Revolution In Iran The Roots Of Turmoil:

Revolution in Iran Mehran Kamrava, 2016-11-10 Observers of Iran have often ascribed the main cause of the revolution to economic problems under the Shah's regime. This book, first published in 1990, on the other hand focuses on the political and social factors which contributed to the Pahlavi dynasty. Mehran Kamrava looks at the revolution in detail as a political phenomenon, making use of extensive interviews with former revolutionary leaders, cabinet ministers and diplomats to show the central role of the political collapse of the regime in bringing about the revolution. He concentrates on the internal and the international developments leading to this collapse and the social environment in which the revolution's leaders emerged.

A Century of Revolution John Foran, 1994 This volume offers a much needed look into the historical, social and political developments leading up to the Iranian revolution. Bringing together a group of scholars, historians and social scientists, most of them Iranian in origin, the book documents an extraordinary revolutionary heritage that predates this century. **The**

Unthinkable Revolution in Iran Charles Kurzman, 2005-09-06 The Shah of Iran, Mohammad Reza Pahlavi, would remain on the throne for the foreseeable future. This was the firm conclusion of a top secret CIA analysis issued in October 1978. One hundred days later, the Shah, despite his massive military, fearsome security police and superpower support, was overthrown by a popular and largely peaceful revolution. But the CIA was not alone in its myopia, as Charles Kurzman reveals in this penetrating work. Iranians themselves, except for a tiny minority, considered a revolution inconceivable until it actually occurred. Revisiting the circumstances surrounding the fall of the Shah, Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general. As one Iranian recalls, 'The future was up in the air.' Through interviews and eyewitness accounts, declassified security documents and underground pamphlets, Kurzman documents the overwhelming sense of confusion that gripped pre-revolutionary Iran and that characterizes major protest movements. His book provides a striking picture of the chaotic conditions under which Iranians acted, participating in protest only when they expected others to do so, too. The process, approaching critical mass in unforeseen and unforeseeable ways. Only when large numbers of Iranians began to think the unthinkable, in the words of the U.S. ambassador, did revolutionary expectations become a self-fulfilling prophecy. A corrective to 20/20 hindsight, this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect.

Iran Haleh Afshar, 1985-09-24 **Revolutions and the Collapse of Monarchy** Zhand Shakibi, 2007-02-23 What causes revolution? What brought about the end of the last major monarchies of the modern period? Were Louis XVI, Nicholas II and Mohammad Reza Pahlavi the unwitting victims of historical circumstance, or did their own actions help to bring about the revolutions that overthrew them? This powerful and original book is the first comparative study of the revolutions in Bourbon France, Romanov Russia and Pahlavi Iran. Zhand Shakibi analyses fully the timing and causes of these three revolutions and reveals the important similarities between them. *Revolutions and the Collapse of Monarchy* argues

provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution. This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution.

Shi'i Sectarianism in the Middle East Elisheva Machlis, 2014-09-17

The eruption of violent sectarianism in Iraq following the US invasion in 2003 brought the question of Sunni Shi'i relations in the country to the forefront of the international public agenda. It also strengthened the popular belief that contemporary Shi'ism is inherently sectarian. Yet several decades earlier Ayatollah Khomeini had declared an Islamic revolution and downplayed its Shi'i origins and links. So what is the true orientation of Shi'i Islam in the contemporary era and how did modernisation alter its sectarian affiliation? This book contends that early Shi'i reformist thought set the foundations for a more universal oriented Shi'ism. Prominent reformists in the first half of the twentieth century from the holy cities of Karbala and Najaf in Iraq and from the Shi'i centres in Southern Lebanon played a significant role in the renewal of Shi'ism and laid the groundwork for its reinvention in the modern era. Exploring this shift towards a more ecumenical perception of Islam, Elisheva Machlis here provides a fresh perspective on inter-sectarian relations in contemporary Iraq and illuminates the intellectual roots of the Islamic revolution by examining networks of Shi'i scholars such as Mu'ammad usayn K shif al Ghi and Mu sin al Am n al mil operating within a more globalised Muslim world. Drawing on the experiences of early Shi'i reformists such as Abd al usayn Sharaf al D n al M saw in Lebanon and Mu'ammad Jaw d Mughniyya in Damascus, this book gives new insight on the future of inter-Muslim relations at a time of growing inter-sectarian contention from the Iran-Iraq war to the post-2003 Sunni Shi'i conflict in Iraq and al-Qa'ida's anti-Shi'i message, taking into account questions of theology, historiography, jurisprudence and politics which all played a vital role in the transition to the contemporary era. The author here analyses the broad scholarly connections between Iran, Iraq and Lebanon in the twentieth century while debating paramount questions of leadership, identity and group membership in the development of modern Shi'ism. Examining the relationship between intellectual thought and socio-political development in the region, this book provides a new perspective concerning the future of an increasingly globalised Muslim world and will prove essential reading for students and specialists.

