Sacred Space Photographs From The Mississippi Delta:

Sacred Space Tom Rankin, 1993 Tom Rankin's black and white photographs explore the heartfelt religious expressions of African Americans in the Mississippi Delta. No single institution in this region has had a more profound cultural impact than the countless African American churches that accent the landscape. Landmarks to some, places of spiritual refuge to others, home church to devoted members, these sacred spaces have been planned, built, decorated, and maintained by local communities. They provide a sustaining force in both symbol and practice. The forty duotone plates in this book include landscapes with churches, church interiors, cemeteries, baptismal lakes, and bayous, and black congregations. This is an elegant testimony to the persistence, creativity, and communal symbolism of the church and its affiliated expressions. In the accompanying text, Rankin draws upon his interviews with preachers and church members and upon documentary recordings of church services. In the introductory essay, Charles Reagan Wilson examines the symbolic meanings of sacred space and discusses the historical and cultural importance of the African American church in the Delta.

Exposing Mississippi Annette Trefzer, 2022-03-25 WINNER OF THE 2022 EUDORA WELTY PRIZE Internationally known as a writer, Eudora Welty has as well been spotlighted as a talented photographer. The prevalent idea remains that Welty simply took snapshots before she found her true calling as a renowned fiction writer. But who was Welty as a photographer? What did she see? How and why did she photograph? And what did Welty know about modern photography? In *Exposing Mississippi*, Eudora Welty's *Photographic Reflections*, Annette Trefzer elucidates Welty's photographic vision and answers these questions by exploring her photographic archive and writings on photography. The photographs Welty took in the 1930s and 40s frame her visual response to the cultural landscapes of the segregated South during the Depression. The photobook *One Time One Place*, which was selected, curated, and shaped into a visual narrative by Welty herself, serves as a starting point and guide for the chapters on her spatial hermeneutic. The book is divided into sections by locations and offers how the framing of these areas reveals Welty's radical commentary of the spaces her camera captured. There are over eighty images in *Exposing Mississippi*, including some never before seen archival photographs, and sections of the book draw on over three hundred more. The chapters on institutional leisure and memorial landscapes address how Welty's photographs contribute to reflect on and intervene in customary visual constructions of the Depression-era South.

Delta Fragments John O. Hodges, 2013-07-30 The son of black sharecroppers, John Oliver Hodges attended segregated schools in Greenwood, Mississippi, in the 1950s and 60s, worked in plantation cotton fields, and eventually left the region to earn multiple degrees and become a tenured university professor. Both poignant and thought-provoking, *Delta Fragments* is Hodges's autobiographical journey back to the land of his birth. Brimming with vivid memories of family life, childhood friendships, the quest for knowledge, and the often brutal injustices of the Jim Crow South, it also offers an insightful meditation on the present state of race relations in America. Hodges has structured the book as a series of brief but revealing vignettes grouped into two main sections. In part 1, *Learning*

he introduces us to the town of Greenwood and to his parents sister and myriad aunts uncles cousins teachers and schoolmates He tells stories of growing up on a plantation dancing in smoky juke joints playing sandlot football and baseball journeying to the West Coast as a nineteen year old to meet the biological father he never knew while growing up and leaving family and friends to attend Morehouse College in Atlanta In part 2 Reflecting he connects his firsthand experience with broader themes the civil rights movement Delta blues black folkways gambling in Mississippi the vital role of religion in the African American community and the perplexing problems of poverty crime and an underfunded educational system that still challenge black and white citizens of the Delta Whether recalling the assassination of Medgar Evers whom he knew personally the dynamism of an African American church service or the joys of reconnecting with old friends at a biennial class reunion Hodges writes with a rare combination of humor compassion and when describing the injustices that were all too frequently inflicted on him and his contemporaries righteous anger But his ultimate goal he contends is not to close doors but to open them to inspire dialogue to start a conversation to be provocative without being insistent or definitive
