The Psychology of Early Childhood C.W. Valentine, 2015-06-05 Originally published in 1942 this title attempted to trace from their very earliest appearances after birth all aspects of mental development in childhood up to the age of about 4 or 5 It is based largely on the author's almost daily observations of his own five children over a period of some twenty years supplemented by numerous tests and experiments The first purpose of this book was to advance our knowledge of the psychology of childhood The importance of such knowledge had become increasingly recognised Even if not all is completely determined in the first 4 5 years there was little doubt by this time that these first years are of profound significance for future development and the better

understanding and training of the young child may be at the root of many of our educational and social problems **Infant and Early Childhood Mental Health** Kristie Brandt, Bruce D. Perry, Stephen Seligman, Ed Tronick, 2014-10-03 **Infant and Early Childhood Mental Health Core Concepts and Clinical Practice** is a groundbreaking book that provides an overview of the field from both theoretical and clinical viewpoints. The editors and chapter authors, some of the field's foremost researchers and teachers, describe from their diverse perspectives key concepts fundamental to infant parent and early childhood mental health work. The complexity of this emerging field demands an interdisciplinary approach, and the book provides a clear, comprehensive, and coherent text with an abundance of clinical applications to increase understanding and help the reader to integrate the concepts into clinical practice. Offering both cutting-edge coverage and a format that facilitates learning, the book boasts the following features and content: A focus on helping working professionals expand their specialization skills and knowledge and on offering core competency training for those entering the field, which reflects the Infant Parent Mental Health Postgraduate Certificate Program (IPMHPCP) and Fellowship in Napa, CA that was the genesis of the book; Chapters written by a diverse group of authors with vastly different training, expertise, and clinical experience, underscoring the book's interdisciplinary approach; In addition, terms such as clinician, therapist, provider, professional, and teacher are intentionally used interchangeably to describe and unify the field; Explication and analysis of a variety of therapeutic models, including Perry's Neurosequential Model of Therapeutics, Brazelton's neurodevelopmental and relational Touchpoints attachment theory, the Neurorelational Framework, Mindsight, and Downing's Video Intervention Therapy; An entire chapter devoted to diagnostic schemas for children ages 0-5, which highlights the Diagnostic Classification of Mental Health Disorders of Infancy and Early Childhood (DC:0-3R). With the release of DSM-5, this chapter provides a prototypical crosswalk between DC:0-3R and ICD codes; A discussion of the difference between evidence-based treatments and evidence-based practices in the field, along with valuable information on randomized controlled trials, a research standard that while often not feasible or ethically permissible in infant mental health work, remains a standard applied to the field; Key points and references at the end of each chapter, and generous use of figures, tables, and other resources to enhance learning. The volume editors and authors are passionate about the pressing need for further research and the acquisition and application of new knowledge to support the health and well-being of individuals, families, and communities. **Infant and Early Childhood Mental Health Core Concepts and Clinical Practice** should find a receptive audience for this critically important message.

Called According to His Purpose: Missionary Letters From China Deborah Blumer, 2009-02-09 The life of a Lutheran Christian missionary to China in the early 1900s is chronicled in letters, photographs, and documents. Lutheran missionary George Lillegard and his wife Bernice wrote many letters to each other, to family, and friends, and to the church synod about their mission work in China. This large 491-page book contains approximately 150 photographs and documents, along with detailed personal letters about their mission work, their romance, their struggles, and their daily life in China.
