International Banking 1870-1914 Rondo Cameron, V. I. Bovykin, 1992-03-12 This book the product of a unique international scholarly collaboration sponsored jointly by the American Council of Learned Societies and the Soviet Academy of Sciences provides a comprehensive survey on international banking from 1870 to 1914 In that period international investment reached dimensions previously unknown and the banking systems of the world achieved a degree of internationalization without precedent The book s authors twenty five scholars from fifteen countries are the acknowledged experts in their fields They detail the origin and development of internationally oriented banks in each major country and explain their role in foreign investment and industrial finance They look at all areas of the world that were involved in international investment either as investors recipients of investment or both The definitive work on international banking from 1870 to 1914 this book will interest scholars and students in financial and banking history bankers and economists in the financial industry and general historians

The Economics of World War I Stephen Broadberry, Mark Harrison, 2005-09-29 This unique volume offers a definitive new history of European economies at war from 1914 to 1918 It studies how European economies mobilised for war how existing economic institutions stood up under the strain how economic development influenced outcomes and how wartime experience influenced post war economic growth Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain Germany France Russia the USA Italy Turkey Austria Hungary and the Netherlands The editors overview draws some stark lessons about the role of economic development the importance of markets and the damage done by nationalism and protectionism A companion volume to the acclaimed The Economics of World War II this is a major contribution to our understanding of total war

Russia Since 1980 Steven Rosefielde, Stefan Hedlund, 2009 Russia since 1980 recounts the epochal political economic and social changes that destroyed the Soviet Union ushering in a perplexing new order Two decades after Mikhail Gorbachev

initiated his regime wrecking radical reforms Russia has reemerged as a superpower It has survived a hyperdepression modernized restored private property and business adopted a liberal democratic persona and asserted claims to global leadership Many in the West perceive these developments as proof of a better globalized tomorrow while others foresee a new cold war Globalizers contend that Russia is speedily democratizing marketizing and humanizing creating a regime based on the rule of law and respect for civil rights Opponents counterclaim that Russia before and during the Soviet period was similarly misportrayed and insist that Medvedev s Russia is just another variation of an authoritarian Muscovite model that has prevailed for more than five centuries The cases for both positions are explored while chronicling events since 1980 and a verdict is rendered in favor of Muscovite continuity Russia will continue challenging the West until it breaks with its cultural legacy

Russian Industrialists in an Era of Revolution: The Association of Industry and Trade, 1906-17

Ruth AmEnde Roosa, Thomas C. Owen, 2019-09-18 Ruth Roosa s long awaited study focuses on the most important business organization in imperial Russia the Association of Industry and Trade the nerve center of Russian capitalism in the years between the revolutions of 1905 and 1917 The author s comprehensive nuanced analysis of the Association s policy positions on Russian economic development has no peer Of particular interest are the insights the study affords into the peculiarities of Russian business including the operation of semi monopolistic syndicates and the role of imported capital banks and the autocratic state It supplies historical perspective on some of the more perplexing features of the new Russian capitalism Roosa was a pioneer in the study of early twentieth century Russian capitalism This volume prepared for posthumous publication by her friends and colleagues makes her work available at a time when it has new resonance and relevance

Jewish Immigrant Entrepreneurship in New York and London 1880-1914 A. Godley, 2001-07-18 How successful were the East European Jewish immigrants in London compared with the vast majority that went to New York This critical question one that lies at the heart of debates on Jewish modernity ethnic and racial assimilation and the impact of culture on entrepreneurship is assessed systematically for the first time in this volume Using new evidence of Jewish immigration mobility and assimilation Andrew Godley shows that despite similar backgrounds and opportunities the Jews in London were far less entrepreneurial and those in New York As the Jewish immigrants assimilated either American or British cultural values those in New York moved en masse into self employment while those in London opted to remain as workers Godley then reinterprets the broad thrust of British twentieth century economic history emphasising how these long standing anti entrepreneurial and highly conservative craft cultural values among the English working classes acted as a drag on innovation hampering industrial relations investment and growth

The Political Economy of Stalinism Paul R. Gregory, 2004 This book uses the formerly secret Soviet state and Communist Party archives to describe the creation and operations of the Soviet administrative command system It concludes that the system failed not because of the jockey i e Stalin and later leaders but because of the horse the economic system Although Stalin was the system s prime architect the

system was managed by thousands of Stalins in a nested dictatorship The core values of the Bolshevik Party dictated the choice of the administrative command system and the system dictated the political victory of a Stalin like figure This study pinpoints the reasons for the failure of the system poor planning unreliable supplies the preferential treatment of indigenous enterprises the lack of knowledge of planners etc but also focuses on the basic principal agent conflict between planners and producers which created a sixty year reform stalemate

Russia and America Colin White,2023-06-14 *Russia and America* 1987 examines the divergence between two countries organised on diametrically opposed economic principles one centrally planned state dominated the other a highly decentralised market economy free from significant government intervention It highlights not the political changes brought about by the Russian revolution but a longer more gradual process of interaction between physical and human environments A comparative study extending over several centuries is used to account for the striking differences in their economic history

Before Command Paul R. Gregory,2014-07-14 In a work with significant implications for present day economic reform in the Soviet Union Paul Gregory examines Russian and Soviet economic history prior to the installation of the administrative command system By drawing on basic economic statistics from 1861 to the 1930s Gregory s revisionist account debunks a number of myths promulgated by historians in both the East and the West He demonstrates that the Russian economy under the tsars performed much better than has previously been supposed the Russian economy and its financial institutions were integrated into the world economy allowing Russia to attract significant foreign capital Furthermore he shows that Stalin s justifications for the abandonment of the New Economic Policy in the late 1920s were incorrect the so called crises of NEP were either fabricated or the result of misguided economic thinking *Before Command* is the culmination of the author s lifelong study of the economic history of Russia and the Soviet Union In convincing detail it describes little known Russian and Soviet successes with market capitalism while it also shows the problems inherent in a mixed system such as the NEP which seeks to combine very strong elements of command with market resource allocation Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Standard of Living and Revolutions in Imperial Russia, 1700-1917 Boris Mironov,2012-05-31 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and demography to draw conclusions on the dynamics in the standard of living over this long period of

time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia

Imperial Russia's Muslims Mustafa Tuna, 2015-06-04 Imperial Russia's Muslims offers an exploration of social and cultural change among the Muslim communities of Central Eurasia from the late eighteenth century through to the outbreak of the First World War Drawing from a wealth of Russian and Turkic sources Mustafa Tuna surveys the roles of Islam social networks state interventions infrastructural changes and the globalization of European modernity in transforming imperial Russia's oldest Muslim community the Volga Ural Muslims Shifting between local imperial and transregional frameworks Tuna reveals how the Russian state sought to manage Muslim communities the ways in which both the state and Muslim society were transformed by European modernity and the extent to which the long nineteenth century either fused Russia's Muslims and the tsarist state or drew them apart The book raises questions about imperial governance diversity minorities and Islamic reform and in doing so proposes a new theoretical model for the study of imperial situations

The Oxford Encyclopedia of Economic History Joel Mokyr, 2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history
