Sdi And European Security:

SDI and European Security Regina Cowen Karp, Regina Cowen, Peter M. Rajcsanyi, Vladimir Bilandžić, 1987 Sdi And European Security Regina Cowen, Peter Rajcsanyi, Vladimir Bilandzic, F Stephen Larrabee, 2019-09-16 Originally published in 1987 European concerns about strategic defense and its impact on the stability of the East West strategic balance have been the subject of frequent and lively discussion at the Institute for East West Security Studies in the more than four years since President Reagan announced his Strategic Defense Initiative SDI in March

The Dynamics of European Security Cooperation, 1945-91 Gülnur Aybet, 2016-01-12 This is the first integrated analysis of all aspects of security cooperation in western Europe from 1945 to 1991 It provides an accessible yet sophisticated survey of the wider dynamics of security cooperation in each decade throughout this period It covers all aspects of security cooperation which range from the political such as a European voice in arms control to military such as a European input into NATO strategy and economic involving collaboration in defence technology and production *A European Security Architecture after the Cold War* G. Aybet, 2000-06-05 A European Security Architecture after the Cold War provides a critical account of the re projection and redefinition of Western values and security institutions in the post Coldwar era This transformation is explored in three stages The first stage covers the period 1990 91 and explains the preservation of a western security community inherited from the Cold War through a process of institutional reconstruction largely carried out on paper The second stage from 1991 to 1992 sees the incorporation of a purpose for these institutions as a framework for the implementation of collective security The third stage explores the emerging questions of legitimacy surrounding the new tasks of these institutions as they become embroiled in the war in the former Yugoslavia The precedents of legitimate intervention in upholding democracy free markets and human rights in the post coldwar era are examined from the perspectives of international law and Gramscian derived concepts of legitimacy focusing on the acceptance of military power by civil society and how intervention in these terms becomes a cultural practice **SDI and European Security**, 1986 **The Strategic Defense Initiative and European Security** Nanette C. Brown, Rand Corporation, 1986 This report summarizes the presentations and discussions of a conference on the U S Strategic Defense Initiative and European Security held in March 1985 The conference participants were government officials and defense analysts from the Federal Republic of Germany France Great Britain and the United States The conferees overwhelmingly supported research on the Strategic Defense Initiative as a hedge against Soviet ballistic missile defense programs However support for development or deployment hinged in part on whether Soviet actions were seen as being linked to U S actions These views along with the assumption that the Soviet Union would field defenses if the United States did reflected differences in concern about the implications of strategic defenses for 1 deterrence in general 2 NATO strategy and deterrence in Europe 3 arms control and 4 European technological interests The SDI and European Security Interests Strategic Defense Initiative and European Security Interests Atlantic Institute for International

Affairs,1987 *European Security and Transatlantic Relations after 9/11 and the Iraq War* H. Gärtner,I. Cuthbertson,2005-06-14 At a time of unprecedented turmoil in the transatlantic relationship as America asserts its right to act unilaterally to defend itself against terrorism and Europeans are increasingly aggressive in promoting a multilateralist approach to security issues this book examines the post 9 11 and Iraqi war security environment especially the impact on NATO and transatlantic relations as the European Union seeks to build a unified foreign and defence policy that will enable Europeans to play a fuller role in the international system Energy Abstracts for Policy Analysis ,1988 **European Security in the 1990s** W. Laqueur,L. Sloss,2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism **A Chronology of European Security and Defence 1945-2007** Julian Lindley-French,2007-11-08 A unique and essential source of reference for all those with an interest in European defence and security over the last 60 years An extensively annotated chronology the book carefully places every key event in context explaining what happened where when and why **The SDI and European Security Interests** Louis Deschamps,1987 The United States, Russia, and European Security Amphas-Mampoua,2004 European Security Bjørn Møller,2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter

eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it *European Security Governance* Charlotte Wagnsson, James Sperling, Jan Hallenberg, 2009-05-11 This book focuses on the problems of and prospects for strengthening the global system of security governance in a manner consistent with the aspirations and practices of the EU The EU approach to security governance has been successful in its immediate neighbourhood it has successfully exported its preferred norms and principles to applicant countries thereby pacifying its immediate neighbourhood and making all of Europe more secure The EU governance orientation ultimately seeks to enlarge the European security community and expand the geopolitical area within which armed conflicts are inconceivable and where state and private actors converge around a set of norms and rules of behaviour and engagement The EU's success along its immediate boundaries has not yet been replicated on a global scale it remains an open question whether the EU system of governance can be exported globally owing to different normative structures for example a tolerance of armed conflict or non democratic governance internally great power competition such as US China or ongoing processes of securitization that has made it difficult to find a commonly accepted definition of security Moreover the EU system of security governance clashes with the continuing unwillingness of other major powers to cede or pool sovereignty as well as varying preferences for unilateral as opposed to multilateral forms of statecraft This edited volume addresses both the practical and political aspects of security governance and the barriers to the globalization of the EU system of security governance particularly in the multipolar post Cold War era This book will be of great interest to students of security governance EU politics European Security and IR in general James Sperling is Professor of Political Science at the University of Akron Ohio USA Jan Hallenberg is Professor of Political Science at the Department of Security and Strategic Studies Swedish National Defence College Charlotte Wagnsson is Assistant Professor in the Department of Strategic and Security Studies at the Swedish National Defence College **European Security** Michael Charles Pugh, 1992 This work covers the period from the end of the Cold War to the end of the century and specifically addresses the roles of the United States and the Soviet Union European Community security police Germany's role as bridge or frontier between East and West and transnational

processes Policymaking under Adversity Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror's Public Policymaking Reexamined by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners **The Great Transition** Raymond L.

Garthoff, 2000-07-26 Raymond L Garthoff examines the fateful final decade of U S Soviet relations from the start of the Reagan administration in 1981 through the end of the Soviet era the collapse of the communist bloc the end of Gorbachev's failed perestroika and the demise of the Soviet Union itself at the end of 1991 While standing on its own the book is a sequel to the author's earlier acclaimed D D Tente and Confrontation American Soviet Relations from Nixon to Reagan which covers the period 1969-1980 This volume features a detailed examination of the perspectives and actions of both the United States and the Soviet Union and their interaction including the interrelationships of domestic factors with foreign and security policies in both countries and the involvement of both powers with other countries around the world which infringed on their direct relationship Besides analyzing the turn from confrontation to détente over the years of the Reagan and Bush administrations and Brezhnev through the Gorbachev administration it reflects on the significance of the great transition from the cold war to a new era It thus illuminates the very relevant recent history that underlines and informs American Russian relations and the new situation of a post Soviet post cold war world Garthoff has obtained access to many formerly secret Soviet documents on this period in the Russian archives as well as to a number of official American documents that have only recently been declassified In addition he has been able to interview and discuss the issues with many active or former Soviet and American officials The author concludes that the key development was the advent of a Soviet leader Mikhail Gorbachev who recognized the need to cast off a failed world view and to end the cold war and who successfully moved with the United States under the Reagan and Bush administrations and others to achieve that goal notwithstanding his failure in the parallel attempt to revitalize and transform the Soviet Union Selected by Choice as an Outstanding Book of 1994 **The European Community and the Security Dilemma, 1979-92** Holly Wyatt-Walter, 2016-07-27 This book

shows how the relationship between security and integration in Western Europe depends upon an enduring implicit bargain between the US and its European allies Despite internal and external pressures to develop a European security and defence identity distinct from NATO in the 1980s and 1990s EC member states have consistently rejected supranational integration in the areas of security and defence Despite considerable European dissatisfaction with American leadership of NATO Europe has continued to accept that leadership even after the end of the Cold War and the signing of the Maastricht Treaty
