of language and in the teacher's role in developing children's knowledge about language. It suggests activities for the primary classroom which help children to look at language at how it is used and how it works. It contextualises the approaches underpinning these activities so that their intentions and purposes are made clear.

Understanding Difficulties in Literacy Development Felicity Fletcher-Campbell, Gavin Reid, Janet Soler, 2009-09-10
Literacy Development Lessons in Teaching Reading Comprehension in Primary Schools Suzanne Horton, Louise Beattie, Branwen Bingle, 2015-07-13

Lesson planning in line with the new Primary National Curriculum. Why do we teach children to read? It is not merely to decode the words. We teach them to derive meaning from the text to comprehend it. To not just read the lines but to read between the lines and even read beyond the lines. So how can you make teaching comprehension in primary schools effective and engaging? How are you ensuring that children are finding meaning in what they read and how do we support more able readers to learn more? What does a good reading lesson look like? This book demonstrates the effective teaching of reading through exemplar lessons. It discusses what makes them good lesson plans and how they can be adapted to suit different classes and different schools. In particular, this book helps you to meet the needs of more able readers particularly in years 5 and 6, outlining ways to challenge more able pupils to support them with the level 6 tests in Year 6. It helps you to cultivate your subject knowledge and invigorate your classroom teaching through focusing on what children need to learn and how to teach it. Did you know that this book is part of the Lessons in Teaching series? WHAT IS THE LESSONS IN TEACHING SERIES? Suitable for any teacher at any stage of their career, the books in this series are packed with great ideas for teaching engaging, outstanding lessons in your primary classroom. The Companion Website accompanying the series includes extra resources including tips, lesson starters, videos and Pinterest boards. Books in this series: *Lessons in Teaching Grammar in Primary Schools*, *Lessons in Teaching Computing in Primary Schools*, *Lessons in Teaching Number and Place Value in Primary Schools*, *Lessons in Teaching Reading Comprehension in Primary Schools*, *Lesson in Teaching Phonics in Primary Schools*.

EBOOK: Supporting Students with Literacy Difficulties: A Responsive Approach Ted Glynn, Janice Wearmouth, Mere Berryman, 2005-11-16

Arguably the most common sense and certainly the most informative contemporary text on literacy. Glynn, Wearmouth and Berryman bring a wealth of experience to the field of literacy culture and family school collaboration. We are indebted to the authors for putting together such an informative and groundbreaking text that has overarching relevance in today's multicultural society. Dr Gavin Reid, University of Edinburgh, UK. A much needed text to counter the overly psychological approach to teaching literacy. It emphasizes a socio-cultural approach which puts the focus on the interactive, responsive and social elements of the child learning to read in relation to the world around them. Wally Penetito, Victoria University, New Zealand. In many countries, school populations are becoming increasingly socially and culturally diverse and delivering effective literacy programmes is becoming more challenging and complex. This book shows schools how to address difficulties with literacy learning experienced by students of diverse backgrounds by employing

strategies that respond to and affirm difference This responsive approach actively engages with students prior knowledge and experiences and ensures that these are fully validated in the literacy activities of the classroom The responsive approach includes members of students homes and communities collaborating to facilitate their participation in defining and delivering literacy programmes This book illustrates ways in which teachers and other adults can create responsive social contexts at school and at home to enable all children to participate fully in reading writing and oral language activities in the classroom It offers effective strategies for overcoming barriers to literacy learning including Reading tutoring that promotes comprehension and independence Writing partnerships that respond to children s messages Responsive feedback strategies Interactive contexts that promote student responsibility for learning Community and school collaboration to develop authentic learning tasks Supporting Students with Literacy Difficulties A Responsive Approach is key reading for teacher education students practising teachers and parents Teaching Children to Read Great Britain.
