Revolution in the Head Ian MacDonald, 1994 Revolution in the Head Ian MacDonald, 1994
Assesses the cultural influence of the Beatles from a historical perspective, traces the group's musical evolution, analyzes their music within the context of twentieth-century music, and examines their creative process.

Lennon and McCartney Thomas MacFarlane, 2022-09-30 Lennon and McCartney: Painting with Sound explores the work of two of the most influential composers of the twentieth century. Five decades after the breakup of the Beatles, the music of John Lennon and Paul McCartney continues to fascinate and inspire. Evidence suggests that their uniquely eclectic approach can be traced back to the Liverpool College of Art. Following on that idea, this book explores the creative dialogue between John Lennon and Paul McCartney, both with the Beatles and on their own, that grew out of that early influence. The book is presented in three sections: I. Stretching the Canvas considers the Liverpool College of Art as the backdrop for John and Paul's early collaborations with painter and musician Stuart Sutcliffe. This is followed by discussions of select works created by the Beatles between 1962-69. II. Extending the Space focuses on the long-distance creative dialogue between Lennon and McCartney as demonstrated in their respective solo recordings of the 1970s. III. New Colours considers the final works of the Lennon and McCartney creative dialogue as well as various McCartney solo projects released in the years that followed Lennon's death in 1980. Here, the focus is on Paul's development as a painter, its effect on his creativity, and his subsequent efforts to establish the Liverpool Institute for Performing Arts as a world-class arts conservatory.

Popular Music and the Myths of Madness Dr Nicola Spelman, 2013-01-28 Studies of opera, film, television, and literature have demonstrated how constructions of madness may be referenced in order to stigmatise but also liberate protagonists in ways that reinforce or challenge contemporaneous notions of normality. But to date, very little research has been conducted on how madness is represented in popular music. In an effort to redress this imbalance, Nicola Spelman identifies links between the anti-psychiatry movement and representations of madness in popular music of the 1960s and 1970s, analysing the various ways in which ideas critical of institutional psychiatry are embodied both verbally and musically in specific songs by David Bowie, Lou Reed, Pink Floyd, Alice Cooper, The Beatles, and Elton John. She concentrates on meanings that may be made at the point of reception as a consequence of ideas about madness that were circulating at the time. These ideas are then linked to contemporary conventions of musical expression in order to illustrate certain interpretative possibilities. Supporting evidence

comes from popular musicological analysis incorporating discourse analysis and social semiotics and investigation of socio historical context The uniqueness of the period in question is demonstrated by means of a more generalised overview of songs drawn from a variety of styles and eras that engage with the topic of madness in diverse and often conflicting ways The conclusions drawn reveal the extent to which anti psychiatric ideas filtered through into popular culture offering insights into popular music s ability to question general suppositions about madness alongside its potential to bring issues of men s madness into the public arena as an often neglected topic for discussion We Shook Up the World Tracy

Daugherty,2024-04-30 George Harrison met Muhammad Ali in 1964 when both men were on the cusp of worldwide fame Ten years later the two men simultaneously staged comebacks demonstrating just how much they embodied the promises and perils of their era In doing so Tracy Daugherty suggests they revealed the scope and the limits of political courage and commitment to faith in the modern world We Shook Up the World is the story of these two larger than life figures at a momentous time A unique blend of biography and cultural history this book goes to the very heart of the zeitgeist that each man inhabited and reinvented in profound and enduring ways In 1974 deep in the Pennsylvania woods thirty two year old Muhammad Ali was seeking renewal training to regain his heavyweight boxing title in a fight with George Foreman and exploring questions about his politics his career and his life Meanwhile George Harrison was thirty one years old With the Beatles disbanded his marriage ending and the loss of his mother still fresh he traveled to India to revitalize his faith energy and musical spirit seeking renewal at the Hindu holy city of Varanasi In contemplating how these two complex figures managed to carry the cultural rebelliousness and spiritual yearning of the 1960s into a new era of cataclysmic political economic and social change We Shook Up the World offers an intimate perspective on two outsize figures in the nation s and the world s cultural history and a new understanding of their unique contributions to the consciousness of their time and ours **Beatlemania in America** Andrew Hunt,2023-09-07

G. Brown,2013-04-15 The Death of Christian Britain uses the latest techniques to offer new formulations of religion and

secularisation and explores what it has meant to be religious and irreligious during the last 200 years By listening to people's voices rather than purely counting heads it offers a fresh history of de-christianisation and predicts that the British experience since the 1960s is emblematic of the destiny of the whole of western Christianity Challenging the generally held view that secularization has been a long and gradual process beginning with the industrial revolution it proposes that it has been a catastrophic short term phenomenon starting with the 1960s Is Christianity in Britain nearing extinction Is the decline in Britain emblematic of the fate of western Christianity Topical and controversial *The Death of Christian Britain* is a bold and original work that will bring some uncomfortable truths to light **Oxford History of Western Music** Richard Taruskin, 2009-07-27 The universally acclaimed and award winning Oxford History of Western Music by one of the most prominent and provocative musicologists of our time Richard Taruskin Now in paperback the set has been reconstructed to be available for the first time as individual books each one taking on a critical time period in the history of western music
