Reflections of Washington, Eleanor Berman, 1997-09-01 Here captured in 230 glorious color pictures by one of Washington's most noted photographers Robert Llewellyn are reflections of the elegant public buildings the imposing monuments and museums the parks and the promenades and the neighborhoods that make the nation's capital one of the greatest cities in the world **Reflections on the Work of Historic Preservation in Washington** Richard Striner, Art Deco Society of Washington, 1990 **Reflections on Renewal** Donna M. Eschenauer, Harold D. Horell, 2011-07-01 The United States bishops document *Co Workers in the Vineyard of the Lord* is a vital resource for the ongoing development of lay ecclesial ministry Building upon *Co Workers* and affirming the recent renewal of the laity and the flowering of lay ministries *Reflections on Renewal* contributes to efforts to reshape ministerial language and practices in the church today It explores the theological and pastoral foundations of ministry including how all ministry is rooted in the sacraments of initiation and suggests ways of refining or redefining our understandings of lay ecclesial and ordained ministries so that we as church can respond more fully to the call of God in our lives and world At the same time the book recognizes that lay ministry developed organically as the work of the Spirit and is foremost a cause for rejoicing This collection of essays is grounded in Fordham University's commitment to the church and its mission in the world It honors the thousands of laypeople who have answered a call to serve the church in ministry *A Rhetoric of Reflection* Kathleen Yancey, 2016-08-15 Reflection in writing studies is now entering a third generation Dating from the 1970s the first generation of reflection focused on identifying and describing internal cognitive processes assumed to be part of composing The second generation operating in both classroom and assessment scenes in the 1990s developed mechanisms for externalizing reflection making it visible and thus explicitly available to help writers Now a third generation of work in reflection is emerging As mapped by the contributors to *A Rhetoric of Reflection* this iteration of research and practice is taking up new questions in new sites of activity and with new theories It comprises attention to transfer of writing knowledge and practice teaching and assessment portfolios linguistic and cultural difference and various media including print and digital It conceptualizes conversation as a primary reflective medium both inside and outside the classroom and for individuals and collectives and articulates the role that different genres play in hosting reflection Perhaps most important in the work of this third generation is the identification and increasing appreciation of the epistemic value of reflection of its ability to help make new meanings and of its rhetorical power for both scholars and students Contributors Anne Beaufort Kara Taczak Liane Robertson Michael Neal Heather Ostman Cathy Leaker Bruce Horner Asao B Inoue Tyler Richmond J Elizabeth Clark Naomi Silver Christina Russell McDonald Pamela Flash Kevin Roozen Jeff Sommers Doug Hesse *U.S. Government Research Reports*, 1962

Smith,Beth Hutchison,2004 Disability and gender are becoming increasingly complex in light of recent politics and scholarship This volume provides findings not only about the discrimination practised against women and people with disabilities but also about the productive parallelism between the two categories Liberty, Slavery and the Law in Early Modern Western Europe Filip Batsel ,2020-01-03 This book investigates the legal evolution of the free soil principle in England France and the Low Countries during the Early Modern period ca 1500 1800 which essentially stated that as soon as slaves entered a certain country they would immediately gain their freedom This book synthesizes the existing literature on the origins and evolution of the principle adds new insights by drawing on previously undiscussed primary sources on the development of free soil in the Low Countries and employs a pan Western European and comparative approach to identify and explain the differences and similarities in the application of this principle in France England and the Low Countries Divided into four sections the book begins with a brief introduction to the subject matter putting it in its historical context Slavery is legally defined using the established international law definition and both the status of slavery in Europe before the Early Modern Period and the Atlantic slave trade are discussed Secondly the book assesses the legal origins of the free soil principle in England France and the Low Countries during the period 1500 1650 and discusses the legal repercussions of slaves coming to England France and the Low Countries from other countries where the institution was legally recognized Thirdly it addresses the further development of the free soil principle during the period 1650 1800 In the fourth and last section the book uses the insights gained to provide a pan Western European and comparative perspective on the origins and application of the free soil principle in Western Europe In this regard it compares the origins of free soil for the respective countries discussed as well as its application during the heyday of the Atlantic slave trade This perspective makes it possible to explain some of the divergences in approaches between the countries examined and represents the first ever full scale country comparison on this subject in a book Shock Wave Reflection Phenomena Gabi Ben-Dor,2013-06-29 The phenomenon of shock wave reflection was first reported by the distinguished philosopher Ernst Mach in 1878 Its study was then abandoned for a period of about 60 years until its investigation was initiated in the early 1940s by Professor John von Neumann and Professor Bleakney Under their supervision 15 years of intensive research related to various aspects of the reflection of shock waves in pseudo steady flows were carried out It was during this period that the four basic shock wave reflection configurations were discovered Then for a period of about 10 years from the mid 1950s until

