**The Urban Fabric of Crime and Fear** Vania Ceccato, 2012-06-21 How does the city's urban fabric relate to crime and fear and how is that fabric affected by crime and fear Does the urban environment affect one's decision to commit an offence Is there a victimisation related inequality within cities How do crime and fear interrelate to inequality and segregation in cities of developing countries What are the challenges to planning cities which are both safe and sustainable This book searches for answers to these questions in the nature of the city particularly in the social interactions that take place in urban space distinctively guided by different

land uses and people's activities. In other words, the book deals with the urban fabric of crime and fear. The novelty of the book is to place safety and security issues on the urban scale by 1 showing links between urban structure and crime and fear 2 illustrating how different disciplines deal with urban vulnerability to and fear of crime 3 including concrete examples of issues and challenges found in European and North American cities and without being too extensive also in cities of the Global South.

Chicken Soup for the College Soul Jack Canfield, Mark Victor Hansen, 2012-08-07 Readers will love having this invaluable collection to guide, inspire, support and encourage them throughout their college experience.

Moving Safely Vania Ceccato, 2013-09-12 A sustainable city enables the fulfillment of the mobility needs of its citizens via accessible, reliable and safe transportation systems. Safety is one of many factors influencing the mobility of individuals in urban environments. Moving Safely: Crime and Perceived Safety in Stockholm's Subway Stations aims to provide both theoretical and empirical perspectives on safety conditions at subway stations. The book adopts an approach that is place-centered, looking upon those who travel through the system and who may become a victim of crime. Safety at transportation nodes is not a field for one science only; it demands the combination of cross-disciplinary theories: urban criminology, architecture, geography, transportation and urban planning, as well as integrated methods that are capable of dealing with an ever-increasing volume of data. Adopting a whole journey approach to safety, the book offers suggestions on how to plan safety at subway stations with a variety of passengers' needs. Although these suggestions are not the first ones in the literature, certainly they are new in terms of relying on findings from hypothesis testing and spatial data from a Scandinavian city. Moving Safely is relevant for experts in safety and transportation research, including criminologists, planners, transportation engineers, architects, as well as professionals dealing directly with safety interventions.
