The Law of the Sea and Northeast Asia Park Hee Kwon, 2021-10-25 The Law of the Sea is a vast and multi faceted area of international law The 1982 United Nations Convention on the Law of the Sea and the Agreement relating to the implementation of Part XI of the Convention constitute essential instruments of the law of the sea governing a new maritime order for the international community With its entry into force on November 16 1994 the 1982 United Nations Convention on the Law of the Sea has virtually become the Magna Carta of the Oceans or the Constitution for the Oceans Testifying to its success is the number of Parties adhering to it now totaling 132 States including one international organization the European Community The world is entering the era of a New Maritime Order based on near universal adherence to the United Nations Convention on the Law of the Sea In the wake of the Convention s entry into force and its ratification by many States in Northeast Asia a new maritime order is emerging in the region The littoral States have enacted and promulgated new national legislation to incorporate the provisions of the UN Convention into their domestic legal order The three littoral States China Japan and South Korea concluded or initialed bilateral fisheries agreements based on the new concept of extended jurisdiction set forth by the UN Convention The UN Convention will however present even more challenges than opportunities for the littoral States of Northeast Asia in their quest for a new maritime order The maritime security situation in the region has been and will continue to be extremely volatile due to conflicting claims disputed boundaries unregulated pollution of the marine environment and widespread illegal activities at sea The author has set the both pragmatic and ambitious aim of outlining the emerging maritime order in Northeast Asia As a practitioner of the law of the sea who has participated in bilateral and multilateral negotiations on maritime affairs the author sheds light on the new maritime order in the making at the international and regional levels The author also delineates the main issues and disputes hindering the establishment of a new maritime order in the region and present policy options that could contribute to erecting a solid maritime order in the region by peaceful and cooperative means Finally the author presents a compilation of relevant legal texts most of which were produced after the entry into force of the UN Convention in the hope that this collection will prove useful for desk officers in charge of ocean affairs in promoting peaceful and constructive solutions for maritime issues in Northeast Asia This work serves as a realistic analysis of the current law and State practice as well as of the progressive development of the law of the sea and its codification in the wake of the entry into force of the 1982 UN Convention

Butcher, R.E. Elson, 2017-03-24 Until the mid 1950s nearly all the waters lying between the far flung islands of the Indonesian archipelago were as open to the ships of all nations as the waters of the great oceans In order to enhance its failing sovereign grasp over the nation as well as to deter perceived external threats to Indonesia's national integrity in 1957 the Indonesian government declared that it had absolute sovereignty over all the waters lying within straight baselines drawn between the outermost islands of Indonesia At a single step Indonesia had

asserted its dominion over a vast swathe of what had hitherto been seas open to all and made its lands and the seas it now claimed a single unified entity for the first time International outrage and alarm ensued expressed especially by the great maritime nations Nevertheless despite its low international profile its relative poverty and its often frail state capacity Indonesia eventually succeeded in gaining international recognition for its claim when in 1982 the United Nations Convention on the Law of the Sea formally recognized the existence of a new category of states known as archipelagic states and declared that these states had sovereignty over their archipelagic waters Sovereignty and the Sea explains how Indonesia succeeded in its extraordinary claim At the heart of Indonesia's archipelagic campaign was a small group of Indonesian diplomats Largely because of their dogged persistence negotiating skills and willingness to make difficult compromises Indonesia became the greatest archipelagic state in the world
