**Anatomy of Spirituality: Portrait of the Soul** Chander Behl,2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain s biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul

Spirit Possession and Trance Bettina E. Schmidt,Lucy Huskinson,2010-03-24 Spirit possession is a phenomenon that often elicits a response of fear particular in those who are ignorant of its meaning and role within its particular religious and cultural traditions Possession by divine beings such as spirits or gods is however a key practice in religions worldwide It is therefore

important to gain an understanding of this practice in its cultural context before trying to develop a wider theory about it. This fascinating book contains several case studies that present new interpretations of spirit possession worldwide. The authors show the diversity of possible interpretations and methodological approaches that provide a new insight into the understanding of possession and trance.

**Sexual Outlaw, Erotic Mystic** Vere Chappell, 2010-12-01. Sex Magick Aleister Crowley. Orgasms. Erotic Dances. Angelic Beings. Revolutionary Activism. Liberation. Persecution. Defiance and Suicide. Persecuted by Anthony Comstock and his Society for the Suppression of Vice, this turn of the century heroine was also a spiritualist who learned many secrets of high magick through her claimed wedlock to an angelic being. Born in Philadelphia in 1857, Ida Craddock became involved in occultism around the age of thirty. She attended classes at the Theosophical Society and began studying a tremendous amount of materials on various occult subjects. She taught correspondence courses to women and newly married couples to educate them on the sacred nature of sex, maintaining that her explicit knowledge came from her nightly experiences with an angel named Soph. In 1902, she was arrested under New York's anti-obscenity laws and committed suicide to avoid life in an asylum. Now, for the first time, scholar Vere Chappell has compiled the most extensive collection of Craddock's work, including original essays, diary excerpts, and suicide letters, one to her mother and one to the public.

**'Yogini' in South Asia** István Keul, 2013-07-18. In different stages in the history of South Asian religions, the term *yogin* has been used in various contexts to designate various things: a female adept of yoga, a female tantric practitioner, a sorceress, a woman dedicated to a deity, or a certain category of female deities. This book brings together recent interdisciplinary perspectives on the medieval South Asian cults of the *Yoginis*, such as textual, philological, historical, art historical, indological, anthropological, ritual, and terminological. The book discusses the medieval *yogin* cult as illustrated in early *aiva* tantric texts and their representations in South Asian temple iconography. It looks at the roles and hypostases of *yogin*s in contemporary religious traditions as well as the transformations of *yogin*-related ritual practices. In addition, this book systematizes the multiple meanings and proposes definitions of the concept and models for integrating the semantic fields of *yogin*. Highlighting the importance of research from complementary disciplines for the exploration of complex themes in South Asian studies, this book is of interest to scholars of South Asian Studies and Religious Studies.

**The Participatory Turn** Jorge N. Ferrer, Jacob H. Sherman, 2008-10-23. Can we take seriously religious experience, spirituality, and mysticism without reducing them to either cultural linguistic by-products or simply asserting their validity as a dogmatic fact? The contributors to this volume argue that we can, and they offer a new way: the participatory turn, which proposes that individuals and communities have an integral and irreducible role in bringing forth ontologically rich religious worlds. They explore the ways this approach weaves together and gives voice to a number of robust trends in contemporary religious scholarship, including the renewed study of lived spirituality, the postmodern emphasis on embodied and gendered subjectivity, the admission of alternate epistemic perspectives, the irreducibility of religious pluralism, and the pragmatist

emphasis on transformation all trends that raise serious challenges to the currently prevalent linguistic paradigm The first part of the book situates the participatory turn in the context of contemporary Religious Studies the second part shows how this approach can be applied to various global traditions ancient and contemporary from Western esotericism to Jewish mysticism Christianity Hinduism Sufism and socially engaged Buddhism [Encyclopaedia of Religion and Ethics](#) James Hastings, John Alexander Selbie, Louis Herbert Gray, 1928 **Encyclopædia of Religion and Ethics: Mundas-Phrygians** James Hastings, John Alexander Selbie, Louis Herbert Gray, 1917 Scope theology philosophy ethics of various religions and ethical systems and relevant portions of anthropology mythology folklore biology psychology economics and sociology
