Seaside Piers:

Lancashire's Seaside Piers Martin Easdown, 2009-11-19 In this a companion volume to his definitive history of Yorkshires pleasure piers Martin Easdown turns his expert attention westward to the Lancashire coast His highly illustrated survey of the piers constructed at famous resorts like Blackpool Morecambe Southport and St Annes on Sea celebrates structures that are among the most exuberant and evocative of the Victorian age Each of these historic piers has its own character and story yet all of them represent the optimistic style of the British seaside resort at the peak of its popularity In those days the Lancashire coast and Blackpool in particular became the principal holiday destination for the workers of the nearby industrial towns during their Wakes Weeks The piers that survive are fascinating relics of that lost age In this meticulously researched account Martin Easdown describes how these extraordinary buildings came to be constructed how they were designed and financed how they were used and how hazards beset them fire storm ship collision war damage and ever present threat of insolvency His entertaining book reveals and records a neglected aspect of the history of Lancashire and the northwest

The Architecture of British Seaside Piers Fred Gray, 2020-09-01 Of all the architectural delights of British seaside resorts the most astonishing and idiosyncratic is the seaside pier Remarkable visual spectacles piers are architecturally extraordinary in concept and at times outrageous in execution They brought together the Victorian genius for technological and material innovation architectural ambition and engineering ingenuity in the search for new designs for leisure as well as profit over the sea This superbly illustrated book explores the history of the design processes leading to the architectural and engineering innovations that have allowed people to walk on water in such diverse and delightful ways Coverage includes the development of piers into the crowning architectural glory of British seaside resorts the key people materials inventions and technologies in the field particularly the work of Eugenius Birch the greatest pier designer the remarkable diversity of piers ranging from the earliest simple landing stages through staid promenade piers and the glories of fully fledged pleasure piers to the boisterous joys of funfair and amusement piers the rich variety of architectural styles including exotic Orientalism and streamlined Modernism and finally today s contemporary prospects for renewal and reinvention

"Iron, Ornament and Architecture in Victorian Britain" Paul Dobraszczyk, 2017-07-05 Vilified by leading architectural modernists and Victorian critics alike mass produced architectural ornament in iron has received little sustained study since the 1960s yet it proliferated in Britain in the half century after the building of the Crystal Palace in 1851 a time when some architects engineers manufacturers and theorists believed that the fusion of iron and ornament would reconcile art and technology and create a new modern architectural language Comprehensively illustrated and richly researched *Iron Ornament and Architecture in Victorian Britain* presents

the most sustained study to date of the development of mechanised architectural ornament in iron in nineteenth century architecture its reception and theorisation by architects critics and engineers and the contexts in which it flourished including industrial buildings retail and seaside architecture railway stations buildings for export and exhibition and street furniture Appealing to architects conservationists historians and students of nineteenth century visual culture and the built environment this book offers new ways of understanding the notion of modernity in Victorian architecture by questioning and re evaluating both Victorian and modernist understandings of the ideological split between historicism and functionalism and ornament and structure

Piers of Hampshire & the Isle of Wight Martin Easdown,Linda Sage,2011-09-15 This fascinating selection of photographs traces some of the many ways in which the piers of Hampshire and the Isle of Wight have changed and developed over the last century

Sustainable Tourism VIII S. Syngellakis,U. Probstl-Haider,F. Pineda,2018-07-23 This volume includes papers from the 8th International Conference on Sustainable Tourism Today tourism is becoming accessible to a growing number of people and is an important component of development not only in economic terms but also for knowledge and human welfare This collection of research aims to find ways to protect the natural and cultural landscape through the development of new solutions which minimise the adverse effects of tourism The phenomenon has many more advantages than disadvantages New forms of economic development and increasing wealth of human societies depend on tourism Our knowledge of the world now includes a strong component due to tourism Human welfare has physiological and psychological elements which tourism promotes both because of the enjoyment of knowing new territories and increasing contacts with near or far away societies and cultures The tourism industry has nevertheless given rise to some serious problems including social costs and ecological impacts Many ancient local cultures have practically lost their identity Their societies have oriented their economy only to this industry Both the natural and cultural rural or urban landscapes have also paid a high price for certain forms of tourism These problems will persist if economic benefit is the only target leading to economic gains that eventually become ruinous It is also a grave error to disregard the fact that visitors nowadays are increasingly demanding in cultural and environmental terms The Global Change is a set of natural environmental changes that are strongly affected by technological and social developments Natural changes are inherent in the Earth s ecosystem the ecosphere Also technological and social changes are inherent to mankind the noosphere and are now becoming widespread Cities are growing rapidly and industry requires increasingly larger areas Many traditional rural areas are being abandoned Tourism should also play an important role in this context Thus interestingly many historic agricultural districts have maintained or even recovered their local population numbers through intelligent strategies of tourism focused on nature and rural culture Natural landscapes and biodiversity are becoming increasingly appreciated The tourism industry must be able to respond to these aspirations

