Spies and Holy Wars Reeva Spector Simon, 2010-11-15 Illuminating a powerful intersection between popular culture and global politics Spies and Holy Wars draws on a sampling of more than eight hundred British and

American thrillers that are propelled by the theme of jihad an Islamic holy war or crusade against the West Published over the past century the books in this expansive study encompass spy novels and crime fiction illustrating new connections between these genres and Western imperialism Demonstrating the social implications of the popularity of such books Reeva Spector Simon covers how the Middle Eastern villain evolved from being the malleable victim before World War II to the international techno savvy figure in today s crime novels She explores the impact of James Bond pulp fiction and comic books and also analyzes the ways in which world events shaped the genre particularly in recent years Worldwide terrorism and economic domination prevail as the most common sources of narrative tension in these works while military tech novels restored the prestige of the American hero in the wake of post Vietnam skepticism Moving beyond stereotypes Simon examines the relationships between publishing trends political trends and popular culture at large giving voice to the previously unexamined truths that emerge from these provocative page turners **SEALs** Mir Bahmanyar,Chris Osman,2011-09-20 Since their creation in 1983 the US Navy SEALs have been involved in unconventional warfare around the globe undertaking crucial and clandestine missions These have included traditional underwater missions such as in Panama in 1989 the taking down of ships and also gas and oil platforms and more recently sniping and other missions in land locked countries like Afghanistan They have adapted their training their tactics and their weapons to enable them to remain the best in whatever task they are set This book covers the organization of the SEALs their famously demanding recruitment their equipment and their missions The authors have interviewed many past and serving SEALs who tell their stories in their own words **Our Inheritance in the Great Seal of "Manasseh," the United States of America** Charles Adiel Lewis Totten,1897 **Gas Thermohydrodynamic Lubrication and Seals** Bai Shaoxian,Wen Shizhu,2019-07-10 Gas Thermohydrodynamic Lubrication and Seals provides contemporary theory and methods for thermo hydrodynamic lubrication analysis in the design of gas bearings and seals The title includes information on gas state equations and gas property derivation of gas thermohydrodynamic lubrication equations the theory of isothermal gas lubrication thermal gas lubrication of rigid surfaces gas thermoelastic hydrodynamic lubrication of face seals vapor condensed gas lubrication of face seals experimental methods and the design of gas face seals Readers will find state of the art practical knowledge based on fifty years of research and application Describes thermohydrodynamic lubrication analysis for the design of gas bearings and seals Considers the increased operational speed pressure and temperature of mechanical equipment in relation to gas bearings and seals Describes multi field coupled gas lubrication theory and analytical methods Provides a model and detailed data on the lubricating properties of typical gas bearings and seals Gives comprehensive coverage of the field based on a half century of research and application *Marines* ,1990 *Cumulated Index to the Books* ,1999 *The Shock and Vibration Digest* ,1986 *Airman* ,1959 *Searching for a Demon* Steven M. Chermak,2002 This provocative volume thoroughly examines the ways in which the media demonized militia groups following the devastating bombing of the Alfred F Murrah

building in Oklahoma City Using quantitative and qualitative research methods Steven M Chermak offers a fresh perspective on how news coverage and popular entertainment transformed a largely overlooked movement into a symbol for this new threat of domestic terrorism and ignited a national panic over the militia menace Searching for a Demon describes the representation of the militia movement in the news media editorial cartoons films and television Chermak delves into such topics as the type and amount of coverage after the blast how social problems are constructed in the news the motivations and biases of authoritative or celebrity figures used as news sources and why images of militias were framed in specific ways Chermak balances his account with an in depth look at the philosophies activities and strategies of militia groups Drawing on extensive interviews he conducted at gun shows and preparedness exhibitions the author compares and contrasts media depictions of militia life and ideology with the firsthand accounts of members and leaders themselves and he assesses how media coverage affected changes in the movement In conclusion Chermak discusses the parallels between media treatment of militias in the wake of the Oklahoma City bombing and the coverage of the al Qaeda terrorist network after the September 11 2001 attacks Solidly grounded in social constructionist theory Searching for a Demon fills a significant gap in the literature on terrorism as well as on the roles of the news media and popular culture in reshaping the public consciousness after dramatic crimes
