Think Like an Archipelago
Michael Wiedorn,2018-01-25 A career spanning assessment of Glissant s work as a philosophical project With a career spanning more than fifty years as a writer scholar and public intellectual douard Glissant produced an astonishingly wide range of work including poems novels essays pamphlets and theater In Think Like an Archipelago Michael Wiedorn offers a fresh interpretation of Glissant s work as a cohesive and explicitly philosophical project paying particular attention to the last two decades of his career which have received much less attention in the English speaking world despite their remarkable productivity Focusing his study on the idea of paradox Wiedorn argues that it is fundamental to Caribbean culture and thought and at the heart of Glissant s philosophy The question of difference has long played a central role in the literary and philosophical traditions of the West however to think differently Glissant suggests focusing elsewhere on the post plantation societies of the Caribbean and the Americas more broadly For Glissant paradoxical lessons drawn from the natural and cultural realities of the Caribbean can point to new ways of thinking and being in the world in other words to the creation of what Glissant calls a new category of literature and in turn to the attainment of his utopian political vision Thinking through such paradoxes Wiedorn demonstrates can offer new perspectives on the old questions of totality alterity teleology and the potential of philosophy itself The book s use of the central concept of paradox is both original and convincing and allows Wiedorn to reframe many of the issues surrounding Glissant s thought in a new and illuminating way Celia Britton author of douard Glissant and Postcolonial Theory Strategies of Language and Resistance

Isak Dinesen and the Engendering of Narrative Susan Hardy Aiken,1990-04-05 Although Isak Dinesen has been widely acclaimed as a popular writer her work has received little

sustained critical attention In this revisionist study Susan Hardy Aiken takes up the complex relations of gender sexuality and representation in Dinesen s narratives Drawing on feminist psychoanalytic and post structuralist theories Aiken shows how the form and meaning of Dinesen s texts are affected by her doubled situations as a Dane who wrote in English a European who lived for many years in Africa and a woman who wrote under a male pseudonym within a male centered literary tradition In a series of readings that range across Dinesen s career Aiken demonstrates that Dinesen persistently asserted the inseparability of gender and the engendering of narrative She argues that Dinesen s texts anticipate in remarkable ways some of the most radical insights of contemporary literary theories particularly those of French feminist criticism Aiken also offers a major rereading of *Out of Africa* that both addresses its distinctiveness as a colonialist text and places it within Dinesen s larger oeuvre In Aiken s account Dinesen s work emerges as a compelling inquiry into sexual difference and the ways it informs culture subjectivity and the language that is their medium This important book will at last give Isak Dinesen s work the prominence it deserves in literary studies

Marxism and Feminism Shahrzad Mojab, 2015-03-12 Global events from economic crisis to social unrest and militarization disproportionately affect women Yet around the world it is also women who are leading the struggle against oppression and exploitation In light of renewed interest in Marxist theory among many women activists and academics Marxism and Feminism presents a contemporary and accessible Marxist feminist analysis on a host of issues It reassesses previous debates and seeks to answer pressing questions of how we should understand the relationship between patriarchy and capitalism and how we can envision a feminist project which emancipates both women and society With contributions from both renowned scholars and new voices Marxism and Feminism is set to become the foundational text for modern Marxist feminist thought

In Search of the Classic Steven Shankman, 2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman's study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Valéry poem *Le Cimetière marin* and the classic qualities it shares with Pindar's third Pythian ode from which Valéry derives the epigraph for his poem

And in Our Time Antony Shuttleworth, 2003 This book brings together essays which in diverse ways not only revise existing views on thirties writing but also provide ways of accounting for its critical neglect The essays examine from a variety of theoretical and critical perspectives a body of work that reflects the true diversity of the literary and cultural contexts of the thirties and includes studies on the work of Louis MacNeice Frank Sheed Christopher Dawson Alick West Christopher Caudwell Stevie Smith Storm Jameson Phyllis Bottome Ivy Compton Burnett Graham Greene Eric Ambler George Orwell Christina Stead

Noise and Spirit Anthony B. Pinn, 2003-11-01 Rap music is often seen as a Black secular response to pressing issues of our time Yet like spirituals the blues and gospel music rap has deep connections to African American religious traditions *Noise and Spirit* explores the diverse religious dimensions of rap stemming from Islam including the Nation of Islam and Five Percent Nation Rastafarianism and Humanism as well as Christianity The volume examines rap s dialogue with religious traditions from the ways in which Islamic rap music is used as a method of religious and political instruction to the uses of both the blues and Black women s rap for considering the distinction between God and the Devil The first section explores rap s association with more easily recognizable religious traditions and communities such as Christianity and Islam The next presents discussions of rap and important spiritual considerations including on the topic of death The final unit wrestles with ways to theologize about the relationship between the sacred and the profane in rap

Searching for a Distant God Kenneth Seeskin, 2000-01-13 Monotheism is usually considered Judaism s greatest

contribution to world culture but it is far from clear what monotheism is This work examines the notion that monotheism is not so much a claim about the number of God as a claim about the nature of God Seeskin argues that the idea of a God who is separate from his creation and unique is not just an abstraction but a suitable basis for worship He examines this conclusion in the contexts of prayer creation sabbath observance repentance religious freedom and love of God Maimonides plays a central role in the argument both because of his importance to Jewish self understanding and because he deals with the question of how philosophic ideas are embodied in religious ritual *What's Right with the Trinity?* Hannah

Bacon,2016-02-11 The doctrine of the Trinity poses a series of problems for feminist theology At a basic level the androcentric nature of trinitarian language serves to promote the male as more fully in the image of God and as the archetype of humanity pushing women to the margins of personhood It is no surprise then that feminist scholarship on this doctrine has often focused on what s wrong with the Trinity setting out the problems raised by the use of traditional androcentric trinitarian language This book brings together a discussion of feminist theological methodology with a critical exploration of the doctrine of the Trinity Focussing on what s right with the Trinity as opposed to what s wrong with the Trinity it considers the usefulness of this doctrine for feminist theology today It replaces a stress on trinitarian language with an emphasis on trinitarian thought exploring how we might effectively think rather than speak God in light of feminist concerns In particular it asks how a trinitarian understanding of God might support and be supported by key values which underpin a feminist way of doing theology specifically values which underpin the methodological use of women s experience in feminist theology The central argument is that thinking God as Trinity need not serve to reinforce patriarchal values and ideals but may in fact promote the subjectivity and personhood of women *The Conversion of Imagination* Matthew W.

Maguire,2006-03-31 Maguire uncovers a history of French thought that casts the imagination as a dominant faculty in our experience of the world Original and thought provoking this book will interest a range of readers across intellectual history political theory literary and cultural studies and the history of religious thought **The Oxford Handbook of Criminal**
