

This is a book to read before you go on holiday and a book to take with you on holiday. It will help you to find, and to name, some of the interesting animals and plants you will find on the seashore—animals and plants you will find nowhere else in the town or country.

It will also tell you where to find them on the seashore, and that is important. All seashore animals have special parts of the shore in which they prefer to live; it would be no use, for instance, looking for a lug worm up on the rocks because it lives buried in the wet sand. Nor would it be any use looking for a limpet in the wet sand, because it lives on the rocks.

But you will not make these mistakes after you have read this book, because you will KNOW where to look.
