**A Raid on the Red Sea** Amos Gilboa, 2021-03 A Raid on the Red Sea is the thrilling real life tale of illegal gun running in the Middle East In this firsthand account Amos Gilboa gives the harrowing details of the secret close working relations between Israeli and American intelligence in the seizure of the Karine A ship the most successful Israeli intelligence operation since the legendary Entebbe hostage rescue At 0400 hours January 3 2002 two fast boats of Israel s naval commando unit closed in on the stern of the Palestinian Authority s Karine A The Iranian Islamic Revolutionary Guard Corps had clandestinely loaded its cargo fifty six tons of high grade long range weapons destined for the Gaza Strip The Israelis plan to seize it went awry when they found nothing but a confused group of Egyptians Jordanians and Palestinians Had they boarded the wrong ship Was there going to be an international incident disgracing Israel This drama has more than its share of plot twists The story s hero a low level female intelligence analyst was the first to grasp the grave danger posed by the Karine A Analyzing piles of disinformation she kept on the scent of the ship tracking it from Egypt to Sudan to Dubai Only through the joint efforts of Israeli and U S naval intelligence Mossad and the CIA was the ship stopped and calamity averted Seizing the ship led to a fateful reorientation of U S policy regarding the Middle East with consequences to this day from the Israeli Palestinian conflict to the 2020 assassination of Islamic Revolutionary Guard Corps Quds Force chief Qasem Soleimani

away from the east Though the advice Churchill received from his staff was that an invasion of France would not be possible for at least another year the British Prime Minister knew he had to do something to help the Russians The result was a large scale raid upon the port of Dieppe chosen as it was thought that the success of any invasion would depend on the capture of a major port to enable heavy weapons vehicles and reinforcements to be landed in support of the landing forces It would not be the second front that Stalin wanted but at least it would demonstrate Britain s intent to support the Soviets Plus it provided a rehearsal for the eventual invasion The raid upon Dieppe Operation Jubilee was eventually scheduled for 19 August 1942 The assault was the most ambitious Allied attack against the German Channel defenses of the war so far involving some 6 000 infantry 237 naval vessels and seventy four squadrons of aircraft Though the debate surrounding Jubilee s purpose and cost has raged in the years since the war many vital and important lessons were learned All these factors are covered in this official battle summary a detailed and descriptive account of the Dieppe Raid which was written shortly after the war and is based on the recollections of those who were involved

*Becoming a No-Fail Mission: The Origins of Search and Rescue in Canada* James Pierotti, 2018-09-27 The Royal Canadian Air Force s RCAF s involvement with the search and rescue SAR mandate in Canada dates to 1947 The RCAF s Air Sea Rescue predecessor capability from the Second World War dates back to 1942 How and why did the RCAF become involved with both of those capabilities and is there historical rationale for the continued involvement of the RCAF in the domestic SAR service today Amplified with operational examples of the rescue system in action this previously untold history aims to describe the origins of SAR history in Canada and to further the debate on the continued use of military resources for domestic responsibilities

*The RAF Air-Sea Rescue Service in the Second World War* Norman Franks, 2016-11-30 When the Second World War began in 1939 it was thought that it would be fought along the same lines as the First World War with the Allied air forces operating from both Britain and France With the fall of Britains Northern European Allies in May 1940 all that changed From then onwards RAF aircraft operating over enemy and enemy held territory necessitated flights across both the North Sea and the English Channel This meant that aircrew in difficulties would be forced to come down in both of these bodies of water Therefore it was essential that some form of rescue service be made available to fish these airman from the water But there were no aircraft in existence at that time that were designed for such a task initially all that could be done was to use land planes to help locate anyone in the water drop a dinghy to them and then guide a boat to their position Obviously a quicker and more reliable means of rescue was needed and this came in the shape of the Supermarine Walrus an amphibian airplane that could land on both sea and land Several flights of these airplanes were set up around the coast of Britain concentrated mainly around the south and southeast of England The Air Sea Rescue airmen did a magnificent job from 1941 45 rescuing hundreds of downed RAF and USAAF aircrew It took a special type of airman to undertake these rescues and another kind of courage As the war in North Africa developed Walrus aircraft were needed in the Mediterranean and later on either side of the Italian coast Walrus squadrons

operated just as successfully in this theater as around Britain Aircrew operating over any stretch of water could always count on the ASR boys coming to their aid This is their story      **Naval Operations** Sir Julian Stafford Corbett,1920      **Naval Operations ...** Julian Stafford Corbett,1920      **Naval Operations: From the Battle of the Falklands to the entry of Italy into the war in May 1915** Julian Stafford Corbett,1920      [AF Press Clips](#) ,1980      **AF Press Clips** United States Department of State.
