People tend to deal with the challenges of being human in characteristic repetitive ways. Descriptions of these patterns in diagnostic terms can be at best dry and at worst confusing, especially for those starting training in any of the clinical disciplines. To try to appeal to a wider audience, this book illustrates each coping pattern using vivid, compelling fiction whose characters express their dilemmas in easily accessible, evocative language. Sandra Buechler uses these examples to show some of the ways we complicate our lives and, through reimagining different scenarios for these characters, she illustrates how clients can achieve greater emotional health and live their lives more productively. Drawing on the work of Dostoevsky, Tolstoy, Munro, Mann, James, O'Connor, Chopin, McCullers, Carver, and the many other authors represented here, Buechler shows how their keen observational short fiction portrays self-hurtful styles of living. She explores how human beings cope using schizoid, paranoid, grandiose, hysteric, obsessive, and other defensive styles. Each is costly in many senses and each limits the possibility for happiness and fulfillment. Understanding and Treating Patients in Clinical Psychoanalysis offers insights into what living with and working with problematic behaviors really means through a series of examples of the major personality disorders as portrayed in literature. Through these fictitious examples, clinicians and trainees and undergraduate and graduate students can gain a greater understanding of how someone becomes paranoid, schizoid, narcissistic, obsessive, or depressive and how that affects them and those around them, including the mental health professionals who work with them. **A Study Guide for Yasunari Kawabata's "Snow Country"** Gale, Cengage Learning, 2016-07-12 A Study Guide for Yasunari Kawabata's *Snow Country* excerpted from Gale's acclaimed *Novels for Students*. Service Learning and Literary Studies in English Laurie Grobman, Roberta Rosenberg, 2015-02-01 Service learning can help students develop a sense of civic responsibility and commitment often while addressing pressing community needs. One goal of literary studies is to understand the ethical dimensions of the world, and thus service learning by broadening the environments students consider is well suited to the literature classroom. Whether through a public literacy project that demonstrates the relevance of literary study or community-based research that brings literary theory to life, student collaboration with community partners brings social awareness to the study of literary texts and helps students

and teachers engage literature in new ways In their introduction the volume editors trace the history of service learning in the United States including the debate about literature s role and outline the best practices of the pedagogy The essays that follow cover American English and world literature creative nonfiction and memoir literature based writing and cross disciplinary studies Contributors describe a wide variety of service learning projects including a course on the Harlem Renaissance in which students lead a community writing workshop an English capstone seminar in which seniors design programs for public libraries and a creative nonfiction course in which first year students work with elderly community members to craft life narratives The volume closes with a list of resources for practitioners and researchers in the field
