a span of almost sixty years of travel in the rugged parched yet hauntingly attractive peninsula The author kept detailed notes on most of his trips then fleshed out this skeleton in a narrative which places the reader in the role of participant in the adventure Thus one feels the bite of the 4WD tires into the desert sand newly hard packed by the moisture of a quick moving thunderstorm The author describes the excitement of finding Indian petroglyphs arrowheads or clay ollas in remote canyons Because Mr Tiscare o is also a pilot many of the trips included here involve mention of the special immigration rules for private fly in tourists Finally there are Baja Adventures in the pine clad granite fortress that is the Sierra de San Pedro Martir in the northern part of the peninsula Here the author joined other veteran Bajeros in hoof and boot or horse assisted explorations In short this book should be inspiration to those readers who want to visit Baja California particularly the less tourist trod destinations Arm chair travelers will derive vicarious pleasure without the effort of going there themselves

Reclaiming John Steinbeck Gavin Jones, 2021-06-10 John Steinbeck is a towering figure in twentieth century American literature yet he remains one of our least understood writers This major reevaluation of Steinbeck by Gavin Jones uncovers a timely thinker who confronted the fate of humanity as a species facing climate change environmental crisis and a growing divide between the powerful and the marginalized Driven by insatiable curiosity Steinbeck's work crossed a variety of borders between the United States and the Global South between human and nonhuman lifeforms between science and the arts and between literature and film to explore the transformations in consciousness necessary for our survival on a precarious planet Always seeking new forms to express his ecological and social vision of human interconnectedness and vulnerability Steinbeck is a writer of urgent concern for the twenty first century even as he was haunted by the legacies of racism and injustice in the American West

Radial Symmetry Katherine Larson, 2011-04-26 Katherine Larson is the winner of the 2010 Yale Series of Younger Poets

Competition With Radial Symmetry she has created a transcendent body of poems that flourish in the liminal spaces that separate scientific inquiry from empathic knowledge astute observation from sublime witness Larson s inventive lyrics lead the reader through vertiginous landscapes geographical phenomenological psychological while always remaining attendant to the speaker s own fragile creaturely self An experienced research scientist and field ecologist Larson dazzles with these sensuous and sophisticated poems grappling with the powers of poetic imagination as well as the frightful realization of the human capacity for ecological destruction The result is a profoundly moving collection eloquent in its lament and celebration
