Napoleon were part of a wider process that created the modern great power system dominated by Europe's five leading states. Enhanced by maps and a chronology of principal events, this comprehensive and accessible textbook is fully up to date in its coverage of recent scholarship. Unlike many other treatments of this period, Scott extends his beyond the French Revolution of 1789 in order to demonstrate how events both before and after this great upheaval merged to produce the central political development in modern European history. This book addresses the crucial phase in the emergence of the modern international system which, with the subsequent addition of the USA, Japan and Russia, has prevailed until the present day.

**Longman Companion to Imperial Russia, 1689-1917** David Longley, 2014-07-30 This is the first book of its kind to draw together information on the major events in Russian history from 1695 to 1917, covering the eventful period from the accession of Peter the Great to the fall of Nicholas II. The central theme of the book is the growth of absolutism in Russia throughout these years, and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being.

Russia in the Age of the Enlightenment Roger Bartlett, Janet M Hartley, 1990-08-01

**The Military and Society in Russia, 1450-1917** Eric Lohr, Marshall Poe, 2002-11-01 This book explores the interaction of the Russian military and society in the early modern and modern period. In contrast to straightforward military histories, the volume is concerned with the myriad political, economic and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I. The book begins with an attempt by the editors to provide a large frame in which to place the various contributions. What follows are three topical sections, including 22 detailed, often archival-based, monographic articles. The first section concerns The Military and Society in Muscovy; the second section focuses on The Military and Society in Imperial Russia; the third part analyzes Patriotism, Nationality, Religion and the Military.