Piers of England and Wales Steve Edmunds,2025-03-15 A photographic journey exploring the seaside piers of England and Wales capturing the variety of life and structures to be

found around our coast Live Cinema Sarah Atkinson, Helen W. Kennedy, 2017-12-28 Live Cinema is a term used to capture a diverse range of experiences that incorporate a live element in relation to a film's exhibition. The live augmentation of cinema screenings is not a new phenomenon; indeed, this tendency is present throughout the entire history of cinema in the form of live musical accompaniments to silent screenings, showmanship practices, and cult film audience behaviours. The contemporary revival of experiential cinema captured within this volume presents instances where the live transcends the mediated and escapes beyond the boundaries of the auditorium. Our contributors investigate film exhibition practices that include synchronous live performance, site-specific screenings, technological intervention, social media engagement, and all manner of simultaneous interactive moments including singing, dancing, eating, and drinking. These investigations reveal new cultures of reception and practice, new experiential aesthetics, and emergent economies of engagement. This collection brings together fifteen contributions that together trace the emergence of a vivid new area of study. Drawing on rich, diverse, and interdisciplinary fields of enquiry, this volume encapsulates a broad range of innovative methodological approaches, offers new conceptual frameworks, and new critical vocabularies through which to describe and analyse the emergent phenomena of Live Cinema.

Helical Piles Howard A. Perko, 2009-10-19 An unbiased, comprehensive review of helical pile technology and applications. Helical piles have risen from being merely an interesting alternative for special cases to a frequently requested, more widely accepted deep foundation adopted into the 2009 International Building Code. The first alternative to manufacturer-produced manuals, Howard Perko's *Helical Piles: A Practical Guide to Design and Installation* answers the industry's need for an unbiased and universally applicable text dedicated to the design and installation of helical piles, helical piers, screw piles, and torque anchors. Fully compliant with ICC Evaluation Services Inc. Acceptance Criteria for Helical Foundation Systems and Devices AC308, this comprehensive reference guides construction professionals to manufactured helical pile systems and technology, providing objective insights into the benefits of helical pile foundations over driven or cast foundation systems and recommending applications where appropriate. After introducing the reader to the basic features, terminology, history, and modern applications of helical pile technology, chapters discuss installation and basic geotechnics, bearing and pullout capacity, capacity verification through torque axial load testing, reliability, and sizing, expansive soil, and lateral load resistance, corrosion, and life expectancy, foundation earth retention, and underpinning systems, foundation economics, select proprietary systems, IBC and NYC Building codes. Covering such issues of concern as environmental sustainability, *Helical Piles* provides contractors and engineers, as well as students in civil engineering, with a practical, real-world guide to the design and installation of helical piles.

Piers and Other Seaside Architecture Lynn F. Pearson, 2002 Originally constructed as landing stages for trippers by boat in the nineteenth century, piers later developed into attractions in themselves, with ornate pavilions, delicate ironwork, and exotic lighting. Lynn F. Pearson, an

