## **Sg Sociology In A Changing World:**

**The Making of Singapore Sociology** Tong Chee-Kiong, Lian Kwen-Fee, 2021-11-08 This book presents a collection of essays of how the city state of Singapore's societal dynamics have evolved from the time of its birth as a nation in 1965 to the present. Key areas of Singapore society are explored contributing to the understanding of the social organisation of the city. This study reveals a shift from the modernisation studies in the 1970s to a more political economic turn as a consequence of the influence of dependency and world systems theories. Topics covered include urban studies, family, education, medical care, class and social stratification, work, language, ethnic groups, religion and crime and deviance. Globalization and the Evolving World Society, 2021-11-01 The societies of the present world are experiencing many turbulent changes. New forces of change and modernization are driving people, business and cultures across borders. The world has become a home to a new generation of homo sapiens who are curious about others but at the same time cherish to preserve their own cultures. What is the nature of this evolving world society? Is the world driving toward a new global civilization, an end of history or an inevitable civilizational clash? The present volume has brought together leading scholars in the field to examine the concept of globalization, deliberate on the character of its multifaceted nature and expressions and delineate its impact on the emerging world economy, politics, culture and science. A number of substantive issues such as the emergence of new global economic inequality, culture and the role of the trans-nationals, nature of the emerging global environmental regimes, rise of the NICs and the conflicting role of the nation states in the face of the advancing forces of globalization are addressed. It is contended that globalization should be perceived neither as an unbounded economic progress nor as an expansion of western domination. Globalization is rather defined as a new development strategy, a process of change that can be planned, guided and controlled. For national political and business leaders of the world, the volume provides a blueprint of the emerging areas of policy concerns and guidance. For the world of social science, it presents a road map of the emerging intellectual issues and challenges. Contributors are Alessandro Bonanno, Stephen W K Chiu, Douglas Constance, Richard J Estes, R Scott Frey, Archibald O Haller, George A Miller, Proshanta K Nandi, Winifred R Poster, J Timmons Roberts, Shahid M Shahidullah, Bam Dev Sharda and Alvin Y So. **Handbook of Sports Studies** Jay Coakley, Eric Dunning, 2000-08-29 Now available in paperback, this vital handbook marks the development of sports studies as a major new discipline within the social sciences.