the mid 1960s investigation of the reflection phenomenon of shock waves was kept on a low flame all over the world e g Australia Japan Canada U S A U S S R etc until Professor Bazhenova from the U S S R Professor Irvine Glass from Canada and Professor Roy Henderson from Australia re initiated the study of this and related phenomena Under their scientific supervision and leadership numerous findings related to this phenomenon were reported Probably the most productive research group in the mid 1970s was that led by Professor Irvine Glass in the Institute of Aerospace Studies of the University of Toronto In 1978 exactly 100 years after Ernst Mach first reported his discovery of the reflection phenomenon I published my Ph D thesis in which for the first time analytical transition criteria between the various shock wave reflection configurations were established

1919 - The Year That Changed China Elisabeth Forster, 2018-03-05 The year 1919 changed Chinese culture radically but in a way that completely took contemporaries by surprise At the beginning of the year even well informed intellectuals did not anticipate that for instance baihua a precursor of the modern Chinese language communism Hu Shi and Chen Duxiu would become important and famous all of which was very obvious to them at the end of the year Elisabeth Forster traces the precise mechanisms behind this transformation on the basis of a rich variety of sources including newspapers personal letters student essays advertisements textbooks and diaries She proposes a new model for cultural change which puts intellectual marketing at its core This book retells the story of the New Culture Movement in light of the diversified and decentered picture of Republican China developed in recent scholarship It is a lively and ironic narrative about cultural change through academic infighting rumors and conspiracy theories newspaper stories and intellectuals hell bent on selling agendas through powerful buzzwords

Philosophy and Engineering: Reflections on Practice, Principles and Process Diane P Michelfelder, Natasha McCarthy, David E. Goldberg, 2014-01-13 Building on the breakthrough text *Philosophy and Engineering An Emerging Agenda* this book offers 30 chapters covering conceptual and substantive developments in the

philosophy of engineering along with a series of critical reflections by engineering practitioners The volume demonstrates how reflective engineering can contribute to a better understanding of engineering identity and explores how integrating engineering and philosophy could lead to innovation in engineering methods design and education The volume is divided into reflections on practice principles and process each of which challenges prevalent assumptions and commitments within engineering and philosophy The volume explores the ontological and epistemological dimensions of engineering and exposes the falsity of the commonly held belief that the field is simply the application of science knowledge to problem solving Above all the perspectives collected here demonstrate the value of a constructive dialogue between engineering and philosophy and show how collaboration between the disciplines casts light on longstanding problems from both sides The chapters in this volume are from a diverse and international body of authors including philosophers and engineers and represent a highly select group of papers originally presented in three different conferences These are the 2008 Workshop on Philosophy and Engineering WPE 2008 held at the Royal Academy of Engineering the 2009 meeting of the Society for Philosophy and Technology SPT 2009 at the University of Twente in the Netherlands and the Forum on Philosophy Engineering and Technology fPET 2010 held in Golden Colorado at the Colorado School of Mines