A History of Social Justice and Political Power in the Middle East Linda T. Darling, 2013-05-02

From ancient Mesopotamia into the 20th century, the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East. The Circle of Justice depicts graphically how a government's justice toward the population generates political power, military strength, prosperity and good administration. This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture. It explores how people conceptualized and acted upon this powerful insight, how they portrayed it in symbol, painting and story, and how they transmitted it from one regime to the next. Moving towards the modern day, the author shows how, although the Circle of Justice was largely dropped from political discourse, it did not disappear from people's political culture and expectations of

government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism From Revolution to War Patrick J. Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J Conge is Assistant Professor of Political Science University of Arkansas

Iran and the Muslim World: Resistance and Revolution N. Keddie, 1995-04-03 This book consists of a series of interrelated chapters analyzing why Iran among all countries has seen so many revolutionary movements in the past century the degree to which its religion Shi'ism is revolutionary and the history of revolutionary and resistance movements in the modern Muslim world The author stresses historical change such as the change of Twelver Shi'ism from political quietism to revolutionary opposition and also previously unnoticed factors in revolution such as the multi urban character of all Iran's modern revolutions

The Last Great Revolution Robin Wright, 2010-09-29 Acclaimed journalist Robin Wright meticulously describes the ongoing transformation of Iranian society politics and religion that ranges from the empowerment of women to the

blossoming of a movie industry and an independent press An exceptional contribution to the understanding of a mysterious and much maligned nation The Washington Post Robin Wright has reported from over 120 countries for many leading news organizations but her perceptive coverage of Iran has garnered her the most respect and praise among her colleagues She demonstrates why Iran s Islamic revolution equals the French and Russian revolutions in new ideas and impact while standing alone as the last great revolution of the modern era

Power, Islam, and

Political Elite in Iran Eva Rakel,2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people As there are no legal political parties in the Islamic Republic of Iran political factions represent the varying ideological and material interests of members of the political elite and their supporters This book analyzes the rivalries between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio cultural and foreign policy formulation It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran

How Armies Respond to Revolutions and Why Zoltan Barany,2020-03-31 An exploration of military responses to revolutions and how to predict such reactions in the future We know that a revolution s success largely depends on the army s response to it But can we predict the military s reaction to an uprising How Armies Respond to Revolutions and Why argues that it is possible to make a highly educated guess and in some cases even a confident prediction about the generals response to a domestic revolt if we know enough about the army the state it is supposed to serve the society in which it exists and the external environment that affects its actions Through concise case studies of modern uprisings in Iran China Eastern Europe Burma and the Arab world Zoltan Barany looks at the reasons for and the logic behind the variety of choices soldiers ultimately make Barany offers tools in the form of questions to be asked and answered that enable analysts to provide the most

informed assessment possible regarding an army's likely response to a revolution and ultimately the probable fate of the revolution itself. He examines such factors as the military's internal cohesion, the regime's treatment of its armed forces and the size, composition and nature of the demonstrations. *How Armies Respond to Revolutions and Why* explains how generals decide to support or suppress domestic uprisings. **The Sacred Republic** Mehran Kamrava, 2023 Assesses the atomized nature of power in Iran and how within its political system competition for influence continues unabated. **A Dynastic History of Iran** Mehran Kamrava, 2022-08-25 Explores the political history of modern Iran considering the myriad factors that facilitated the rise and fall of the last two dynasties. *The Modern Middle East, Third Edition* Mehran Kamrava, 2013-10-05 From the fall of the Ottoman Empire through the Arab Spring this title offers a classic treatise on the making of the contemporary Middle East remains essential reading for students and general readers who want to gain a better understanding of this diverse region. *Debating Revolutions* Nikki R. Keddie, 1995-09 Throughout history and especially in this century revolutions have played a central role in human history. Yet as both the Iranian revolution of 1978-79 and the revolutions of 1989 in Eastern Europe made clear revolutions are rarely predictable nor attributable to a single cause. *Debating Revolutions* brings together some of our best social and political thinkers to address two central questions of revolution: Can they be predicted? And what are their causes? In the debating style of *Contention*, the award-winning journal from which the essays are culled, the contributors among them Charles Tilly, Jack A. Goldstone, Edward Berenson, Said Amir Arjomand and Daniel Chirot focus on the Iranian, Eastern European and French revolutions and on the theoretical and comparative aspects of revolutionary study. Unlike most anthologies *Debating Revolutions* has a format that enables scholars to engage one another in discussion thus resolving many disputes and addressing dilemmas rather than merely outlining differences. **Encyclopaedia of Islam** Ian Richard Netton, 2013-12-19 This Encyclopedia covers the full range of Islamic thought. It takes substantial note of contemporary trends across the Muslim world and the material on historical Islam has contemporary reference. [Perceptions of Iran](#) Ali M. Ansari, 2013-11-30 I B Tauris in association with the Iran Heritage Foundation From the Sasanian to the Safavid Empire and from Qajar Iran to the current Islamic Republic the history of Iran is one which has been coloured by a rich tradition of myths and narratives and shaped by its wealth of philosophers, cultural theorists and political thinkers. *Perceptions of Iran* dissects the construction of Iranian identity to reveal how nationalism has been continually re-formulated and how Iran's self-perception has been moulded by its literary past. Here Ali M. Ansari gathers together a varied and wide-ranging account of the long history of Iranian encounters with the Western world whether via the observations of Herodotus or the knowledge via the Old Testament of Cyrus liberating the Jews from Babylon or into the modern era when nineteenth and twentieth century interactions reflect the unequal power relationship between Iran and the West. *Perceptions of Iran* also explores the salient elements in the country's narrative which helped to form Iran's identity such as Ferdowsi's creation of the *Shahnameh*, the national epic, the exquisite architecture of Safavid Isfahan or the

unfulfilled promise of the Constitutional Movement in the early twentieth century. It offers analysis of the Qajar Shahs use of a mythical and dynastic past as they drew on the narratives of Jamshid's glory and Khusraw's splendour in order to legitimise their rule. At the same time it examines the ways in which foreign travellers and diplomats understood and conceived of the royal courts of Safavid Persia. As it covers 2 500 years of political and intellectual history, *Perceptions of Iran* ties together the diverse threads of Iranian experience that have underpinned the country's social and cultural movements spanning Mirza Agha Khan Kermani's writing on Persian history and liberal nationalism through to the strident anti-Western discourses of Seyyed Jamal al-Afghani, Jalal Al-e Ahmad and Ayatollah Khomeini. The book is therefore vital for researchers of Iranian history and those interested in the use of myth in the construction of national identity more widely.