architectural historian outlines the fascinating history of pier and pavilion construction using colour illustrations and photographs to show the development of these attractions from simple wooden structures to complex entertainment venues This book explores the allure of seaside developments from the Victorian charm of Weston super Mare s grand pier to the seaside developments of the twenty first century such as Ilfracombe s Landmark Theatre which continues to impress and entertain to this day **Pearson's Magazine** ,1897 Authentic and Inauthentic Places in Tourism Jane Lovell,Chris Bull,2017-09-05 With the rise of post truth and fake news a thorough examination of authenticity has never been so relevant This book explores the geography of authenticity investigating a wide variety of places used by tourists Not only does it assess what might be described as the more traditional objects for examination places such as the city the countryside and the coast it also includes chapters on art and place hipster places gentrification heritage sites film locations photographed places and eventful places Using a wide angled lens on places reveals linkages and possibilities enabling the book to skate across the surface of the geography of authenticity locating the magically real heritage site the poignant replica the authenticated theme park the unmasked carnival In focusing on authentic and inauthentic places this text provides a useful contribution to the understanding of how places are changing how they are perceived and how authenticity is embodied and performed within them *Authentic and Inauthentic Places in Tourism* is an insightful study and an essential read for those involved in the study of geography tourism urban studies culture and heritage *Being British* Kieran Hughes, Maureen Hughes,2017-07-30 A smashing guide to the customs history and idiosyncrasies of Great Britain from geography and landmarks to education food language and royalty *Being British* is the perfect book for everyone who lives or wishes they lived in our wonderful country Here the British will discover what they already suspected and that is that many of the GREAT historical figures of all time were British many of the GREATEST inventions were British as well as many other patriotic facts They will also be reminded of all great and unique customs and traditions inherent in our beautiful land and probably learn of some they never knew existed too as well as laughing at the things that only The British could do *Being British* is also an excellent companion for all tourists and new inhabitants who are struggling to come to terms with and understand the way in which we British live and conduct ourselves and our lives As it gives a once over lightly introduction to British culture this volume will probably have wide appeal Tourists and potential immigrants are likely to peruse it with great and earnest interest NZ Crown Mines **Designing the Seaside** Fred Gray,2006 In *Designing the Seaside* Fred Gray provides a history of seaside architecture from the 18th century to the present day investigating leisure entertainment taste fashion and gender and shows how the seaside even became a hotbed for moral and sexual issues from the early use of bathing machines to twentieth century beauty pageants and naturist groups He relates the evolution of resort architecture to sweeping changes in how seaside nature was experienced and used by holidaymakers The book also traces the history of the coastal resort with examples ranging from Regency Sidmouth to Victorian Scarborough and early 20th century Morecambe as well as assessing

seaside developments in the USA and Continental Europe from Coney Island and Santa Barbara to Nice and Trouville Featuring many colourful informative and often entertaining photographs drawings guidebook illustrations postcards and publicity posters from resorts around the world Designing the Seaside is a thoroughly readable as well as a visually fascinating account of changing attitudes to holidaymaking and its setting **BOOK JACKET** **Painting Is a Class** ACT Meg Fabian,2011-03 **Pier Railways and Tramways** Martin Easdown,2025-08-15 A fascinating survey in photographs of pier railways and tramways around the UK and Ireland through history to the present day **Walking Over the Waves** Chris Foote Wood,2008 In 2007 author and broadcaster Chris Foote Wood achieved a lifelong ambition to visit every seaside pier in England Wales and the Isle of Man all 56 of them In words and fascinating pictures he conveys the history personalities past and present the stories and legends associated with each seaside pleasure pier From initial construction to later repair through storms shipwrecks and fires that sometimes led to complete destruction they are all here the longest the shortest the oldest and youngest the finest to the most mundane As the author enthuses Each pier is different with its own personality some piers are much as they were when they were built in the Victorian and Edwardian eras while others are wholly given over to entertainment and modern amusements There s something about a pier that has universal appeal to all ages generations and most nationalities Enthusiasts appreciate a pier s form and structure while most holidaymakers are more concerned about the facilities on offer Some are content to stroll along the pier deck enjoying the fresh air exercise and views over the sea while others immerse themselves in the amusement arcades and funfairs that are a major feature of most of our remaining seaside piers Food drink and entertainment are all the more enjoyable when taken over the waves As well as the piers themselves Chris describes the pier railways a welcome facility on some of the longer piers and their associated cliff lifts As a bonus the multitude of facts and information make an ideal quiz questions and answers are provided
