B. Boatner,2012-10-17 Gwendolyn MacGowan escaped her dysfunctional parents and their Atlanta social whirl years ago entering college in Cambridge Massachusetts then forging an independent life with her framing shop and huge Victorian castle in neighboring Jamaica Plain Finally at peace she has no idea that her comfortable world will be shattered The moment her father dies Gwendolyns headstrong mother Elinor moves to Boston to live with my beloved Gwennie Gwendolyn refuses insisting Elinor move into a nearby senior residence There Elinor is brutally murdered at the hands of an unknown assailant Still reeling from her mothers death Gwendolyn is astonished to learn that Monica Colwell her fathers former mistress has arrived in town from England with her teenage son Eric Eric disappears and Monicas throat is slashed as she sits on Gwendolyns patio The safe castle has been breached and Gwendolyn realizes that unless she discovers the secrets buried deep in Elinors past she will be the next to die A gem of a first novel Boatners characters seethe with life Ellen Hart E B Boatner writes with clarity of lives warped by secrets and surprising obsessions Elizabeth Sims A spellbinder I read it in one sitting Jonathan Odell The Wedding Group Elizabeth Taylor,2010-11-04 First published in 1968 this quietly ironic exploration of the ways in which the parental mould is not easily broken is one of Elizabeth Taylor s most ambitious novels You know Midge began and paused She was rather taken aback and could not at once think of anything to say Perhaps there s nothing so dangerous as having led a sheltered life Cressy has grown up in a world of women presided over by her eccentric artistic grandfather Harry Bretton Rebelling against the wholesome organic values of her home life Cressy decides to leave home in search of more ephemeral pleasures Taking a job in an antiques shop she meets David a self satisfied journalist also looking for means of fleeing the family nest But as Cressy cannot fend for herself and David is securely tied to his mother s apron strings this act of escape for both of them proves a powerful form of bondage The Pleasure of Reading Eric Macfarlane,2019-07-23 The Pleasure of Reading reflects on the joys of owning and reading books It looks at the situations that lead people to become keen readers and the ways in which parents and teachers can encourage children s love of stories It is critical of traditional

methods of studying literature that deter many children from regarding reading as a pleasurable activity The book also looks at the interests and passions that motivate novelists and the wide range of subjects on which they choose to write the kind of stories they tell the themes that they explore and the skill with which they handle their plots characters and settings Particular attention is given to the novelist's role as a protester against injustice persecution and the abuse of power

Women in Magazines Rachel Ritchie, Sue Hawkins, Nicola Phillips, S. Jay Kleinberg, 2016-02-19 Women have been important contributors to and readers of magazines since the development of the periodical press in the nineteenth century By the mid twentieth century millions of women read the weeklies and monthlies that focused on supposedly feminine concerns of the home family and appearance In the decades that followed feminist scholars criticized such publications as at best conservative and at worst regressive in their treatment of gender norms and ideals However this perspective obscures the heterogeneity of the magazine industry itself and women's experiences of it both as readers and as journalists This collection explores such diversity highlighting the differing and at times contradictory images and understandings of women in a range of magazines and women's contributions to magazines in a number of contexts from late nineteenth century publications to twenty first century titles in Britain North America continental Europe and Australia *Mid-century women's writing* Melissa Dinsman, Megan Faragher, Ravenel Richardson, 2024-07-09 The traditional narrative of the mid century 1930s 60s is that of a wave of expansion and constriction with the swelling of economic and political freedoms for women in the 1930s the cresting of women in the public sphere during the Second World War and the resulting break as employment and political opportunities for women dwindled in the 1950s when men returned home from the front But as the burgeoning field of interwar and mid century women's writing has demonstrated this narrative is in desperate need of re examination Mid century women's writing *Disrupting the public private divide* aims to revivify studies of female writers journalists broadcasters and public intellectuals living or working in Britain or under British rule during the mid century while also complicating extant narratives about the divisions between domesticity and politics Modern British Women Writers Vicki K. Janik, Del Ivan Janik, 2002-11-30 The 20th century witnessed several major cultural movements including modernism anti modernism and postmodernism These and other means of understanding and perceiving the world shaped the literature of that era and with the rise of feminism resulted in a particularly rich body of literature by women writers This reference includes alphabetically arranged entries on 58 British women writers of the 20th century Some of these writers were born in England while others such as Katherine Mansfield and Doris Lessing came from countries of the former Empire or Commonwealth The volume also includes entries for women of color such as Kamala Markandaya and Buchi Emecheta Each entry is written by an expert contributor and includes an overview of the writer's background an analysis of her works an assessment of her achievements and lists of primary and secondary sources The volume closes with a selected general bibliography **Seven Decades** Michael D. Gurven, 2025-09-16 An anthropologist uncovers new evidence for the

evolutionary origins of human longevity and explains why growing old is an opportunity not a burden Our ability to live for decades may seem like a modern luxury made possible by clean water and advances in medicine In fact human longevity is a legacy of our unique evolutionary path as a species Seven Decades challenges the belief that life in the past was nasty brutish and short tracing how our capacity for long life came to be and transforming how we think about aging Blending vivid storytelling with cutting edge science anthropologist Michael Gurven weaves tales from his years of field experience among Indigenous societies whose diet and traditional lifeways are closer to how we all lived prior to industrialization demonstrating how these communities are relatively free of the chronic diseases of aging such as heart disease dementia and diabetes He provides compelling evidence that our longevity first evolved among our hunting and gathering ancestors and shows how the human body was built to last around seven decades At a time when people are more likely to live to old age than ever before Gurven discusses how we can harness this amazing evolutionary feat through a shift in societal values one that balances self reliance with interdependence nurtures multigenerational ties prioritizes women s health and longevity and enables us to rediscover the wisdom of our elders Sharing bold new perspectives on human ageing Seven Decades draws important lessons from our ancestral history bridging the past with the present to reveal what healthy happy and productive old age could look like for all generations
