**Catalog of Copyright Entries** Library of Congress. Copyright Office, 1978      **Syndicated Television** Hal Erickson, 2024-10-09 Here is an excellent reference book on first run syndication the distribution of programs either made exclusively for non network play or of programs intended for network telecasts but ultimately making their debuts in syndication Bringing together information not easily found this work covers the classics such as Sea Hunt Highway Patrol The Merv Griffin Show and the Muppet Show as well as such once popular but now obscure productions as China Smith Ripcord and The Littlest Hobo Coverage goes back to 1947 and the book includes a number of series ignored in other works The first section is an overview of the concept of syndication from its earliest application in the newspaper world to the attempt by Fox Television to become a fourth network The next four sections each cover ten years of syndication listing the shows with full background who produced them and why who liked them and why etc alphabetically by title under the following genres Adventure Mystery Children s Comedy Drama Game Quiz Informational Music Variety Religious Sports Talk Interview Travel Documentary Westerns and Women s      *Underwater Worlds* Will Abberley, 2019-01-15 *Underwater Worlds* throws open a new area in the emerging field of blue environmental humanities by exploring how subaqueous environments have been imagined and represented across cultures and media The collection pursues this theme through various disciplinary perspectives and methodologies including history literary and film criticism myth studies legal studies and the history of art The essays suggest that since the nineteenth century technologies of underwater exploration have generated novel sensory experiences that have destabilized conventional modes of representation and influenced new aesthetic forms from fiction and television to virtual reality The collection also examines how representations of underwater environments have reflected and critiqued humans relationships with marine ecology and life forms It reflects on the deeper cultural and symbolic resonances of mythical figures such as mermaids sea monsters and the ghosts of drowned seafarers The contributions further reveal myriad political ideological gendered and racial dimensions of representing underwater environments      *Merchant Vessels of the United States*, 1989      *The Protection of the Underwater Cultural Heritage* Jason Lowther, Joanne Sellick, Mike Williams, 2025-05-19 This third edition provides insights and reflections on developments in UCH law since the last publication in an expanded number of jurisdictions to provide a truly global picture It represents an essential contemporary set of critical analyses on the evolution of the laws adopted by countries seeking to apply appropriate responses to conservation of UCH assets With coverage of issues relating to sovereignty shared heritage and responsible archaeology the contributors all experts in this fascinating area of enduring legal interest offer cogent and contemporary insights and examples of best practice to secure meaningful legal apparatus to protect and conserve UCH      **Naval Aviation News**, 1982      **Art, Cultural Heritage and the Market** Valentina Vadi, Hildegard E. G. S. Schneider, 2014-01-27 In the age of economic globalisation do art and heritage matter Once the domain of elitist practitioners and scholars the

governance of cultural heritage and the destiny of iconic artefacts have emerged as the new frontier of international law making headlines and attracting the varied interests of academics and policy makers museum curators and collectors human rights activists and investment lawyers and artists and economists just to mention a few The return of cultural artefacts to their legitimate owners the recovery of underwater cultural heritage and the protection and promotion of artistic expressions are just some of the pressing issues addressed by this book Contemporary intersections between art cultural heritage and the market are complicated by a variety of ethical and legal issues which often describe complex global relations Should works of art be treated differently from other goods What happens if a work of art currently exhibited in a museum turns out to have originally been looted What is the relevant legal framework What should be done with ancient shipwrecks filled with objects from former colonies Should such objects be kept by the finders Should they be returned to the country of origin This book addresses these different questions while highlighting the complex interplay between legal and ethical issues in the context of cultural governance The approach is mainly legal but interdisciplinary aspects are considered as well

*The Underwater Eye* Margaret Cohen, 2022-04-12 In *The Underwater Eye* Margaret Cohen tells the fascinating story of how the development of modern diving equipment and movie camera technology has allowed documentary and narrative filmmakers to take human vision into the depths creating new imagery of the seas and the underwater realm and expanding the scope of popular imagination Innovating on the most challenging film set on earth filmmakers have tapped the emotional power of the underwater environment to forge new visions of horror tragedy adventure beauty and surrealism entertaining the public and shaping its perception of ocean reality Examining works by filmmakers ranging from J E Williamson inventor of the first undersea film technology in 1914 to Wes Anderson who filmed the underwater scenes of his 2004 *The Life Aquatic with Steve Zissou* entirely in a pool *The Underwater Eye* traces how the radically alien qualities of underwater optics have shaped liquid fantasies for more than a century Richly illustrated the book explores documentaries by Jacques Cousteau Louis Malle and Hans Hass art films by Man Ray and Jean Vigo and popular movies and television shows such as *20 000 Leagues Under the Sea* *Creature from the Black Lagoon* *Sea Hunt* the Bond films *Jaws* *The Abyss* and *Titanic* In exploring the cultural impact of underwater filmmaking the book also asks compelling questions about the role film plays in engaging the public with the remote ocean a frontline of climate change

physical anthropology ethnography archaeology and linguistics on the peoples he describes and has thus provided a definitive work on a nearly forgotten segment of mankind inhabiting an extensive territory Volume III in the series Anthropology of the North Translations from Russian Sources sponsored by the Arctic Institute of North America and under the general editorship of H N Michael Temple University *Merchant Vessels of the United States...* United States. **Motion Picture Paradise** David Morton,2025-09-16 Highlighting Florida s essential often overlooked role in shaping American film and television Motion Picture Paradise is a sweeping story of filmmaking in Florida featuring the activities of studios and filmmakers across the peninsula by looking at the many iconic films and television shows shot in the state In the early years of the American film industry Florida was a favorite location for pioneer movie makers and David Morton chronicles the state s importance to producers throughout the next 125 years Often overshadowed by the well known entertainment industries of Hollywood and New York Florida has over time had several major film production centers Morton follows the rise and fall of filmmaking destinations across the state including Jacksonville St Augustine Tampa Bay Orlando and Miami as well as pioneering underwater and location based films shot at Florida s unique natural springs He argues that conflicting policies set by Florida politicians have at various times enticed or pushed away movie and television companies a pattern that has hampered serious investment Using a wealth of source materials Morton offers a comprehensive history that demonstrates how films and television shows made in Florida have influenced the state s sense of identity drawing attention to Florida s underacknowledged role as the third coast in American film history Motion Picture Paradise adds new insights into the state s dramatic social and economic transformations during the twentieth century

**The Protection of the Underwater Cultural Heritage** Sarah Dromgoole, 2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated
