## Searching For Higher Ground:

**Searching for Higher Ground** Steve Josse, 1998      **Searching for Higher Ground** George Glean, 2022-04-29 Is the Grass Greener on the Other Side Growing up Sinclair didn't understand why so many islanders wanted to escape to England or any other place besides Grenada. He soon learned that no one wanted to remain on the island because work was scarce and wages were low. Not only did West Indians run away to England but to wherever they could find work. Even Sinclair's parents traveled to London with his brother and two sisters leaving him to be raised by an adopted aunt and uncle. It was a challenge for Sinclair. Would he ever understand why he was left behind? Would he survive the trauma? Would he ever see his family again? It's this kind of dilemma many West Indians faced in searching for higher ground.      Fundamentals of Search and Rescue Donald C. Cooper, 2005 This book provides an overview of all aspects of search and rescue procedures and equipment. It teaches the absolutely essential techniques employed by nearly all search and rescue personnel. This book offers an in-depth and practical approach to search and rescue and is recommended for all emergency responders. For both paid and unpaid professionals, this resource combines dynamic features with the latest comprehensive content.      The Search for Tactical Success in Vietnam Andrew Ross, Robert Hall, Amy Griffin, 2015-09-25 From 1966 to 1971 the First Australian Task Force was part of the counterinsurgency campaign in South Vietnam. Though considered a small component of the Free World effort in the war, these troops from Australia and New Zealand were in fact the best trained and prepared for counterinsurgency warfare. However, until now their achievements have been largely overlooked by military historians. The Search for Tactical Success in Vietnam sheds new light on this campaign by examining the thousands of small scale battles that the First Australian Task Force was engaged in. The book draws on statistical, spatial and temporal analysis as well as primary data to present a unique study of the tactics and achievements of the First Australian Task Force in Phuoc Tuy Province, South Vietnam. Further, original maps throughout the text help to illustrate how the Task Force's tactics were employed.      **K-9 Search and Rescue Books 10-12** Lisa Phillips, Sarah Varland, Christy Barritt, 2024-02-20 Love Inspired Suspense brings you three full length stories in one collection. *Education in Search of the Spirit* MR John Gardner,1996-05 Real education will always seek to strengthen what is best in the human soul its longing for the experience of spiritual truth that brings into the self an objective appreciation of the noble aspects of its own nature together with a subjective sense of real affinity with the rest of humanity the earth planet as a whole and the great cosmos above and beyond The premise of this book is that a human being is a being of body soul and spirit whose core is eternal spirit from which center one should strive to live From this perspective the aim of true education is to help our children activate this deepest center in themselves For this living intuitive thinking must be brought to life in a new way The organ for such thinking is the heart where will and feeling join in uniting self and world morality and truth love and action This book is in three parts The first poses the problem the second describes the Waldorf approach as a solution and the third deals with questions of special interest to parents and educators alike such as authority discipline and freedom the nature of genius and the question of cultural pluralism The first edition of this book was titled *The Experience of Knowledge* in response to a clear call for experience in education Certainly if the sole purpose of education is to acquire information learning becomes dry abstract and deadening To have meaningful consequence in a person s life coming to know must become an experience Too often however such experience is understood simply as doing field trips class projects and so on But doing if unconnected to the whole person is just activity To become true experience it must speak out of and toward a student s secret center the spirit Hence the author affirms that authentic education is always in search of the spirit

**In Search of the Unknown in Medieval Architecture** John James, 2007-12-31

John James is an Australian architect and medieval historian Since 1969 he has been searching for the origins of the Gothic style beginning with a five year study of Chartres cathedral At that time there were no coherent techniques for analysing the detailed construction history of existing stone structures This he created He expanded his research to include all the early Gothic churches in the Paris region with a three year survey of over 3500 buildings His most important discovery has been that all churches of this period were constructed in many short campaigns by mobile building teams and that major innovation was more likely to occur in the smaller buildings than in the larger This volume makes available 42 of the author's studies on the development of Gothic architecture in France

**Finding Fulford - the Search for the First Battle Of 1066**

Charles Jones, 2011 The battle of Fulford was fought just south of York on 20th September 1066 between the Northern Earls and King Harald Hardrada leading a Norse army Harald Hardrada had the treacherous Earl Tostig the brother of King Harold II king of England as his ally Tostig might have devised the strategy that detained his brother defending the south coast from the expected invasion from Normandy But King Harold was already on his way north when the battle took place Finding Fulford sets out a confident hypothesis for the location based on the body of evidence and research undertaken to find the first of the three battles of that autumn The report finds that the literature identifies a location south of York and the geology uniquely points to Germany Beck as the only militarily significant ditch mentioned in several sources as the place of the battle Modelling the way the landscape has changed since 1066 allows the descriptions provided for the battle to be tested The reconstructed surface provides positive feedback for the literature and helps to make more sense of what was written in Norse sources about the course of the battle The emergence of substantial quantities of ferrous material just south of the Beck reinforces the claim of Germany Beck as the place of the battle These notable concentrations of ferrous finds including tools axes and other shaped billets were co located with hearth bottoms slag charcoal and tuy res fragments The shape of the billets suggests a military rather than a civil use The interpretation provided is of post battle reprocessing There was not one

centrally organised workshop since the number and spread of hearths suggests a gold rush perhaps with each warband processing material. These sites were found to corresponded closely to the assumed area of the fighting and no similar sites were found in the surrounding areas which was also surveyed. It is also suggested that the work was disrupted by the defeat of the Viking invaders at Stamford Bridge five days after their victory at Fulford. This is an important assumption as it helps explain why so much material was abandoned at Fulford in a pattern that has not yet been found elsewhere. The interrupted reprocessing hypothesis also explains why other sites of similar antiquity have failed to yield a single weapon fragment. If the recycling work had been completed only hearth debris would have been found so the Fulford site might be unique. Almost as important as the evidence that has emerged was that no contra indicators were found to cast doubt on the proposed site nor were any consistent pointers to another location identified even though much work was devoted to searching for alternate sites before Germany Beck was identified as the locus. The investigation of the Fulford battlefield was done under some unnecessarily restrictive conditions and a chapter is devoted to work that needs to be undertaken. The evidence suggests that the site still has much to reveal. Alongside the archaeological investigations the report relates the events of the three battles of 1066 and also provides a detailed narrative of the battle based on all that has been revealed by the work. The whole style of the work is designed to make it accessible to any interested reader. Searching for Higher Ground Mary C. Fineran
