Zhigun, 2025-06-22 This book is the first comprehensive work on Russian Fractals in indigenous artifacts While existing works focus on universal phenomena such as liquid crystal or finance none explore the intersection between Fractals and Russia Russian Fractals in Indigenous Artifacts therefore investigates how indigenous Russian cultures have a wonderful Fractal heritage that was originally tied to socially just and ecologically sustainable social practices including those of indigenous northern groups such as the Yakut Fractal designs originally allowed unalienated value both human and nonhuman to be visible thereby enabling just and sustainable living This book also examines how the tsarist elite encouraged the creation of unique creative masterpieces developing and strengthening traditional crafts and art of indigenous people hence Fabergé or imperial architecture Today the challenge for contemporary Russia is to reestablish the relationship between the social and ecological sustainability of indigenous cultures and practices for which we can now provide modeling and analysis Lay attempts at this have only limited success as they have based the attempts on a purely religious basis which recognizes the ecological aspects but often succumbs to authoritarian nationalism However the freely accession of indigenous peoples to Russia for the sake of national liberation has had a positive effect on enriching them with spirituality and creativity by Fractal artifacts through friendly exchanges with one another In Russian Fractals in Indigenous Artifacts Bangura and Zhigun express why there is a need for a forward thinking Fractal renaissance in Russia bringing together contemporary computational and scientific analyses with these ecologically and socially sustainable traditions      **The Transformation of Central Asia** Pauline Jones

Luong, 2018-08-06 With the fall of the Soviet Union in 1991 former Communist Party leaders in Central Asia were faced with the daunting task of building states where they previously had not existed Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan Their task was complicated by the institutional and ideological legacy of the Soviet system as well as by a more actively engaged international community These nascent states inherited a set of institutions that included bloated bureaucracies centralized economic planning and patronage networks Some of these institutions survived others have mutated and new institutions have been created Experts on Central Asia here examine the emerging relationship between state actors and social forces in the region Through the prism of local institutions the authors reassess both our understanding of Central Asia and of the state building process more broadly They scrutinize a wide array of institutional actors ranging from regional governments and neighborhood committees to transnational and non governmental organizations With original empirical research and theoretical insight the volume's contributors illuminate an obscure but resource rich and strategically significant region      **Doctor Levitin** David Shrayer-Petrov, 2018-09-17 The story of a doctor
