Women Constructing Men Sarah S. G. Frantz,Katharina Rennhak,2010-01-15 Female novelists have always invested as much narrative energy in constructing their male characters as in envisioning their female The collected articles in demonstrate that the topic of female authored masculinities not only allows scholars to re discover almost every novel written by a woman but also triggers reflections on a host of theoretical questions of gender and genre [A Jane Austen Christmas](#) Carlo DeVito,2015-10-06 Filled with the remarkable wit and insight of one of the world's most cherished authors A Jane Austen Christmas gives readers insight into Austen's life through little known stories about how she and her family celebrated the treasured holiday season Carlo DeVito provides an intimate portrait of Austen's most cherished Christmas memories with her family from the gift of her first writing desk to her first love and heartbreak to her brewing mead and beer in time for the holidays Along the way readers will spend a holiday in the Austen house celebrate Jane's birthday meet the inspiration for more than a dozen characters attend the Christmastide series of balls and learn how to make family's favorite recipes and dedicate a novel to the Prince Regent Remarkably fresh and supremely entertaining A Jane Austen Christmas brings Austen's world to life as never before *In Search of the Two-Handed Economist* Craig Freedman,2016-11-21 For the economics profession issues of marketing and ideology have often been reduced to the status of the love that dare not speak its name This volume brings these issues out of the closet and examines what effect if any these factors have in

shaping the contours of the discipline The way in which economists face policy issues is in part driven even if only subconsciously by unacknowledged ideological concerns and the increasing need to sell one's theories, views and policies in a frustratingly competitive academic market In seven carefully and provocatively granulated chapters the volume raises possible implications of these marketing and ideological imperatives by approaching the problem from a number of surprising and irreverent directions Though unfortunately in its irrevocable denouement the text proves incapable of creating anything resembling a life-changing experience let alone coming to any definite and irrefutable conclusions Like life itself economics is full of uncertainties and uncontrollable difficulties

Falcon, 2021-12-21 Women in History 300 Word Search Puzzles puts your knowledge to the test with 300 fun-filled word searches about strong and powerful women throughout history that will keep you on your toes for hours at a time Celia in Search of a Husband: By a Modern Antique Caroline Franklin, 2022-06-22 This ground-breaking nineteenth-century volume is of considerable scholarly interest as an example of a female-centric popular novel Celia in Search of a Husband is a high-spirited and entertaining example of an anti-Jacobin novel written at the height of the backlash against female intellectuals during the Napoleonic wars Despite this hostile climate the author sought to acknowledge the importance of female education and independence whilst at the same time endorsing the traditional Christian teaching that a wife should be subordinate to her husband Although second-wave feminists prioritized the progressive writers with whom they more readily identified more recent scholarship has rightly paid close attention to conservative or moralist writers such as Miss Byron and recognized how influential they were Accompanied by extensive editorial commentary this edition of Celia in Search of a Husband contributes to this scholarship on the literary history of women's writing and will be a welcome to those with a particular interest in women's writing, satiric novels and spoofs and Jane Austen

Is Digital

Different? Michael Moss, Barbara Endicott-Popovsky, 2015-09-11 This edited collection brings together global experts to explore the role of information professionals in the transition from an analogue to a digital environment. The contributors including David Nicholas, Valerie Johnson, Tim Gollins and Scott David focus on the opportunities and challenges afforded by this new environment that is transforming the information landscape in ways that were scarcely imaginable a decade ago and is challenging the very existence of the traditional library and archive as more and more resources become available on line and as computers and supporting networks become more and more powerful. By drawing on examples of the impact of other new and emerging technologies on the information sciences in the past, the book emphasises that information systems have always been shaped by available technologies that have transformed the creation, capture, preservation and discovery of content. Key topics covered include Search in the digital environment, RDF and the semantic web, Crowd sourcing and engagement between institutions and individuals, Development of information management system, Security, managing online risk, Long term curation and preservation, Rights and the Commons, Finding archived records in the digital age. *Is Digital Different* illustrates the ways in which the digital environment has the potential to transform scholarship and break down barriers between the academy and the wider community and draws out both the inherent challenges and the opportunities for information professionals globally. Readership: This book will be of particular interest to students, particularly those on information studies programs and academics, researchers and archivists globally.

[Religion, Language, Narrative and the Search for Meaning](#) Anthony Campbell, 2009-08-09 This is a book about religion from a secular standpoint which nevertheless takes its subject seriously. Anthony Campbell is a medical doctor who has long been interested in religion and spirituality and has written several books about it in the last 30 odd years including the first detailed examination of the philosophical ideas underlying Transcendental Meditation, *Seven States of Consciousness* published in 1973. He has also made a study of the Persian heretical Islamic sect known in the West as the Assassins, *The Assassins of Alamut* available from Lulu. In 2008 he published a personal account in *Totality: Beliefs and the Religious Imagination* also available from Lulu of his own gradual abandonment of the search for religious truth. The present book looks at a number of attempts to explain the existence of religious belief and concludes that religion will probably always appear naturally in human consciousness because of the way in which our minds have evolved.
