Saurer, 2005-11-22 Human beings have inhabited the world for millions of years and the oldest religious art found in caves and on bones dates as far back as 30 000 years From earliest times and still today people share their ideas and form a group with others who have drawn similar conclusions about the meaning of life and the ultimate reality They might call their group a religion others might call it a cult But the name they give to their concept of God does not mean that they worship a different god only that they hold a different concept of the Source and Power of that which was is and always will be Every religion serves as a way of life an opportunity to practice ones accepted beliefs and a way to socialize with those who hold similar views Religions can be dictated but beliefs cannot They are private and unique to the individual It is ones own experience with that which he or she perceives as God that prompts the acceptance of a belief system quiet endurance when there seems to be no choice or the withdrawal from religion altogether Public and personal wars have been fought in the name of righteous indignation in support of different belief systems that came from efforts to answer the questions of life Many individuals have lived lives of frustration and confusion as a result of the commonly accepted belief system of the culture into which they were born In this study we look briefly at the historical and geographical conditions related to the emergence of specific religious views and the situation of the people whose lives are influenced by them Our intent is not to determine which religion is right or wrong Using a comparison point chart we examine the basic premises of each belief system and how the holding of a premise impacts the lives of those who live it as if it were true **The Holy Spirit and Christian Mission** Roji T. George, 2019-09-10 This is a collection of articles from various church backgrounds and theological viewpoints It reaffirms the necessity and urgency of a pneumatic missiology It does not speak of God s saving mission as originating simply from God it highlights the central role of the Spirit in the effective mission of the church **The Central Friend** , 1909 [Comparing Religions](#) Jeffrey J. there is and can be but one absolute Truth in Kosmos The majority of the public Areopagus is generally composed of self appointed judges who have never made a permanent deity of any idol save their own personalities their lower selves And he who believes his own religion on faith will regard that of every other man as a lie and hate it on that same faith Theosophy is not a religion It is Religion itself a Divine Science embracing every science in life moral and physical and a sublime code of Ethics Theosophy is Religion and the Theosophical Society the Universal Church of Morality The Theosophical Movement is the great moral but silent force Human life devoid of all its world ideals and beliefs becomes deprived of its higher sense and meaning But the world ideals can never completely die out Exiled by the fathers they will be received with open arms by the children The Theosophical Movement was reborn in 1875 and so the cyclic evolution of theosophical ideals continues The Path ,1911 The R.C. Confusors Renford,2010-09-15 The author has published many books articles and essays that take a metaphysical approach to interpreting ancient texts such as the Vedas the Dhampravada the Tao Teh Ching and the Bible He follows no theological dogma nor adopts any philosophical school He teaches in the Renford books and in the Institute of Applied Metaphysics that taking a single approach to exclusion of any other will not produce an accurate picture Some text must be taken metaphysically some as historical and some as physical events in which the witness had little or no point of reference comparable to ours In any other approach one will be interpreting based on a fixed religious tradition or a philosophical bias We have seen many varations on the idea that alien intervention has taken place in our ancient history but this author has gone into greater depth on the difference between Universal Being and the warrior gods depicted in the ancient texts

Finding God among Our Neighbors Kristin Johnston Largent,2013-08-01 Students of theology live in a world defined by interreligious dialogue This supplemental theology text prepares students for the real task of understanding and

articulating their Christian beliefs in a religiously and culturally diverse world Concentrating on the anchoring subjects of God creation and humanity she explores these loci in the broader context of interreligious dialogue with Hinduism Judaism Buddhism and Islam to better understand the Christian tradition The View From Mars Hill Charles B. Jones,2005-04-25

What are Christians to make of religious diversity Are other religions simply wrong Is this great multiplicity something to appreciate and foster Is there any way to judge whether one religion is better than another or are all equally good options What has brought about such a wealth of diversity and tension in the first place Charles Jones traces the rich history of Christianity s many encounters with other religions from the Roman Empire and Paul s speech to the Athenians on Mars Hill Acts 17 16 34 to the discovery of non European peoples through various currents of philosophy and science and in both the peaceful and violent meetings of Christianity and other religions today Jones suggests that there are patterns to the way people meet across religious boundaries He helps us see the tension between our desire for religious coherence and our need to build bridges to avert conflict and foster good relations the tension between integrity and openness By the end of the book readers will have a sense of the history of Christianity s engagement with religious diversity as well as tools to move interfaith life forward Excellent for parish education and informal discussion groups this eye opening guide takes a vital step in our understanding of our roles in a world of religious diversity John Hick's Pluralist Philosophy of World Religions Paul Rhodes Eddy,2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick s model of religious pluralism all the world s great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick s model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick s pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick s pluralistic model and an up to date summary of a variety of critiques directed toward Hick s proposal Paul Rhodes Eddy concludes that Hick s present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world s religions understand the divine in often contradictory ways *Neely's History of The Parliament of Religions and Religious Congresses at the World's Columbian Exposition* Walter Raleigh Houghton,1893
