Reference Guide to Russian Literature Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public *An Anthology of Russian Literature in the Soviet Period from Gorki to Pasternak* Bernard Guilbert Guerney, 1960 **The Evolution of Space in Russian Literature** Katharina Hansen Löve, 1994 This book is concerned with the literary development of the narrative category of space in Russian literature from Romanticism until Modernism It consists of two parts The theoretical introduction renders a survey of some major 20 th century theories on literary development in the tradition of Russian Formalism and Czech Structuralism A

critical discussion is given of the cultural and stylistic typologies of the soviet scholar D Lichacev and the semiotician I Smirnov Furthermore the ideas on literary space as they were developed by two important representatives of the Moscow Tartu School of Semiotics Ju Lotman and V Toporov are described together with the method of literary analysis they offer The contents of the second part of the book are analyses of the structure of space in the following narrative works Mcyri by M Ju Lermontov Nevskij prospekt by N V Gogol Oblomovby I A Goncarov V tolpe by F Sologub and Kotlovanby A Platonov The analyses are accompanied by an interpretation of the story based on the spatial details in the text It appears that both continuity and change characterize the development of literary space This two fold nature of the evolutionary proces comes to the fore through recurrence of spatial archetypes in all the periods under discussion and through ambivalence of meaning as a result of the semiotization of literary space in each literary work

A History of Russian Literature Kazimierz Waliszewski, 1915 *Russian Literature* Andrew Baruch Wachtel, Ilya Vinitsky, 2013-05-08 For most English speaking readers Russian literature consists of a small number of individual writers nineteenth century masters such as Dostoevsky Tolstoy and Turgenev or a few well known works Chekhov's plays Brodsky's poems and perhaps Master and Margarita and Doctor Zhivago from the twentieth century The medieval period as well as the brilliant tradition of Russian lyric poetry from the eighteenth century to the present are almost completely terra incognita as are the complex prose experiments of Nikolai Gogol Nikolai Leskov Andrei Belyi and Andrei Platonov Furthermore those writers who have made an impact are generally known outside of the contexts in which they wrote and in which their work has been received In this engaging book Andrew Baruch Wachtel and Ilya Vinitsky provide a comprehensive conceptually challenging history of Russian literature including prose poetry and drama Each of the ten chapters deals with a bounded time period from medieval Russia to the present In a number of cases chapters overlap chronologically thereby allowing a given period to be seen in more than one context To tell the story of each period the authors provide an introductory essay touching on the highpoints of its development and then concentrate on one biography one literary or cultural event and one literary work which serve as prisms through which the main outlines of a given period's development can be discerned Although the focus is on literature individual works lives and events are placed in broad historical context as well as in the framework of parallel developments in Russian art and music

The Poetics of Early Russian Literature D.S. Likhachev, 2014-03-13 This translation of Likhachev's Poetika Drevnerusskoy Literatury The Poetics of Early Russian Literature provides a description of the basic themes of early tenth to seventeenth century Russian literature Likhachev compares literary narrative with narrative used in the representational arts Furthermore Likhachev stresses the genre based character of medieval Russian literature and shows how choice of style in

medieval times depended on a genre with its own specific etiquette and how innovation was discouraged. The text contrasts medieval abstraction and modern realism as Likhachev shows how realisticness gradually breaks through in specific situations such as those of princely crimes. Likhachev draws contrasts in three different areas: the basic stock of symbols and comparisons used in early Russian literature with those used in modern literature; artistic time in folklore and early Russian literature; and artistic space in folklore and early Russian literature. Likhachev traces the gradual development into modern artistic time through a comparison of the chronicle, the first Russian play, the seventeenth-century writer Avvakum, and three modern authors: Goncharov, Dostoevsky, and Saltykov-Shchedrin. Finally, the text gives a justification for studying early literatures. This book will be invaluable for students of Russian medieval and comparative literature.

How Russian Literature Became Great Rolf Hellebust, 2024-01-15. How Russian Literature Became Great explores the cultural and political role of a modern national literature orchestrated in a Slavonic key but resonating far beyond Russia's borders. Rolf Hellebust investigates a range of literary tendencies, philosophies, and theories from antiquity to the present: Roman jurisprudence to German Romanticism, French Enlightenment to Czech Structuralism, Herder to Hobsbawm, Samuel Johnson to Sainte-Beuve, and so on. Besides the usual Russian suspects from Pushkin to Chekhov, Hellebust includes European writers: Byron and Shelley, Goethe and Schiller, Chateaubriand and Baudelaire, Dante, Mickiewicz, and more. As elsewhere, writing in Russia advertises itself via a canon of literary monuments constituting an atemporal ideal order among themselves. T. S. Eliot. And yet this is a tradition that could only have been born at a specific moment in the golden nineteenth-century age of historiography and nation building. The Russian example reveals the contradictions between immutability and innovation, universality and specificity at the heart of modern conceptions of tradition from Sainte-Beuve through Eliot and down to the present day. The conditions of its era of formation, the prominence of the crucial literary-historical question of the writer's social function, and the equation of literature with national identity make the Russian classical tradition the epitome of a unified cultural text with a complex narrative in which competing stories of progress and decline unfold through the symbolic biographical encounters of the authors who constitute its members. How Russian Literature Became Great thus offers a new paradigm for understanding the paradoxes of modern tradition.

A History of Russian Literature Andrew Kahn, Mark Naumovich Lipovetskiĭ, Irina Reyfman, Stephanie Sandler, 2018. Russia possesses one of the richest and most admired literatures of Europe, reaching back to the eleventh century. A History of Russian Literature provides a comprehensive account of Russian writing from its earliest origins in the monastic works of Kiev up to the present day, still rife with the creative experiments of post-Soviet literary life. The volume proceeds chronologically in five parts, extending from Kievan Rus in the 11th century to the present day. The coverage strikes a balance between extensive overview and in-depth thematic focus. Parts are organized thematically in

chapters which a number of keywords that are important literary concepts that can serve as connecting motifs and case studies in depth discussions of writers institutions and texts that take the reader up close and Visual material also underscores the interrelation of the word and image at a number of points particularly significant in the medieval period and twentieth century The History addresses major continuities and discontinuities in the history of Russian literature across all periods and in particular bring out trans historical features that contribute to the notion of a national literature The volume s time range has the merit of identifying from the early modern period a vital set of national stereotypes and popular folklore about boundaries space Holy Russia and the charismatic king that offers culturally relevant material to later writers This volume delivers a fresh view on a series of key questions about Russia s literary history by providing new mappings of literary history and a narrative that pursues key concepts rather more than individual authorial careers This holistic narrative underscores the ways in which context and text are densely woven in Russian literature and demonstrates that the most exciting way to understand the canon and the development of tradition is through a discussion of the interrelation of major and minor figures historical events and literary politics literary theory and literary innovation
