Butterfly and the recurring geisha movies She also includes some fascinating forgotten films that have been overlooked by critics until now Marchetti brings the theoretical perspective of recent writing on race ethnicity and gender to her analyses of film and television and argues persuasively that these media help to perpetuate social and racial inequality in America Noting how social norms and taboos have been simultaneously set and broken by Hollywood filmmakers she discusses the orientalist tensions underlying the construction of American cultural identity Her book will be certain to interest readers in film Asian women s and cultural studies

**Performing Asian Transnationalisms** Amanda Rogers, 2014-09-19 This book makes a significant contribution to interdisciplinary engagements between Theatre Studies and Cultural Geography in its analysis of how theatre articulates transnational geographies of Asian culture and identity Deploying a geographical approach to transnational culture Rogers analyses the cross border relationships that exist within and between Asian American British East Asian and South East Asian theatres investigating the effect of transnationalism on the construction of identity the development of creative praxis and the reception of works in different social fields This book therefore examines how practitioners engage with one another across borders and details the cross cultural performances creative opportunities and political alliances that result By viewing ethnic minority theatres as part of global rather than simply national cultural fields Rogers argues that transnational relationships take multiple forms and have varying impetuses that cannot always be equated to diasporic longing for a homeland or as strategically motivated for economic gain This argument is developed through a series of chapters that examine how different transnational spatialities are produced and re worked through the practice of theatre making drawing upon an analysis of rehearsals performances festivals and semi structured interviews with practitioners The book extends existing discussions of performance and globalization particularly through its focus on the multiplicity of transnational spatiality and the networks between English language Asian theatres Its analysis of spatially extensive relations also contributes to an emerging body of research on creative geographies by situating theatrical praxis in relation to cross border flows
