Russia and the World Natasha Kuhrt, 2014-10-14 This volume brings together analyses of key domestic foreign and security policy issues during the Putin and Medvedev administrations Indeed the chapters demonstrate the extent to which domestic and foreign policy issues are inextricably linked in particular in the domain of security whether hard or soft Internal debates regarding Russia s trajectory including issues of national identity economic modernisation human rights and democracy continue to be at the forefront of concern Moreover these debates are intimately connected to Russia s self image and the image therefore that it wishes to project in the wider world The debates focus on Russia as energy superpower as one of the BRICS as an Eurasian landbridge or a window on the Asia Pacific Such debates are a constant reminder of the uncertainty surrounding Russia s future path This book expresses these uncertainties which range from the role of nuclear weapons and energy to critiques of Russia s approach to concepts such as sovereignty and self determination the fight against terrorism insurgency and the role of Islam within and without Russia may have left the chaos of the Yeltsin years behind but as we move into Putin 3 0 the concerns of these chapters will remain critical both to Russia itself and to Russia s relations with the wider world This book was published as a special issue of Europe Asia Studies

Russia's Security Policy under Putin Aglaya Snetkov, 2014-11-27 This book examines the evolution of Russia s security policy under Putin in the 21st century using a critical security studies approach Drawing on critical approaches to security the book investigates the interrelationship between the internal external nexus and the politics of in security and regime

building in Putin's Russia. In so doing it evaluates the way that this evolving relationship between state identities and security discourses framed the construction of individual security policies and how in turn individual issues can impact on the meta discourses of state and security agendas. To this end the de securitisation discourses and practices towards the issue of Chechnya are examined as a case study. In so doing this study has wider implications for how we read Russia as a security actor through an approach that emphasises the importance of taking into account its security culture, the interconnection between internal external security priorities and the dramatic changes that have taken place in Russia's conceptions of itself, national and security priorities and conceptualisation of key security issues in this case Chechnya. These aspects of Russia's security agenda remain somewhat of a neglected area of research but as argued in this book offer structuring and framing implications for how we understand Russia's position towards security issues and perhaps those of rising powers more broadly. This book will be of much interest to students of Russian security, critical security studies and IR. **Space** Kiran

Krishan Nair, 2006 **Soviet Air Force Theory, 1918-1945** James Sterrett, 2007-01-24 This new book examines the development of Soviet thinking on the operational employment of their Air Force from 1918 to 1945 using Soviet theoretical writings and contemporary analyses of combat actions **Inferno in Chechnya** Brian Glyn Williams, 2015-09-22 In 2013 the United States suffered its worst terrorist bombing since 9/11 at the annual running of the Boston Marathon. When the culprits turned out to be U.S. residents of Chechen descent, Americans were shocked and confused. Why would members of an obscure Russian minority group consider America their enemy? *Inferno in Chechnya* is the first book to answer this riddle by tracing the roots of the Boston attack to the Caucasus Mountains of southern Russia. Brian Glyn Williams describes the tragic history of the bombers' war-devastated homeland, including tsarist conquest and two bloody wars with post-Soviet Russia that would lead to the rise of Vladimir Putin, showing how the conflict there influenced the rise of Europe's deadliest homegrown terrorist network. He provides a historical account of the Chechens' terror campaign in Russia, documents their growing links to Al Qaeda and radical Islam, and describes the plight of the Chechen diaspora that ultimately sent two Chechens to Boston. *Inferno in Chechnya* delivers a fascinating and deeply tragic story that has much to say about the historical and ethnic roots of modern terrorism. Global Nuclear Disarmament V. R. Raghavan, 2012-08-01 The DPG was chosen as a research

institution to assist in the deliberations of the International Commission on Nuclear Non-Proliferation and Disarmament constituted by the Australian and Japanese governments. The support of the NTI to DPG's efforts has been immense and definitive. The first decade of 21st century has seen a resurgence of support for global nuclear disarmament. A cascade of nuclear disarmament proposals has emerged from different sources. India has consistently favored complete global nuclear disarmament even as it laid the foundations of a nuclear energy programme. Notwithstanding the nuclear tests, Indian policy on global nuclear disarmament has not been disavowed. Global nuclear disarmament is closely linked to geo-political conditions. Unless such conditions are favourable, states are unlikely to take initiatives to either reduce or eliminate their

nuclear weapons stockpiles This book examines the geopolitical necessities which will encourage nuclear disarmament globally It also contrasts them with the geopolitical realities currently prevailing which impact on nuclear disarmament The papers in the book bring forth both the challenges and opportunities that lie ahead **Contemporary Military Theory** Jan Angstrom,J.J. Widen,2014-07-17 The book aims to provide the reader with a state of the art introduction to classic and modern military theory The text accounts for the most important theories within the field by developing and analyzing these theories as well as problematizing both their normative and explanatory aims While focusing on military theory the book does not only reflect a single way of relating to knowledge of war and warfare but furthers learning by introducing contrasting perspectives as well as constantly criticizing the theories There is a clear need for an introductory text for the entire field of military theory that focuses whole heartedly on the theories not on their context or how they are expressed in practice during war This book covers such questions as how we should understand the changing character of war the utility of force and how the pursuit of political ends is achieved through military means It draws upon and illustrates military thought through a wide ranging number of examples from the Napoleonic Wars to the current war in Afghanistan This book will be of great interest for students of military theory strategic studies security studies and defence studies Global Maritime Geopolitics Hasret ÇOMAK,,Burak Şakir ŞEKER,Mehlika Özlem ULTAN,2022-01-16 States must develop new approaches maritime policies strategies and tactics to cruise through the contemporary maritime politics Soft power as well as economic commercial and logistics factors are of critical importance in establishing marine power It is critical to promote maritime related products such as films serials literature and art maritime journalism and maritime photography as part of governmental policies Marine and maritime security challenges are becoming more important in today s world As a result of all these developments the preparation of a multidimensional and comprehensive work on the oceans and seas at the global level has been brought to the agenda Our book has been written to elucidate these concerns and contribute to this important scholarly and policy field This book can also be useful for wider audiences as a comprehensive volume on maritime geopolitics covering many cases from around the world and discussions from Turkish perspectives CONTENTS PREFACE PART 1 ANTARCTIC AND ARCTIC MARITIME SECURITY INTERACTION WITHIN LIBERALISM REALISIM AND CRITICAL THEORIES Burak akir eker and Hasret omak Global Geopolitical Shift Balance of Power in The Arctic Ferdi G yetmez BALTIC STATES AND ARCTIC NEGOTIATIONS ncel Sen erman UNDERSTANDING THE ANTARCTIC BIODIVERSITY AND TURKISH CONTRIBUTION TO ITS PROTECTION Bayram zt rk and Mehmet G khan Hal c PART 2 INDIAN AND PACIFIC OCEAN GEOPOLITICS SECURITIZATION PROCESS OF INDO PACIFIC AND ASIA PACIFIC THROUGH IR THEORIES WITHIN MARITIME SECURITY INTERACTION Burak akir eker THE GEOPOLITICS OF INDO PACIFIC REGION nci S kmen Alaca ASEAN AND ITS ROLE IN THE GEOPOLITICS OF THE SOUTH PACIFIC Ahmet Ate and S leyman Temiz REGIONAL CHALLENGES AND INTERNATIONAL RELATIONS THE COMPLEX REALITIES OF THE SOUTH PACIFIC GEOPOLITICS Amba Pande THE
