Britain s dominant film studio complex focusing on key years following the Second World War It presents a revisionist micro

history of the studio and its longevity during a particularly turbulent period explaining Pinewood's survival at a time when other major film studios such as Denham closed. This book also provides contemporary insights into how Pinewood's technologies, practices and filmmaking methods compared to Hollywood's. Thirteen films produced in 1946-47 are analysed in detail, tracking how economic pressures engendered many creative techniques and innovative technologies. Prevailing cultures of management and labour organization are foregrounded as well as insights into being a studio employee. These are vividly brought to life through an in-depth focus on the in-house studio magazine *Pinewood Merry Go Round* which provides rare details of sports and leisure activities organized at the studios.

**Modern England, 1901-1984** Alfred F. Havighurst, 2004-07-08

The most comprehensive bibliography of printed books, articles and standard texts on twentieth century England.

**A History of the Methodist Church in Great Britain, Volume Four** Rupert E. Davies, A. Raymond George, Gordon Rupp, 2017-06-14

With this volume the publication of *A History of the Methodist Church in Great Britain* comes to its appointed end. The project of writing it was initiated by the Methodist Conference of 1953 and the lapse of time since then has made it possible to include at appropriate points the results of the continuing research into the origins and nature of Methodism but the chance and changes of this mortal life which are bound to impinge on the progress of so complex an enterprise together with the heavy involvement of all the contributors in ecclesiastical, ecumenical and academic affairs have made this period much longer than the General Editors would have wished.

From the Preface

**Sight and Sound**, 1952

**The Great British Dream Factory** Dominic Sandbrook, 2015-10-01

**SPECTATOR BOOKS OF THE YEAR 2015**

Britain's empire has gone. Our manufacturing base is a shadow of its former self: the Royal Navy has been reduced to a skeleton. In military, diplomatic and economic terms we no longer matter as we once did. And yet there is still one area in which we can legitimately claim superpower status: our popular culture. It is extraordinary to think that one British writer, J K Rowling, has sold more than 400 million books; that *Doctor Who* is watched in almost every developed country in the world; that James Bond has been the central character in the longest running film series in history; that *The Lord of the Rings* is the second best selling novel ever written; behind only *A Tale of Two Cities*; that the Beatles are still the best selling musical group of all time; and that only Shakespeare and the Bible have sold more books than Agatha Christie. To put it simply, no country on earth, relative to its size, has contributed more to the modern imagination. This is a book about the success and the meaning of Britain's modern popular culture: from Bond and the Beatles to heavy metal and *Coronation Street*; from the Angry Young Men to Harry Potter; from Damien Hirst to *The X Factor*.

**Historical Dictionary of British Cinema** Alan Burton, Steve Chibnall, 2013-07-11

British cinema has been around from the very birth of motion pictures: from black and white to color; from talkies to sound and now 3D. It has been making a major contribution to world cinema. Many of its actors and directors have stayed at home but others ventured abroad like Charlie Chaplin and Alfred Hitchcock. Today it is still going strong: the only real competition to Hollywood, turning out films which appeal not only to Brits, just think of Bridget

Jones while busily adding to franchises like James Bond and Harry Potter So this Historical Dictionary of British Cinema has a lot of ground to cover This it does with over 300 dictionary entries informing us about significant actors producers and directors outstanding films and serials organizations and studios different films genres from comedy to horror and memorable films among other things Two appendixes provide lists of award winners Meanwhile the chronology covers over a century of history These parts provide the details countless details while the introduction offers the big story And the extensive bibliography points toward other sources of information

**Time and Tide** ,1952 Jean Simmons Michelangelo Capua,2022-06-27 Arriving in Hollywood in 1950 to launch her American film career Jean Simmons 1929 2010 had already appeared in 18 British films and was best known for her portrayal of Ophelia in Laurence Olivier s Hamlet She soon became a favorite female face working with some of filmmaking s greats and acted opposite many Hollywood A listers Two of her most popular films Guys and Dolls 1955 and Spartacus 1960 were international box office hits and in her seven decades long career she collected numerous awards and honors including a Golden Globe an Emmy and two Oscar nominations as Best Actress Despite the accomplishments and accolades radiant beauty and stunning versatility Simmons is considered by many to be an underrated artist too often handed more comfortable leading female roles than those that could ve elevated her to the level of super stardom experienced by some of her peers This the first full length biography of Simmons fills a gap in film and performing arts studies and includes extensive notes and photographs

**Celluloid Sermons** Terry Lindvall,Andrew Quicke,2011-10-01 Christian filmmaking done outside of the corporate Hollywood industry and produced for Christian churches affected a significant audience of church people Protestant denominations and individuals believed that they could preach and teach more effectively through the mass medium of film Although suspicion toward the film industry marked many conservatives during the early 1930s many Christian leaders came to believe in the power of technology to convert or to morally instruct people Thus the growth of a Christian film industry was an extension of the Protestant tradition of preaching with the films becoming celluloid sermons Celluloid Sermons is the first historical study of this phenomenon Terry Lindvall and Andrew Quicke highlight key characters studios and influential films of the movement from 1930 to 1986 such as the Billy Graham Association with its major WorldWide Pictures productions of films like The Hiding Place Ken Curtis Gateway Films the apocalyptic end time films by Mark IV e g Thief in the Night and the instructional video films of Dobson s Focus on the Family assessing the extent to which the church s commitment to filmmaking accelerated its missions and demonstrating that its filmic endeavors had the unintended consequence of contributing to the secularization of liberal denominations
