Rwanda Country:

Introduction to Rwanda Gilad James, PhD, Rwanda is a small landlocked country located in Central East Africa It has a total land area of 26 338 square kilometers and is bordered by Uganda to the north Tanzania to the east Burundi to the south and the Democratic Republic of Congo to the west The population is predominantly composed of three ethnic groups the Hutu Tutsi and Twa The country experienced a major genocide in 1994 resulting in the deaths of approximately 800 000 people mainly Tutsi The genocide shattered the country s economic and social infrastructure leading to a long period of recovery and reconstruction Since then Rwanda has undergone significant transformation and is emerging as one of Africa s success stories The government has prioritized modernizing the agriculture sector promoting investment in infrastructure and reducing corruption Rwanda has also embraced technology becoming a hub for information communication and innovation The country is now known for its initiatives such as the Kigali Innovation City which aims to create jobs through attracting tech companies to set up shop in the country While there are still challenges Rwanda is making strides towards becoming a prosperous and thriving nation *Rwanda* Pascal Belda,2009 Comprehensive business and leisure info prepared especially for the business traveller which is either difficult to source or simply doesn t exist elsewhere Rwanda's agrifood system: Structure and drivers of transformation Diao, Xinshen, Ellis, Mia, Mugabo, Serge, Pauw, Karl, Rosenbach, Gracie, Spielman, David J., Thurlow, James, 2023-01-25 This paper assesses the structure of Rwanda s current and evolving agrifood system and its contribution to national development The paper reiterates the point that Rwanda s agrifood system stretches well beyond primary agriculture and creates jobs and income opportunities throughout the economy While off farm components of Rwanda s agrifood system have generally grown more rapidly than primary agriculture in recent years growth varies across value chains of the agrifood system in the studied period The growth diagnostic in this paper reveals that it is domestic markets that have driven the recent growth in Rwanda s AFS other than exports The paper s forward looking analysis assesses potentially differential impacts of value chain development efforts on broad development outcomes The analysis measures the synergies and trade offs of value chain development in the context of an inclusive agricultural transformation Such analysis is conducted using the Rwanda Computable General Equilibrium CGE model an adaption of IFPRI s Rural Investment and Policy Analysis RIAPA model to the Rwandan context The modeling results indicate that value chains differ considerably in their effectiveness in achieving development goals and there are significant trade offs among different development goals from promoting a specific value chain The value chains that make a larger contribution to growth or job creation are not necessarily effective in reducing poverty or improving dietary quality for example value chains for coffee and tea while value chains that play an important role in improving dietary quality may contribute less to job creation such as vegetables or fruits While there is no single value chain that can achieve all development goals effectively it is possible to select a diversified set of value chains that complement each other in achieving different

development goals This latter strategy is a more realistic approach to growth and development **How Immigrants Contribute to Rwanda's Economy** OECD,International Labour Organization,2018-03-28 How Immigrants Contribute to Argentina s Economy is the result of a project carried out by the OECD Development Centre and the International Labour Organization with support from the European Union **Rwanda's Radical Transformation Since the End of the 1994 Genocide against the Tutsi** Sheriff F. Folarin,2023-08-07 This book discusses the radical transformation of Rwanda focusing on the dynamics of its society before and after the genocide against theTutsis in 1994 Through contextualizing the significant changes experienced by the country it throws searchlights on a number of other African states facing similar challenges The author analyses Rwanda s challenges of nationhood after the genocide the vision and will of the country s leadership its social programs and strategies for cohesion and national development the population s resilience and its growing regional influence in the twenty first century Rwandan society is here considered not only through the lens of existing literature on African politics but also through direct engagement and fieldwork with local populations scholars and policymakers In addition the book weighs in on narratives of survivors and victims of the genocide to understand and present local dispositions to current realities such as reforms development plans inclusive policies and programs and determine how Rwandans deal with historical identity issues and conflicts This book will be of interest to students scholars and researchers interested in Rwandan and African politics peace and conflict studies security strategic studies and genocide studies

Export Opportunities and Barriers in African Growth and Opportunity Act-Eligible Countries, Inv. 332-464 , **Who Must Die in Rwanda's Genocide?** Kyrsten Sinema,2015-09-11 This book provides a juridical sociopolitical history of the evolution of the 1994 Rwandan genocide Over one million citizens were massacred in less than 100 days via a highly organized efficiently executed genocide throughout the tiny country of Rwanda While genocide is not a unique phenomenon in modern times a genocide like Rwanda s is unique Unlike most genocides wherein a government plans and executes mass murder of a targeted portion of its population asking merely that the majority population look the other way or at most provide no harbor to the targeted population ex Germany the Rwandan government relied heavily on the civilian population to not only politically support but actively engage in the acts of genocide committed over the 100 days throughout the spring of 1994 This book seeks to understand why and how the Rwandan genocide occurred It analyzes the colonial roots of modern Rwandan government and the development of the political state of exception created in Rwanda that ultimately allowed the sovereign to dehumanize the minority Tutsi population and execute the most efficient genocide in modern history

