Arthur Schopenhauer's Sämtliche Werke Arthur Schopenhauer, 1913      Samtliche Werke Franz Berwald, 1987

Sämtliche Werke in Englisch-deutscher Parallel-Ausgabe Shakespeare, 1884      *Arthur Schopenhauers sämtliche Werke in sechs Bänden* Arthur Schopenhauer, 1890      **Afterwords** Louis A. Ruprecht, 1996-07-03 Reading both philosophical and theological texts this book presents an argument against nostalgia against the myth of a Golden Age against the posture that sees modernity as a problem to be solved      **Classics Pamphlet Collection**, 1902      *An Outline of German Romanticism* Allen Wilson Porterfield, 1914      Imperial Fictions Todd Kontje, 2018-04-25 Rethinks German literature by challenging the notion that national literature is the narrative of a spiritually united people      **The Reformation** Andrew Pettegree, 2004 Reflects both the classic building blocks of Reformation history and also the new historiography which has emerged in recent years      *Plato and Socrates* Richard McKirahan, 2012-09-10 A comprehensive bibliography on all scholarly work that was published on Plato and Socrates during the years 1958 73 The author has sought to include all materials primarily concerned with Socrates and Plato together with other works which make a contribution to our understanding of the two philosophers

**Marx Against Marxism** Julius Lowenstein, 2014-02-04 This volume traces the origins contradictions and consequences of Marx's teaching on his followers He uses Marx to speak against the rigid dogmatism inherent in much of Marxism and concentrates on the interpretations of Marx's work by Max Weber      **The Romantic Imperative** Frederick C. Beiser, 2003 The Early Romantics met resistance from artists and academics alike in part because they defied the conventional wisdom that philosophy and the arts must be kept separate Indeed as the literary component of Romanticism has been studied and celebrated in recent years its philosophical aspect has receded from view This book by one of the most respected scholars of the Romantic era offers an explanation of Romanticism that not only restores but enhances understanding of the movement's origins development aims and accomplishments and of its continuing relevance Poetry is in fact the general ideal of the Romantics Frederick Beiser tells us but only if poetry is understood not just narrowly as poems but more broadly as things made by humans Seen in this way poetry becomes a revolutionary ideal that demanded and still demands that we transform not only literature and criticism but all the arts and sciences that we break down the barriers between art and life so that the world itself becomes romanticized Romanticism in the view Beiser opens to us does not conform to the contemporary division of labor in our universities and colleges it requires a multifaceted approach of just the sort outlined in this book

Dilettantism and Its Values Richard Hibbitt, 2017-12-02 The concept of dilettantism has not always been associated with amateurism or superficiality It played a significant role in French and German critical writing from the late eighteenth century until the fin de siècle embracing notions such as apprenticeship fruitful error parody aestheticism and scepticism Attempts to define dilettantism in a binary relationship with art have often been defeated by a fundamental ambivalence towards its values The major texts on the subject are Goethe and Schiller's unfinished dilettantism project 1799 and Paul

Bourget's essay on Ernest Renan 1882 although the term was also used by writers including Wieland Baudelaire Laforgue Nietzsche Hofmannsthal and Thomas Mann In this wide ranging study Richard Hibbitt provides the first book length comparative analysis of the concept of dilettantism tracing its chronological development and proposing a synthesis of its diverse aspects and values

**Delayed Endings** Alice A. Kuzniar, 2008-04-01 In *Delayed Endings* Alice A Kuzniar demonstrates how Novalis and Holderlin exemplified the Romantics new way of narrating time and how their method of nonclosure or the deliberate avoidance of resolution and the strategies that bring it about united the narrative semantic and thematic strains of their work Novalis's Heinrich von Ofterdingen not only lacks a conclusion but even has a ruptured and disoriented beginning University of Georgia Press

**History and Memory** Harold Schweizer, 1998 These essays examine the relationship between history and suffering and ask what forms of narrative could articulate such a relationship They refer to writers from Sophocles to Celan from Wordsworth to Thomas Bernhard and from Proust to Benjamin Fondane

*Hidden in Historicism* Harry Jansen, 2020-06-10 *Hidden in Historicism* considers how the nineteenth century philosophy of historicism depicts three forgotten time regimes a time of rise and fall an ambiguous time of synchronicity of the non synchronous and a time in which decisive moments dominate Before the eighteenth century time was past oriented This

inversed in the Enlightenment when the future became dominating Today this time of progress continues to be embraced as a time of the modern Yet inequality increasing violence and climate change lead to doubts over a bright future In this book Harry Jansen moves away from the heritage of Reinhart Koselleck and his single time of the modern towards a historicist threefold temporal approach to history writing In the time regime of the twenty first century past present and future coexist It is a heterogeneous time that takes on the three forms of historicism Jansen s study shows how all three times exist together in current historiography and contribute to a better understanding of the world today Based on the idea that an incarnated time rules everything that happens it reality the book offers a fresh perspective on the ongoing discussion about time and time regimes in contemporary philosophy and theory of history for students and scholars both time specialists and the non specialist

*The Enlightenment and the Intellectual Foundations of Modern Culture* Louis K. Dupré, 2004-01-01

Studie over de Verlichting      **Double Exposures** Eric Downing, 2000 Downing s highly original thorough and rewarding book is certain to emerge as an indispensable critical reference point for scholars and students in the areas of narrative theory problems of realism and 19th century German prose A nearly ideal combination of intellectual scope erudition and originality Thomas Pfau Duke University To write an engaging and entertaining study of German or poetic realism that offers insightful and differentiated readings of the novellas of Stifter Storm Keller C F Meyer and Raabe through the lenses focused on repetition of narratology Critical Theory and psychoanalysis and to a lesser extent gender studies is without a doubt a daunting endeavor This study with its keen analysis of the doubling within German realist texts is equal to the task While this book is written to engage and challenge scholars of realism the clarity of Downing s prose makes the textual twists and turns and thus the study as a whole equally accessible to non specialists German Studies Review
