Rwanda And Genocide In The Twentieth Century:

Rwanda and Genocide in the Twentieth Century Alain Destexhe, 1995 An angry and eloquent book Financial Times Alain Destexhe a former Secretary General of the relief agency M decins sans Fronti res and now a senator in the Belgium Parliament who has writted Rwanda in Genocide in the Twentieth Century a treatise to counter the catch all of media coverage in which all catastrophes are treated alike and reduced to their lowest common denominator compassion on the part of the onlooker Observer *Rwanda and Genocide in the Twentieth Century* Alain Destexhe, 1995-10 In this slim passionately argued volume first published to great acclaim in France and considerably updated during the translation process a deeply involved witness of the massacres takes an unflinching look at recent events in Rwanda and what they can tell us about the nature of genocide Drawing on his experiences in the killing fields Destexhe illustrates how genocide is trivialized by superficial contemporary definitions and by modern media and its compulsion to describe any mass killing as genocide Genocide Destexhe argues is the most evil of all crimes as it is directed at the very heart of what it is to be human Reviewing the three most destructive genocidal campaigns of the twentieth century the Turkish mass murder of Armenians the Nazi Holocaust and the Rwandan cataclysm the book discusses such central issues as culpability and collective responsibility the limits of humanitarian intervention and the complexities of punishing genocidal agents after the fact

Moghalu, 2005-11-18 In Rwanda's Genocide Kingsley Moghalu provides an engrossing account and analysis of the international political brinkmanship embedded in the quest for international justice for Rwanda's genocide He takes us behind the scenes to the political and strategic factors that shaped a path breaking war crimes tribunal and demonstrates why the trials at Arusha like Nuremberg Tokyo and the Hague are more than just prosecutions of culprits but also politics by other means This is the first serious book on the politics of justice for Rwanda's genocide Moghalu tells this gripping story with the authority of an insider elegant and engaging writing and intellectual mastery of the subject matter

Namibia Godfrey Mwakikagile, 2015 The author looks at how Namibia was founded as a German colony known as Deutsch S dwestafrika German South West Africa and how it evolved into a nation He explains how it was founded on brutal suppression of the indigenous people including extermination of large numbers of some groups and how on becoming a colony of South Africa its people continued to be subjected to brutal treatment by the white minority rulers who denied them racial equality The author also focuses on the liberation struggle against apartheid and how the country won independence from apartheid South Africa He also looks at how the leaders of the new nation are trying to build the country and construct a national identity on the basis of unity in diversity It is an analysis of identity formation at the national level and consolidation of the state whose relevance is continental in scope studies of other African countries in their quest for unity

and construction or reconstruction of their national identities during the post colonial era can benefit from this work It is also a work of comparative analysis in terms of nationhood in the African context and how Namibia and Tanzania two case studies have sought to construct their national identities the obstacles they have faced and continue to face in the quest for national unity especially in the case of Namibia and why Tanzania has been more successful than most countries on the continent in building a cohesive society where tribalism is virtually non existent enabling it to consolidate its unity and national identity The author also looks at the concept of national character and its relevance to national identity formation and why the national identities of different African countries are weak and what can be done to address the problem It is also an introductory text which may be helpful to some people who are going to Namibia for the first time although it is essentially a scholarly work intended for members of the academic community and specialists in some fields dealing with this southwest African country and its people But members of the general public who want to learn more about Namibia may also find the book to be useful

A Citizen's Guide to American Foreign Policy David Patrick Houghton, 2013-11-20 American foreign policy often looks like a trail of man made debris and disaster Of course the explanations for many poorly made decisions are rather complex In this brief and cogent analysis Houghton shows us that understanding American foreign policy often comes down to recognizing the cognitive limitations of the decision makers which affects the foreign policy process Then there is the nature of the decisions themselves Quite a few decisions in American foreign policy involve tragic choices where leaders are effectively confronted with a series of progressively bad or uncomfortable options And it is equally clear that some policies are not the product of any one individual's preferences but emerge as a consequence of the way in which complex modern governments with large bureaucracies operate Written with the interested layperson in mind as well as students of international affairs this Citizen's Guide to American Foreign Policy asks questions like Why do presidents so often do things which seem to be directly against the national interests of the United States not just in retrospect but even at the time Why do there seem to be so many fiascoes in US foreign policy Why does Congress sometimes tie the hands of the president in foreign affairs Why do presidents seem to respond more to opinion polls or to what's on CNN and Fox News than they do to the core interests of the United States Houghton's overview helps us see past the partisan in fighting that too often obscures the central issues in foreign affairs This is vital required reading for all readers who wish to better understand America's involvement in the world

War And Peace In The 20th Century And Beyond, The Nobel Centennial Symposium Geir Lundestad, Olav Njolstad, 2003-03-21 At the turn of the 21st Century the world was immediately gripped by the War on Terrorism followed by the Iraq War In reflection the 20th Century was a period marked by tremendous technological and economic progress but it was also the most violent century in human history It witnessed two horrendous world wars as well as the conflicts during

the Cold War Why do wars persistently erupt among nations particularly the Great Powers What are the primary factors that drive nations to violence power prestige ideology or territory Or is it motivated by pure fear and mistrust Peering nervously at the 21st Century we wonder whether American supremacy and globalization will help ensure peace and stability Or will shifts in power with the emergence of new economic super nations lead to further tensions and conflicts in this century Together with 29 Peace Nobel laureates an outstanding group of scholars gathered in Oslo Norway on December 6 2001 for the three day Nobel Centennial Symposium to discuss The Conflicts of the 20th Century and the Solutions for the 21st Century Read this book for the scholars candid insights and analyses as well as their thought provoking views on the factors that led to conflicts in the 20th Century and whether the 21st Century will be a more peaceful one This is a rare and possibly the best and only book compilation of the highly intellectual analyses by world experts and Nobel Peace laureates on the perennial issues of War Peace

The Holocaust/Genocide Template in Eastern Europe Ljiljana Radonić, 2020-05-21 The Holocaust Genocide Template in Eastern Europe discusses the memory wars in the course of the post Communist re narration of history since 1989 and the current authoritarian backlash The book focuses specifically on how mnemonic warriors employ the Holocaust template and the concept of genocide in tendentious ways to justify radical policies and externalize the culpability for their international isolation and worsening social and economic circumstances domestically The chapters analyze three dimensions 1 the competing narratives of the universalization of the Holocaust as the negative icon of our era on the one hand and the double genocide paradigm on the other which focuses on our own national suffering under allegedly equally evil Nazism and Communism 2 the juxtaposition of post Communist Eastern Europe and Russia reflected primarily in the struggle of the Baltic states and Ukraine to challenge Russian propaganda a struggle that runs the risk of employing similarly distorting and propagandistic tropes and 3 the post Yugoslav rhetoric portraying one's own group as the new Jews and one's opponents in the wars of the 1990s as akin to Nazis Surveying major battle sites in this memory war memorial museums monuments film and the war over definitions and terminology in relevant public discourse The Holocaust Genocide Template in Eastern Europe will be of great interest to scholars of genocide the Holocaust historical memory and revisionism and Eastern European Politics This book was originally published as a special issue of the Journal of Genocide Research
