que la mayoría de los folkloristas solían tener a una mujer como informante privilegiada. Esta imagen positiva de la mujer narradora tenía sus límites ya que se alababa a las mujeres como trasmisoras no como creadoras y se veía su papel como meramente ancilar y pasivo sin que los folkloristas se interesaran por los contenidos temáticos y estilísticos de las narradoras. Esta publicación amplía horizontes al ocuparse no solo de narración oral tradicional sino también de otros tipos de narración empezando por la literatura escrita donde existe un auténtico topos sobre las mujeres narradoras pasando por el teatro y llegando incluso a las series televisivas. Las palabras se las lleva el viento y así llegan a todas partes como demuestra la extraordinaria difusión de los cuentos folklóricos más allá de cualquier frontera nacional o lingüística. Esperamos que este volumen que rescata el valor positivo de la oralidad femenina llegue a todas las personas que están interesadas en este tema tan novedoso en España como interesante y crucial para entender cuestiones de narratología y oralidad. **Diccionario de**