Rwanda International Monetary Fund. African Dept.,2023-12-18 The Rwandan economy is undergoing challenging times Development needs remain large and compounded shocks in recent years resulted in emerging internal and external imbalances Devastating floods from May 2023 amplified the underlying imbalances and the reconstruction costs are projected to be substantial Against this backdrop the authorities requested a new Fund financing arrangement to safeguard

macroeconomic and external stability in the near term A 3 year Policy Coordination Instrument PCI and Resilience and Sustainability Facility RSF arrangements were approved in December 2022

Rwanda's Gacaca Courts Paul Christoph Bornkamm, 2012-01-12 Rwanda's Gacaca courts provide an innovative response to the genocide of 1994 Incorporating elements of both African dispute resolution and of Western style criminal courts Gacaca courts are in line with recent trends to revive traditional grassroots mechanisms as a way of addressing a violent past Having been devised as a holistic approach to prosecution and punishment as well as to healing and repairing they also reflect the increasing importance of victim participation in international criminal justice This book critically examines the Gacaca courts achievements as a mechanism of criminal justice and as a tool for healing repairing and reconciling the shattered communities Having prosecuted over one million people suspected of crimes during the 1994 genocide the courts have been both praised for their efficiency and condemned for their lack of due process Drawing upon extensive observations of trial proceedings this book is the first to provide a detailed analysis of the Gacaca legislation and its practical implementation It discusses the Gacaca courts within the framework of transitional and international criminal justice and argues that despite the trend towards local tailor made solutions to the challenges of political transition there is a common set of principles to be respected in addressing the past Evaluating the Gacaca courts against the backdrop of existing or emerging principles such as the duties to investigate and prosecute and the right to the truth the book provides a sophisticated critique of Rwanda's reconciliation policy In doing so it contributes to the development and the clarification of these principles It concludes that Gacaca courts have achieved a great deal in stimulating a basic discourse on the genocide but they have also contributed to assigning collective responsibility and may thus end up deepening the divides within Rwandan society

The Political Economy of Bank Regulation in Developing Countries Emily Jones, 2020 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations International banking standards are intended for the regulation of large complex risk taking international banks with trillions of dollars in assets and operations across the globe

Yet they are being implemented in countries with nascent financial markets and small banks that have yet to venture into international markets Why is this This book develops a new framework to explain regulatory interdependence between countries in the core and the periphery of the global financial system Drawing on in depth analysis of eleven countries across Africa Asia and Latin America it shows how financial globalisation generates strong reputational and competitive incentives for developing countries to converge on international standards It explains how specific cross border relations between regulators politicians and banks within developing countries and international actors including investors peer regulators and international financial institutions generate regulatory interdependence It explains why some configurations of domestic politics and forms of integration into global finance generate convergence with international standards while other configurations lead to divergence This book contributes to our understanding of the ways in which governments and firms in the core of global finance powerfully shape regulatory decisions in the periphery and the ways that governments and firms from peripheral developing countries manoeuvre within the constraints and opportunities created by financial globalisation

African Dept.,2023-06-06* Recent developments Rwanda s economy continued with fast paced post pandemic growth in 2022 but macroeconomic imbalances have emerged Strong output in manufacturing and services sectors more than offset weaker agricultural production and construction activity Rising food prices and strong domestic demand fueled by high credit growth partly contributed to a persistent inflation which stood at 19.3 percent in March Robust import demand coupled with high commodity prices and tightening global financing conditions have weakened Rwanda s external position The uncertain external environment and the reduced prospects for external concessional financing are compounding the challenges from the legacy of the pandemic The authorities are committed to implementing frontloaded fiscal policy adjustment while the National Bank of Rwanda stands ready to take further actions to anchor inflation expectations The outlook is subject to high uncertainty mainly stemming from deepening geopolitical fragmentation volatility in global energy and fertilizer prices a steeper than projected decline in trading partners growth or a funding squeeze *Ethnicity and Sociopolitical Change in Africa and Other Developing Countries* Santosh C. Saha,2008-01-01 This edited book on constructive ethnicity argues that the modernizing state system in developing countries unduly denies a legitimate place to the linguistic and ethnic groups who despite habitual attachment to ethnic groups might meaningfully help the slow process of state building Here ethnicity is characterized as positive and as such moral and pragmatic Despite ethnicity s natural inclination to polarization a national community can be reconstructed as is exemplified by recent events in Rwanda Cyprus India Palestine and China
