Eighteenth-Century Russian Music Marina Ritzarev,2017-07-05 Little is known outside of Russia about the nation s musical heritage prior to the nineteenth century Western scholarship has tended to view the history of Russian music as not

beginning until the end of the eighteenth century Marina Ritzarev's work shows this interpretation to be misguided Starting from an examination of the rich legacy of Russian music up to 1700 she explores the development of music over the course of the eighteenth century a period of especially intense Westernization and secularization The book focuses on what is characteristic and crucial to Russian music during this period rather than seeking to provide a comprehensive survey The musical culture of the time is discussed against the rich background of social political and cultural life tying together many of the phenomena that used to be viewed separately The book highlights the importance of previously marginalized sectors serf culture choral sacred culture the contribution of foreign musicians the significant influence of Freemasonry the role of Ukrainian and West European cultures and so on as well as casting new light on the well researched topic of Russian opera Much new archival material is introduced and revised biographies of the two leading eighteenth century Russian composers Maxim Berezovsky and Dmitry Bortniansky are provided as well as those of the serf composer Stepan Degtyarev and the Italian Giuseppe Sarti The book places eighteenth century Russian music on the European map and will be of particular importance for the study of European musical cultures remote from such centres as Italy Germany Austria and France Eighteenth century Russian music is organically linked with its past and future and its contributory role in forming the Russian national identity and developing the Russian idiom is clarified

Stravinsky and the Russian Traditions, Volume One Richard Taruskin, 2016-04-27 This book undoes 50 years of mythmaking about Stravinsky's life in music During his spectacular career Igor Stravinsky underplayed his Russian past in favor of a European cosmopolitanism Richard Taruskin has refused to take the composer at his word In this long awaited study he defines Stravinsky's relationship to the musical and artistic traditions of his native land and gives us a dramatically new picture of one of the major figures in the history of music Taruskin draws directly on newly accessible archives and on a wealth of Russian documents In Volume One he sets the historical scene the St Petersburg musical press the arts journals and the writings of anthropologists folklorists philosophers and poets Volume Two addresses the masterpieces of Stravinsky's early maturity *Petrushka* *The Rite of Spring* and *Les Noces* Taruskin investigates the composer's collaborations with Diaghilev to illuminate the relationship between folklore and modernity He elucidates the Silver Age ideal of neonationalism the professional appropriation of motifs and style characteristics from folk art and how Stravinsky realized this ideal in his music Taruskin demonstrates how Stravinsky achieved his modernist technique by combining what was most characteristically Russian in his musical training with stylistic elements abstracted from Russian folklore The stylistic synthesis thus achieved formed Stravinsky as a composer for life whatever the aesthetic allegiances he later professed Written with Taruskin's characteristic mixture of in depth research and stylistic verve this book will be mandatory reading for all those seriously interested in the life and work of Stravinsky

[The History of the Russian Church in Australia](#) Michael A. Protopopov, 2021-09-01 In the pages of this book the history of the Russian Orthodox Church in Australia is diligently chronicled within the wider context of the place of ethnic Russians in a

dominantly anglophone society that of what was at first a British colony and later became an independent state It begins with the first contact of Russian naval ships with the Australian continent in the early nineteenth century and progresses through to the establishment of the first parish of Orthodox believers in Melbourne in the 1890s the establishment of further churches and ultimately the creation of a diocese The catalyst for much of this was the arrival of thousands of Russians fleeing their homeland via Siberia after the Bolshevik revolution of 1917 For these newly dispossessed Australia and New Zealand became havens of safety and the Russian Orthodox Church an echo of the Motherland they had lost They were later joined by successive waves of fellow Russians after the end of World War II in 1945 and again after the fall of the Soviet Union in 1991 Together these refugees and their descendants created a unified organism that retained a sense of shared heritage and purpose and in turn provided a home to spiritual seekers who were not of their ethnic lineage In writing this work the author has drawn on extensive archival sources spread over several continents together with his own life experience having arrived as a small boy in Australia over six decades ago First published in 2006 this new edition includes an added chapter recounting the ongoing story from the beginning of the twenty first century through to the end of 2020 covering the effects on the Church in Australia of major world events as diverse as the reunification of the Russian Church Abroad with the Patriarchate of Moscow in 2007 and the global coronavirus pandemic that arrived in Australia in 2020
