Sea Turtles Of Hawaii:

Sea Turtles of Hawai`i Patrick Ching, 2001-09-30 Enter the world of the honu Hawai i s beloved green sea turtle Revered by Hawaiians since ancient times and playing an important role in their culture these turtles were reduced to dangerously low numbers by commercial fishing before gaining protection as a threatened species under federal law Born and raised in Hawai i author Patrick Ching has long admired these turtles that fly through the sea As a ranger for the U S Fish and Wildlife Service Ching studied the honu closely living within the turtles nesting grounds on the remote Northwestern Hawaiian Islands This book written for readers of all ages includes fascinating information on the natural history of the sea turtle species that occur in Hawaiian waters It is generously illustrated with excellent photographs and Ching s own illustrations The author s primary focus is on life history breeding biology and conservation of the honu Hawai i s most prominent sea turtle

The Book of Honu Peter Bennett, Ursula Keuper-Bennett, 2008-08-31 Drawing on twenty years experience observing green turtles the authors describe turtle behaviour and explain how to find them from shore and while snorkelling kayaking and diving Over the years they have closely followed individual animals and recorded their movements and behaviour

History of Sea Turtles at Polihua Beach, Northern Lanai George H. Balazs, 1984 The only site in the main Hawaiian Islands with a well documented history of nesting sea turtles is Polihua a mile long white sand beach on the northern shore of Lanai The traditional Hawaiian place name is descriptive of eggs on a beach Poli hua literally eggs in bosom Pukui et al 1976 The available information suggests that Polihua was an important breeding site for the Hawaiian green turtle *Chelonia mydas* until the late 1800 s or early 1900 s At present very little nesting has been reported there or anywhere else in the main Hawaiian Islands Most of the extant nesting by green turtles in Hawaii takes place at French Frigate Shoals 300 miles to the northwest of Kauai Fig 1 Green turtles seasonally migrate to this small isolated site from resident coastal foraging pastures throughout the Hawaiian Archipelago Elalazs 1980 Before 1786 French Frigate Shoals appears to have been unknown and therefore unexploited by the people of Hawaii The area is currently protected as a National Wildlife Refuge The hawksbill *Eretmochelys imbricata* is a second species of sea turtle that nests in the Hawaiian Islands but solely in the main islands in small numbers on a few volcanic black sand beaches Introduction
