An Almanack for the Year of Our Lord ... Joseph Whitaker,1928 Reports of the British and Foreign Bible Society British and Foreign Bible Society,1928 Vols 1 64 include extracts from correspondence *The Landowners of the Argentine Pampas* Roy Hora,2001-01-04 This is a social and political history of the Argentine landowners for many decades Latin America s most affluent propertied class Roy Hora develops a historically based view of how socio economic and political change affected the landowners and was in turn affected by them between the 1860s and 1940s He questions the excessively static picture of the landowners of the pampas which unquestioningly accepts the image of power lineage and permanence given by both panegyrists and critics of the estancieros Dr Hora challenges the view of a powerful reactionary landed class dominating the country s history from colonial times to the rise of Peronism in the 1940s But he also challenges revisionist interpretations which seek to de emphasize the central role played by the landowning class in the evolution of modern Argentina Nominations Before the Senate Armed Services Committee, Second Session, 102d Congress United States. Congress. Senate. Committee on Armed Services,1993 Local Experiences of Mining in Peru Gerardo Castillo Guzmán,2020-02-05 This book uses a multimethod approach to examine local experience of contemporary mining development in the Peruvian Andes creating an understanding of the transformations that rural societies experience in this context Mining is a major component of economic growth in many resource endowed countries whilst also causing mixed social cultural and environmental effects Most current literature on contemporary mining in Peru is largely focussed on conflict however in this text the author takes a differing approach by examining the experiences of families in the vicinity of Rio Tinto s La Granja exploration copper project Northern Peru an area with great significance due to the mining investment and development which has taken place over the past 25 years The book first provides a critical discussion about production of space theories and debates on spatial mobility highlighting their relevance to understanding large scale mining developments especially in the Peruvian Andes The following chapters analyze spatial transformations mining development has prompted focusing on four axes access to space production mobility and representations of space A comprehensive narrative is constructed drawing on diverse voices and perspectives including those of family heads and their partners local leaders company employees and social scientists The book concludes by discussing how the findings challenge some of the current accounts of the social effects of mining developement on rural communities and pose significant implications for sustainable development programs and place based practices By taking an interdisciplinary approach this book will appeal to a wide audience including geographers social anthropologists and social scientists interested in the social effects of mining as well as researchers interested in current Latin American Studies and Rural Development **Caribbean Encounter** Kay
