Mapping Europe's

Borderlands Steven Seegel, 2012-05-14 The simplest purpose of a map is a rational one to educate to solve a problem to point someone in the right direction. Maps shape and communicate information for the sake of improved orientation. But maps exist for states as well as individuals and they need to be interpreted as expressions of power and knowledge as Steven Seegel makes clear in his impressive and important new book. Mapping Europe's Borderlands takes the familiar problems of state and nation building in eastern Europe and presents them through an entirely new prism that of cartography and cartographers. Drawing from sources in eleven languages including military historical pedagogical and ethnographic maps as well as geographic texts and related cartographic literature Seegel explores the role of maps and mapmakers in the East Central European borderlands from the Enlightenment to the Treaty of Versailles. For example Seegel explains how Russia used cartography in the aftermath of the Napoleonic Wars and later formed its geography society as a cover for gathering intelligence. He also explains the importance of maps to the formation of identities and institutions in Poland Ukraine and Lithuania as well as in Russia. Seegel concludes with a consideration of the impact of cartographers regional and socioeconomic backgrounds educations families career options and available language choices.

Languages of the World Asya Pereltsvaig, 2020-09-03 Requiring no background in linguistics this book introduces readers to the rich diversity of human languages *Language Empires in Comparative Perspective* Christel Stolz, 2015-03-10 The notion of empire is associated with economic and political mechanisms of dominance For the last decades however there has been a lively debate concerning the question whether this concept can be transferred to the field of linguistics specifically to research on situations of language spread on the one hand and concomitant marginalization of minority languages on the other The authors who contributed to this volume concur as to the applicability of the notion of empire to language related issues They address the processes potential merits and drawbacks of language spread as well as the marginalization of minority languages language endangerment and revitalization contact induced language change the emergence of mixed languages and identity issues An emphasis is on the dominance of non Western languages such as Arabic Chinese and particularly Russian The studies demonstrate that the emergence spread and decline of language empires is a promising area of research particularly from a comparative perspective **Desired Language** Francesc Feliu, 2023-01-15 National linguistic ideology has been at the base of most historical processes that whether they are complete or not have brought us to the current reality a world of languages that represent with greater or lesser exactitude the diversity and convergences of human groups Various of today's thinkers have predicted the decline or even the end of national ideologies In the area of language postmodernism would make the linguistic affiliation of the community individuals irrelevant de-ideologise language use and extend plurilingualism and language alternation in association with a new distribution of physical or functional spaces of linguistic practice But is this true everywhere Are languages now nowhere the core of collective identity Or are we witnessing a distinction between languages that because of their magnitude status strategic position etc can continue to exercise the function of national languages and languages that have to renounce this function Has national linguistic ideology really ceased to make sense What other strategies should the historic language of a given geographic area employ if it wants to continue forming part of the life of the community that is set up there What kinds of languages are desired by politicians intellectuals and philologists This book aims to bring some thoughts about these questions **Exploring and Mapping Alaska** Alexey Postnikov, Marvin Falk, 2015-06-15 Russia first encountered Alaska in
