Salotto, 2016-04-30 Looking at the gothic in Victorian fiction the development of cinema and Hitchcock s Vertigo this book explores the contained or repressed desires of both characters and plots which defy direct representation resulting in obsession fetishism and displacement engendering a novel account of the way in which the gothic becomes internalized Listed Private Equity: Investment Strategies and Returns Sarah Kumpf, 2013 The increasing popularity of private equity PE and especially leveraged buyouts in the late 1980s established a novel area of research in these investments First research concentrated on the taking private of large corporations in the US In his most significant paper Jensen 1989 claimed that PE firms which function as activist investors incentivize the management of their portfolio companies to maximize value and concluded that in the long run private companies owned by PE firms would outperform firms under public ownership Others argued that PE firms simply buy companies at a discount by exploiting private information about the takeover targets or reduce tax spending by highly leveraging the portfolio companies Today many PE firms are publicly listed and the greater transparency and availability of information about these listed PE firms offers a unique basis to conduct research Current research in the field of PE and buyout investments leads to the question in how far PE firms generate value by means of an investment into a portfolio company Usually drivers of value generation are classified into governance financial and operational capabilities of PE firms In addition to these direct drivers of value investment and portfolio management strategies differ with respect to the ways of acquiring and divesting a portfolio company and these different entry and exit channels can in turn offer distinct potential for value generation Therefore this paper first presents the investment and portfolio management strategies of PE firms The strategies include different types of acquisitions and exits as well as the associated drivers of value creation The second objective is to establish a link between different investment strategies and the expected returns generated on the investor level Listed PE allows analyzing the market s reaction to the announcement of investments and divestments within an event study and hypotheses were derived for both of these types of events Thereupon subsamples of announcements are constructed dependent on the way of entry and exit announced as well as on strategic decisions implemented in the portfolio company that is to be disposed *SQLite Database System: Design and Implementation (First Edition)* Sibsanakar Haldar, A preliminary edition of this book was published from O Reilly ISBN 9780596550066 SQLite is a small embeddable SQL based relational database management system It has been widely used in low to medium tier database applications especially in embedded devices This book provides a comprehensive description of SQLite database system It describes design principles engineering trade offs

The Return of YHWH Blaženka Scheuer,2008-12-19 The theology of Isaiah 40 55 has two seemingly contradictory aspects the tension between the consolatory message of deliverance and the harsh tone of accusation and the call to repentance This study argues that such tension does not necessarily disclose a different authorship but that it expresses the basic nature of the relationship between YHWH and the Israelites in which the actions of YHWH and the actions of the people stand in a relationship of interdependence Such interdependence is essential for the re establishment and the continued existence of the relationship between YHWH and his people as well as for shaping the identity of both the exiled and the non exiled Israelite communities in the latter part of the sixth century B C E Catalogues of Sales Sotheby & Co.
